**Supplement dated September 16, 2020
to the Prospectus dated April 29, 2020 (as revised July 6, 2020)**

Capitalized terms and certain other terms used in this supplement, unless otherwise defined in this supplement, have the meanings assigned to them in the Prospectus.

NVIT Multi-Manager Mid Cap Value Fund

1. Effective on or about November 2, 2020 (the “Effective Date”), WEDGE Capital L.L.P. (“WEDGE”) will no longer serve as a subadviser to the NVIT Multi-Manager Mid Cap Value Fund (the “Fund”). Accordingly, all references to, and information regarding, WEDGE are deleted in their entirety. American Century Investment Management, Inc. and Thompson, Siegel & Walmsley, LLC will continue to serve as the subadvisers to the Fund.
2. As of the Effective Date, the Prospectus is amended as follows:
 - a. The information under the heading “Principal Investment Strategies” on page 53 of the Prospectus is deleted in its entirety and replaced with the following:

Under normal conditions, the Fund invests at least 80% of its net assets in equity securities issued by mid-cap companies. The Fund employs a “value” style of investing, which means investing in equity securities that the Fund’s subadvisers believe to be trading at prices that do not reflect a company’s intrinsic value. Companies issuing such securities may be currently out of favor, undervalued due to market declines, or experiencing poor operating conditions that a subadviser believes to be temporary. The Fund may invest in stocks of mid-cap companies that are located outside the United States. It may invest in any economic sector and, at times, emphasize one or more particular sectors. The Fund generally considers selling a security when it no longer meets a subadviser’s criteria for inclusion in the portfolio, reaches a target price, fails to perform as expected, or when other opportunities appear more attractive. The Fund may enter into repurchase agreements to generate additional income.

The Fund consists of two portions managed by different subadvisers acting independently with respect to the assets of the Fund they manage. NFA is the Fund’s investment adviser and, subject to the approval of the Board of Trustees of Nationwide Variable Insurance Trust (the “Trust”), selects the Fund’s subadvisers and monitors their performance on an ongoing basis. NFA also determines the amount of Fund assets to allocate to each subadviser. NFA has chosen the Fund’s current subadvisers because they approach investing in stocks of mid-cap companies in a different manner from each other. For example, as of the date

of this Prospectus, one subadviser attempts to purchase stocks of companies that are temporarily out of favor and hold each stock until it has returned to favor in the market, and the other subadviser uses a combination of quantitative and qualitative methods to assess a company's valuation and attractiveness. In allocating assets between the subadvisers, NFA seeks to increase diversification among securities and investment styles in order to potentially increase the possibility for investment return and reduce risk and volatility.

- b. The second paragraph under the heading "Principal Investment Strategies" on page 103 of the Prospectus is deleted in its entirety and replaced with the following:

The Fund consists of two portions managed by different subadvisers acting independently with respect to the assets of the Fund they manage. NFA has selected American Century Investment Management, Inc. and Thompson, Siegel & Walmsley LLC as subadvisers to each manage the assets of a portion of the Fund. The subadvisers have been chosen because they approach investing in mid-cap securities in a different manner from each other. In allocating assets between the subadvisers, NFA seeks to increase diversification among securities and investment styles in order to increase the potential for investment return and, at the same time, reduce risk and volatility.

- c. The fourth paragraph under the heading "Principal Investment Strategies" on page 103 of the Prospectus is deleted in its entirety and replaced with the following:

The two portions are each managed as follows:

Class Y shares are sold to other mutual funds, such as “funds-of-funds” that invest in the Funds, and to separate accounts of insurance companies that seek neither 12b-1 fees nor administrative services fees. Class IV shares are sold generally to separate accounts of Nationwide previously offering shares of the Market Street Fund portfolios (prior to April 28, 2003).
