Lord Abbett Series Fund – Bond Debenture Portfolio Semiannual Report

For the six-month period ended June 30, 2021

From left to right: James L.L. Tullis, Independent Chairman of the Lord Abbett Funds and Douglas B. Sieg Director, President, and Chief Executive Officer of the Lord Abbett Funds.

Dear Shareholders: We are pleased to provide you with this semiannual report for Lord Abbett Series Fund – Bond Debenture Portfolio for the six-month period ended June 30, 2021. For additional information about the Fund, please visit our website at www.lordabbett.com, where you can access the quarterly commentaries by the Fund's portfolio managers. General information about Lord Abbett mutual funds, as well as in-depth discussions of market trends and investment strategies, is also provided in *Lord Abbett Insights*, a quarterly newsletter available on our website.

Thank you for investing in Lord Abbett mutual funds. We value the trust that you place in us and look forward to serving your investment needs in the years to come.

Best regards,

A handwritten signature in black ink, appearing to read 'D B Sieg'.

Douglas B. Sieg
Director, President, and Chief Executive Officer

Expense Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; expenses related to the Fund's services arrangements with certain insurance companies; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (January 1, 2021 through June 30, 2021).

The Example reflects only expenses that are deducted from the assets of the Fund. Fees and expenses, including sales charges applicable to the various insurance products that invest in the Fund, are not reflected in this Example. If such fees and expenses were reflected in the Example, the total expenses shown would be higher. Fees and expenses regarding such variable insurance products are separately described in the prospectus related to those products.

Actual Expenses

The first line of the table on the following page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading titled "Expenses Paid During Period 1/1/21 – 6/30/21" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table on the following page provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value	Ending Account Value	Expenses Paid During Period[†]
	1/1/21	6/30/21	1/1/21 - 6/30/21
Class VC			
Actual	\$1,000.00	\$1,029.60	\$4.48
Hypothetical (5% Return Before Expenses)	\$1,000.00	\$1,020.38	\$4.46

[†] Net expenses are equal to the Fund's annualized expense ratio of 0.89%, multiplied by the average account value over the period, multiplied by 181/365 (to reflect one-half year period).

Portfolio Holdings Presented by Sector

June 30, 2021

SOFR Secured Over Night Financing Rate.

[†] Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and, unless registered under such Act or exempted from registration, may only be resold to qualified institutional buyers. At June 30, 2021, the total value of Rule 144A securities was \$554,822,377, which represents 43.10% of net assets.

[#] Variable rate security. The interest rate represents the rate in effect at June 30, 2021.

^{*} Non-income producing security.

^(a) Variable Rate is Fixed to Float: Rate remains fixed or at Zero Coupon until designated future date.

^(b) Securities purchased on a when-issued basis (See Note 2(i)).

^(c) Investment in non-U.S. dollar denominated securities.

^(d) Foreign security traded in U.S. dollars.

^(e) Level 3 Investment as described in Note 2(o) in the Notes to Financials. Security valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in a significantly lower or higher value of such Level 3 investments.

^(f) All or a portion of this security is temporarily on loan to unaffiliated broker/dealers.

^(g) Floating Rate Loans in which the Fund invests generally pay interest at rates which are periodically re-determined at a margin above the London Interbank Offered Rate ("LIBOR") or the prime rate offered by major U.S. banks. The rate(s) shown is the rate(s) in effect at June 30, 2021.

^(h) Level 3 Investment as described in Note 2(o) in the Notes to Financials. Floating Rate Loans categorized as Level 3 are valued based on a single quotation obtained from a dealer. Accounting principles generally accepted in the United States of America do not require the Fund to create quantitative unobservable inputs that were not developed by the Fund. Therefore, the Fund does not have access to unobservable inputs and cannot disclose such inputs in the valuation.

⁽ⁱ⁾ Interest rate to be determined.

^(j) Security partially/fully unfunded.

^(k) Security is perpetual in nature and has no stated maturity.

^(l) Defaulted (non-income producing security).

^(m) Level 3 Investment as described in Note 2(o) in the Notes to Financials. Security fair valued by the Pricing Committee.

⁽ⁿ⁾ Interest rate is based on the weighted average interest rates of the underlying mortgages within the mortgage pool.

^(o) Security was purchased with the cash collateral from loaned securities.

^(p) Other Assets and Liabilities – Net include net unrealized appreciation/depreciation on forward foreign currency exchange contracts, futures contracts and swaps as follows:

See Notes to Financial Statements.

Total	\$ (76,992)	\$ (148,850)	\$ -	\$ (225,842)

(1) Refer to Note 2(o) for a description of fair value measurements and the three-tier hierarchy of inputs.

(2) See Schedule of Investments for fair values in each industry and identification of foreign issuers and/or geography. The table above is presented by Investment Type. Industries are presented within an Investment Type should such Investment Type include securities classified as two or more levels within the three-tier fair value hierarchy. Each Level 3 security is identified on the Schedule of Investments along with the valuation technique utilized.

A reconciliation of Level 3 investments is presented when the Fund has a material amount of Level 3 investments at the beginning or end of the period in relation to the Fund's net assets. Management has determined not to provide a reconciliation as the balance of Level 3 investments was not considered to be material to the Fund's net assets at the beginning or end of the period.

Statement of Assets and Liabilities (unaudited)

June 30, 2021

ASSETS:

Investments in securities, at fair value including \$1,797,423 of securities loaned (cost \$1,216,194,207)	\$1,285,012,227
Cash	28,983,045
Deposits with brokers for futures collateral	1,326,890
Deposits with brokers for forwards and swaps collateral	3,272,399
Foreign cash, at value (cost \$40,377)	39,498
Receivables:	
Interest and dividends	12,700,767
Investment securities sold	8,815,610

Notes to Financial Statements (unaudited)

1. ORGANIZATION

Lord Abbett Series Fund, Inc. (the "Company") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a diversified, open-end management investment company and was incorporated under Maryland law in 1989. The Company consists of nine separate portfolios as of June 30, 2021. This report covers Bond-Debenture Portfolio (the "Fund").

The Fund's investment objective is to seek high current income and the opportunity for capital appreciation to produce a high total return. The Fund has Variable Contract class shares ("Class VC Shares"), which are currently issued and redeemed only in connection with investments in, and payments under, variable annuity contracts and variable life insurance policies issued by life insurance and insurance-related companies.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. The Fund is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies.

2. SIGNIFICANT ACCOUNTING POLICIES

- (a) **Investment Valuation**—Under procedures approved by the Fund's Board of Directors (the "Board"), Lord, Abbett & Co. LLC ("Lord Abbett"), the Fund's investment manager, has formed a Pricing Committee to administer the pricing and valuation of portfolio investments and to ensure that prices utilized reasonably reflect fair value. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers and other market sources to determine fair value.

Securities actively traded on any recognized U.S. or non-U.S. exchange or on The NASDAQ Stock Market LLC are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may utilize an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Fixed income securities are valued based on evaluated prices supplied by independent pricing services, which reflect broker/dealer supplied valuations and the independent pricing services' own electronic data processing techniques. Exchange traded options and futures contracts are valued at the last quoted sale price in the market where they are principally traded. If no sale has occurred, the mean between the most recently quoted bid and asked prices is used. Floating rate loans are valued at the average of bid and ask quotations obtained from dealers in loans on the basis of prices supplied by independent pricing services. Forward foreign currency exchange contracts are valued using daily forward exchange rates. Swaps are valued daily using independent pricing services or quotations from broker/dealers to the extent available.

Securities for which prices are not readily available are valued at fair value as determined by the Pricing Committee. The Pricing Committee considers a number of factors, including observable and unobservable inputs, when arriving at fair value. The Pricing Committee may

Notes to Financial Statements (unaudited)(continued)

use related or comparable assets or liabilities, recent transactions, market multiples, book values, yield curves, broker quotes, observable trading activity, option adjusted spread models and other relevant information to determine the fair value of portfolio investments. The Board or a designated committee thereof regularly reviews fair value determinations made by the Pricing Committee and may employ techniques such as reviewing related market activity, reviewing inputs and assumptions, and retrospectively comparing prices of subsequent purchases and sales transactions to fair value determinations made by the Pricing Committee.

Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

- (b) **Security Transactions**—Security transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.
- (c) **Investment Income**—Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis as earned. Discounts are accreted and premiums are amortized using the effective interest method and are included in Interest and other on the Statement of Operations. Withholding taxes on foreign dividends have been provided for in accordance with the applicable country's tax rules and rates.
- (d) **Income Taxes**—It is the policy of the Fund to meet the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income and capital gains to its shareholders. Therefore, no income tax provision is required.
 - The Fund files U.S. federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Fund's filed U.S. federal tax returns remains open for the fiscal years ended December 31, 2017 through December 31, 2020. The statutes of limitations on the Company's state and local tax returns may remain open for an additional year depending upon the jurisdiction.
- (e) **Expenses**—Expenses incurred by the Company that do not specifically relate to an individual fund are generally allocated to the funds within the Company on a pro rata basis by relative net assets.
- (f) **Foreign Transactions**—The books and records of the Fund are maintained in U.S. dollars and transactions denominated in foreign currencies are recorded in the Fund's records at the rate prevailing when earned or recorded. Asset and liability accounts that are denominated in foreign currencies are adjusted daily to reflect current exchange rates and any unrealized gain (loss), if applicable, is included in Net change in unrealized appreciation/depreciation on translation of assets and liabilities denominated in foreign currencies on the Fund's Statement of Operations. The resultant exchange gains and losses upon settlement of such transactions are included in Net realized gain (loss), if applicable, on foreign currency related transactions on the Fund's Statement of Operations. The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the changes in market prices of the securities.

The Fund uses foreign currency exchange contracts to facilitate transactions in foreign-denominated securities. Losses from these transactions may arise from changes in the value of the foreign currency or if the counterparties do not perform under the contracts' terms.

Notes to Financial Statements (unaudited)(continued)

- (g) **Forward Foreign Currency Exchange Contracts**—The Fund may enter into forward foreign currency exchange contracts in order to reduce exposure to changes in forward foreign currency exchange rates on foreign portfolio holdings, or gain or reduce exposure to foreign currency solely for investment purposes. A forward foreign currency exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated rate. The contracts are valued daily at forward exchange rates and any unrealized gain (loss) is included in Net change in unrealized appreciation/depreciation on forward foreign currency exchange contracts on the Fund's Statement of Operations. The gain (loss) arising from the difference between the U.S. dollar cost of the original contract and the value of the foreign currency in U.S. dollars upon closing of such contracts is included in Net realized loss on forward foreign currency exchange contracts on the Fund's Statement of Operations.
- (h) **Futures Contracts**—The Fund may purchase and sell futures contracts to enhance returns, to attempt to economically hedge some of its investment risk, or as a substitute position in lieu of holding the underlying asset on which the instrument is based. At the time of entering into a futures transaction, an investor is required to deposit and maintain a specified amount of cash or eligible securities called "initial margin." Subsequent payments made or received by the Fund called "variation margin" are made on a daily basis as the market price of the futures contract fluctuates. The Fund will record an unrealized gain (loss) based on the amount of variation margin. When a contract is closed, a realized gain (loss) is recorded equal to the difference between the opening and closing value of the contract.
- (i) **When-Issued, Forward Transactions or To-Be-Announced ("TBA") Transactions**—The Fund may purchase portfolio securities on a when-issued or forward basis. When-issued, forward transactions or TBA transactions involve a commitment by a fund to purchase securities, with payment and delivery ("settlement") to take place in the future, in order to secure what is considered to be an advantageous price or yield at the time of entering into the transaction. During the period between purchase and settlement, the fair value of the securities will fluctuate and assets consisting of cash and/or marketable securities (normally short-term U.S. Government or U.S. Government sponsored enterprise securities) marked to market daily in an amount sufficient to make payment at settlement will be segregated at each Fund's custodian in order to pay for the commitment. At the time the Fund makes the commitment to purchase a security on a when-issued basis, it will record the transaction and reflect the liability for the purchase and fair value of the security in determining its net asset value ("NAV"). The Fund, generally, has the ability to close out a purchase obligation on or before the settlement date rather than take delivery of the security. Under no circumstances will settlement for such securities take place more than 120 days after the purchase date.
- (j) **TBA Sale Commitments**—The Fund may enter into TBA sale commitments to hedge its positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction. Unsettled TBA sale commitments are valued at the current market value of the underlying securities, according to the procedures described under "Investment Valuation" above. The contract is adjusted to market value daily and the change in market value is recorded by the Fund as unrealized appreciation (depreciation). If the TBA sale (purchase) commitment is closed through the acquisition of an offsetting purchase (sale)

Notes to Financial Statements (unaudited)(continued)

commitment, the Fund realizes a gain or loss from the sale of the securities based upon the unit price established at the date the commitment was entered into.

- (k) **Mortgage Dollar Rolls**—The Fund may enter into mortgage dollar rolls in which the Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts with the same counterparty to repurchase similar (same type, coupon and maturity) but not identical securities on a specified future date. During the roll period, the Fund loses the right to receive principal (including prepayments of principal) and interest paid on the securities sold.
- (l) **Repurchase Agreements**—The Fund may enter into repurchase agreements with respect to securities. A repurchase agreement is a transaction in which a fund acquires a security and simultaneously commits to resell that security to the seller (a bank or securities dealer) at an agreed-upon price on an agreed-upon date. The Fund requires at all times that the repurchase agreement be collateralized by cash, or by securities of the U.S. Government, its agencies, its instrumentalities, or U.S. Government sponsored enterprises having a value equal to, or in excess of, the value of the repurchase agreement (including accrued interest). If the seller of the agreement defaults on its obligation to repurchase the underlying securities at a time when the fair value of these securities has declined, the Fund may incur a loss upon disposition of the securities.
- (m) **Credit Default Swaps**—The Fund may enter into credit default swap contracts in order to hedge credit risk or for speculation purposes. As a seller of a credit default swap contract ("seller of protection"), the Fund is required to pay the notional amount or other agreed-upon value of a referenced debt obligation to the counterparty in the event of a default by or other credit event involving the referenced issuer, obligation or index. In return, the Fund receives from the counterparty a periodic stream of payments over the term of the contract.

As a purchaser of a credit default swap contract ("buyer of protection"), the Fund would receive the notional amount or other agreed upon value of a referenced debt obligation from the counterparty in the event of default by or other credit event involving the referenced issuer, obligation or index. In return, the Fund would make periodic payments to the counterparty over the term of the contracts, provided no event of default has occurred.

These credit default swaps may have as a reference obligation corporate or sovereign issuers or credit indexes. These credit indexes are comprised of a basket of securities representing a particular sector of the market.

Credit default swaps are fair valued based upon quotations from counterparties, brokers or market-makers and the change in value, if any, is recorded as an unrealized appreciation or depreciation. For a credit default swap sold by the Fund, payment of the agreed-upon amount made by the Fund in the event of default of the referenced debt obligation is recorded as the cost of the referenced debt obligation purchased/received. For a credit default swap purchased by the Fund, the agreed-upon amount received by the Fund in the event of default of the referenced debt obligation is recorded as proceeds from sale/delivery of the referenced debt obligation and the resulting gain or loss realized on the referenced debt obligation is recorded as such by the Fund.

Any upfront payments made or received upon entering a credit default swap contract would be amortized or accreted over the life of the swap and recorded as realized gains or losses. Collateral, in the form of cash or securities, may be required to be held in segregated accounts with the custodian bank or broker in accordance with the swap agreement. The value and credit

Notes to Financial Statements (unaudited)(continued)

rating of each credit default swap where the Fund is the seller of protection, are both measures of the current payment/performance risk of the swap. As the value of the swap changes as a positive or negative percentage of the total notional amount, the payment/performance risk may decrease or increase, respectively. The maximum potential amount of future payments (undiscounted) that the Fund as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Fund for the same referenced entity or entities.

Entering into credit default swaps involves credit and market risk. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates, and that Lord Abbett does not correctly predict the creditworthiness of the issuers of the reference obligation on which the credit default swap is based. For the centrally cleared credit default swaps, there was minimal counterparty risk to the Fund, since such credit default swaps entered into were traded through a central clearinghouse, which guarantees against default.

- (n) **Floating Rate Loans**—The Fund may invest in floating rate loans, which usually take the form of loan participations and assignments. Loan participations and assignments are agreements to make money available to U.S. or foreign corporations, partnerships or other business entities (the "Borrower") in a specified amount, at a specified rate and within a specified time. A loan is typically originated, negotiated and structured by a U.S. or foreign bank, insurance company or other financial institution (the "Agent") for a group of loan investors ("Loan Investors"). The Agent typically administers and enforces the loan on behalf of the other Loan Investors in the syndicate and may hold any collateral on behalf of the Loan Investors. Such loan participations and assignments are typically senior, secured and collateralized in nature. The Fund records an investment when the Borrower withdraws money and records interest as earned. These loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or London InterBank Offered Rate ("LIBOR").

The loans in which the Fund invests may be subject to some restrictions on resale. For example, the Fund may be contractually obligated to receive approval from the Agent and/or Borrower prior to the sale of these investments. The Fund generally has no right to enforce compliance with the terms of the loan agreement with the Borrower. As a result, the Fund assumes the credit risk of the Borrower, the selling participant and any other persons interpositioned between the Fund and the Borrower ("Intermediate Participants"). In the event that the Borrower, selling participant or Intermediate Participants become insolvent or enter into bankruptcy, the Fund may incur certain costs and delays in realizing payment or may suffer a loss of principal and/or interest.

Unfunded commitments represent the remaining obligation of the Fund to the Borrower. At any point in time, up to the maturity date of the issue, the Borrower may demand the unfunded portion. Until demanded by the Borrower, unfunded commitments are not recognized as an asset on the Statement of Assets and Liabilities. Unrealized appreciation/depreciation on unfunded commitments presented on the Statement of Assets

Notes to Financial Statements (unaudited)(continued)

and Liabilities represents mark to market of the unfunded portion of the Fund's floating rate notes. As of June 30, 2021, the Fund had the following unfunded loan commitments:

	Principal Amount	Market Value	Cost	Unrealized Appreciation/ Depreciation
National Mentor Holdings, Inc. 2021 Delayed Draw Term Loan	\$ 83,556	\$ 83,794	\$ 83,556	\$ 238
HighTower Holdings LLC 2021 Delayed Draw Term Loan	382,356	383,710	382,356	1,354
Total	\$465,912	\$467,504	\$465,912	\$1,592

- (o) **Fair Value Measurements**—Fair value is defined as the price that the Fund would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy classification is determined based on the lowest level of inputs that is significant to the fair value measurement, and is summarized in the three broad Levels listed below:

- Level 1 – unadjusted quoted prices in active markets for identical investments;
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of inputs used in valuing the Fund's investments and other financial instruments as of June 30, 2021 and, if applicable, Level 3 rollforwards for the six months then ended is included in the Fund's Schedule of Investments.

Changes in valuation techniques may result in transfers into or out of an assigned level within the three-tier hierarchy. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

3. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Management Fee

The Company has a management agreement with Lord Abbett, pursuant to which Lord Abbett supplies the Fund with investment management services and executive and other personnel, provides office space and pays for ordinary and necessary office and clerical expenses relating to research and statistical work and supervision of the Fund's investment portfolio.

Notes to Financial Statements (unaudited)(continued)

For the six months ended June 30, 2021, the management fee is based on the Fund's average daily net assets at the following annual rate:

First \$500 million	.50%
Next \$9.5 billion	.45%
Over \$10 billion	.40%

For the six months ended June 30, 2021, the effective management fee, net of waivers, was at an annualized rate of .47% of the Fund's average daily net assets.

In addition, Lord Abbett provides certain administrative services to the Fund pursuant to an Administrative Services Agreement in return for a fee at an annual rate of .04% of the Fund's average daily net assets. Lord Abbett voluntarily waived \$23,529 of fund administration fees during the six months ended June 30, 2021.

The Company, on behalf of the Fund, has entered into services arrangements with certain insurance companies. Under these arrangements, certain insurance companies will be compensated up to .25% of the average daily NAV of the Fund's Class VC Shares held in the insurance company's separate account to service and maintain the Variable Contract owners' accounts. This amount is included in Non 12b-1 service fees on the Statement of Operations. The Fund may also compensate certain insurance companies, third-party administrators and other entities for providing recordkeeping, sub-transfer agency and other administrative services to the Fund. This amount is included in Shareholder servicing on the Statement of Operations.

One Director and certain of the Company's officers have an interest in Lord Abbett.

4. DISTRIBUTIONS AND CAPITAL LOSS CARRYFORWARDS

Dividends from net investment income, if any, are declared and paid at least semi-annually. Taxable net realized gains from investment transactions, reduced by allowable capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amounts of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions that exceed earnings and profits for tax purposes are reported as a tax return of capital.

The tax character of distributions paid during the six months ended June 30, 2021 and fiscal year ended December 31, 2020 was as follows:

	Six Months Ended 6/30/2021 (unaudited)	Year Ended 12/31/2020
Distributions paid from:		
Ordinary income	\$ -	\$42,673,172
Total distributions paid	\$ -	\$42,673,172

As of December 31, 2021, the Fund had a capital loss carryforward of \$34,548,273, which will carry forward indefinitely.

Notes to Financial Statements (unaudited)(continued)

As of June 30, 2021, the aggregate unrealized security gains and losses on investments and other financial instruments based on cost for U.S. federal income tax purposes were as follows:

Tax cost	\$ 1,220,194,411
Gross unrealized gain	75,093,151
Gross unrealized loss	(10,135,895)
Net unrealized security gain	\$ 64,957,256

The difference between book-basis and tax-basis unrealized gains (losses) is attributable to the tax treatment of certain securities, other financial instruments, premium amortization and wash sales.

5. PORTFOLIO SECURITIES TRANSACTIONS

Purchases and sales of investment securities (excluding short-term investments) for the six months ended June 30, 2021 were as follows:

Non-U.S. Government Purchases	Non-U.S. Government Sales
\$682,665,466	\$587,699,127

The Fund is permitted to purchase and sell securities ("cross-trade") from and to other Lord Abbett funds or client accounts pursuant to procedures approved by the Board in compliance with Rule 17a-7 under the Act (the "Rule"). Each cross-trade is executed at a fair market price in compliance with provisions of the Rule. For the six months ended June 30, 2021, the Fund engaged in cross-trades purchases of \$120,703 and sales of \$288,276 which resulted in net realized gains of \$17,614.

6. DISCLOSURES ABOUT DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Fund entered into forward foreign currency exchange contracts for the six months ended June 30, 2021 (as described in note 2(g)). A forward foreign currency exchange contract reduces the Fund's exposure to changes in the value of the currency it will deliver (or settle in cash) and increases its exposure to changes in the value of the currency it will receive (or settle in cash) for the duration of the contract. The Fund's use of forward foreign currency exchange contracts involves the risk that Lord Abbett will not accurately predict currency movements, and the Fund's returns could be reduced as a result. Forward foreign currency exchange contracts are subject to the risk that those currencies will decline in value relative to the U.S. dollar, or, in the case of hedged positions, that the U.S. dollar will decline relative to the currency being hedged. Currency rates in foreign countries may fluctuate significantly over short periods of time. The Fund's risk of loss from counterparty credit risk is the unrealized appreciation on forward foreign currency exchange contracts and deposits with brokers as collateral.

The Fund entered into U.S. Treasury futures contracts for the six months ended June 30, 2021 (as described in note 2(h)) to economically hedge against changes in interest rates. The Fund bears the risk of interest rates moving unexpectedly, in which case the Fund may not achieve the anticipated benefits of the futures contracts and realize a loss. There is minimal counterparty credit risk to the Fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees futures against default.

The Fund entered into credit default swaps for the six months ended June 30, 2021 (as described in note 2(m)) to economically hedge credit risk. Credit default swaps involve the exchange of a fixed rate premium for protection against the loss in value of an underlying security within the index in the event of a defined credit event, such as payment default or bankruptcy. Under a credit default

Notes to Financial Statements (unaudited)(continued)

swap one party acts as a guarantor by receiving the fixed periodic payment in exchange for the commitment to purchase the underlying security at par if the defined credit event occurs. The Fund's maximum risk of loss from counterparty risk, either as the protection seller or as the protection buyer, is the fair value of the contract. For the centrally cleared credit default swaps, there is minimal counterparty credit risk to the Fund since these credit default swaps are traded through a central clearinghouse. As a counterparty to all centrally cleared credit default swaps, the clearinghouse guarantees credit default swaps against default.

As of June 30, 2021, the Fund had the following derivatives at fair value, grouped into appropriate risk categories that illustrate the Fund's use of derivative instruments:

	Interest Rate Contracts	Foreign Currency Contracts	Credit Contracts
Asset Derivatives			
Credit Default Swap Contracts ⁽¹⁾	–	–	\$ 8,924
Forward Foreign Currency Exchange Contracts ⁽²⁾	–	\$609,323	–
Futures Contracts ⁽³⁾	\$249,968	–	–
Liability Derivatives			
Centrally Cleared Credit Default Swap Contracts ⁽⁴⁾	–	–	\$517,567
Credit Default Swap Contracts ⁽⁴⁾	–	–	\$249,530
Futures Contracts ⁽³⁾	\$326,960	–	–

⁽¹⁾ Statement of Assets and Liabilities location: Credit default swap agreements receivable, at fair value.

⁽²⁾ Statement of Assets and Liabilities location: Unrealized appreciation on forward foreign currency exchange contracts.

⁽³⁾ Statement of Assets and Liabilities location: Includes cumulative unrealized appreciation/depreciation on futures contracts as reported in the Schedule of Investments. Only current day's variation margin reported is within the Statement of Assets and Liabilities.

⁽⁴⁾ Statement of Assets and Liabilities location: Includes cumulative unrealized appreciation/depreciation of centrally cleared swap contracts as reported in the Schedule of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

⁽⁵⁾ Statement of Assets and Liabilities location: Credit default swap agreements receivable/payable, at fair value.

Transactions in derivative instruments for the for the six months ended June 30, 2021, were as follows:

	Interest Rate Contracts	Foreign Currency Contracts	Credit Contracts
Net Realized Gain (Loss)			
Credit Default Swap Contracts ⁽¹⁾	–	–	\$ (1,285,000)
Forward Foreign Currency Exchange Contracts ⁽²⁾	–	\$ (26,304)	–
Futures Contracts ⁽³⁾	\$11,054,405	–	–
Net Change in Unrealized Appreciation/Depreciation			
Credit Default Swap Contracts ⁽⁴⁾	–	–	\$ 183,018
Forward Foreign Currency Exchange Contracts ⁽⁵⁾	–	\$ 800,037	–
Futures Contracts ⁽⁶⁾	\$ (939,155)	–	–
Average Number of Contracts/Notional Amounts*			
Credit Default Swap Contracts ⁽⁷⁾	–	–	122,944,495
Forward Foreign Currency Exchange Contracts ⁽⁸⁾	–	\$20,813,649	–
Futures Contracts ⁽⁷⁾	3,342	–	–

* Calculated based on the number of contracts or notional amounts for the six months ended June 30, 2021.

⁽¹⁾ Statement of Operations location: Net realized gain (loss) on swap contracts.

⁽²⁾ Statement of Operations location: Net realized gain (loss) on forward foreign currency exchange contracts.

⁽³⁾ Statement of Operations location: Net realized gain (loss) on futures contracts.

⁽⁴⁾ Statement of Operations location: Net change in unrealized appreciation/depreciation on swap contracts.

Notes to Financial Statements (unaudited)(continued)

(5) Statement of Operations location: Net change in unrealized appreciation/depreciation on forward foreign currency exchange contracts.

(6) Statement of Operations location: Net change in unrealized appreciation/depreciation on futures contracts.

(7) Amount represents number of contracts.

(8) Amount represents notional amounts in U.S. dollars.

7. DISCLOSURES ABOUT OFFSETTING ASSETS AND LIABILITIES

The Financial Accounting Standards Board ("FASB") requires disclosures intended to help better assess the effect or potential effect of offsetting arrangements on a fund's financial position. The following tables illustrate gross and net information about recognized assets and liabilities eligible for offset in the Statement of Assets and Liabilities; and disclose such amounts subject to an enforceable master netting agreement or similar agreement, by counterparty. A master netting agreement is an agreement between a fund and a counterparty which provides for the net settlement of amounts owed under all contracts traded under that agreement, as well as cash collateral, through a single payment by one party to the other in the event of default on or termination of any one contract. The Fund's accounting policy with respect to balance sheet offsetting is that, absent an event of default by the counterparty or a termination of the agreement, the master netting agreement does not result in an offset of reported amounts of financial assets and liabilities in the Statement of Assets and Liabilities across transactions between the Fund and the applicable counterparty:

Description	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts of Assets Presented in the Statement of Assets and Liabilities
Credit Default Swap Contracts	\$ 8,924	\$ -	\$ 8,924
Forward Foreign Currency Exchange Contracts	609,323	-	609,323
Repurchase Agreements	17,719,800	-	17,719,800
Total	\$18,338,047	\$ -	\$18,338,047

Counterparty	Net Amounts of Assets Presented in the Statement of Assets and Liabilities	Amounts Not Offset in the Statement of Assets and Liabilities			Net Amount ^(b)
		Financial Instruments	Cash Collateral Received ^(a)	Securities Collateral Received ^(a)	
Barclays Bank plc	\$ 115,333	\$ -	\$ -	\$ -	\$115,333
Citibank	8,924	(8,924)	-	-	-
Fixed Income Clearing Corp.	17,719,800	-	-	(17,719,800)	-
J.P. Morgan Chase	13,934	-	-	-	13,934
Morgan Stanley	40,406	(40,406)	-	-	-
State Street Bank and Trust	439,650	-	-	(334,000)	105,650
Total	\$18,338,047	\$(49,330)	\$ -	\$(18,053,800)	\$234,917

Description	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amounts of Liabilities Presented in the Statement of Assets and Liabilities
Credit Default Swap Contracts	\$249,530	\$ -	\$249,530
Total	\$249,530	\$ -	\$249,530

Notes to Financial Statements (unaudited)(continued)

Counterparty	Net Amounts of Liabilities Presented in the Statement of Assets and Liabilities	Amounts Not Offset in the Statement of Assets and Liabilities			Net Amount ^(c)
		Financial Instruments	Cash Collateral Pledged ^(a)	Securities Collateral Pledged ^(a)	
Citibank	\$ 99,978	\$ (8,924)	\$ –	\$ –	\$ 91,054
Morgan Stanley	149,552	(40,406)	–	–	109,146
Total	\$249,530	\$(49,330)	\$ –	\$ –	\$200,200

^(a) Collateral disclosed is limited to an amount not to exceed 100% of the net amount of assets (liabilities) presented in the Statement of Assets and Liabilities, for each respective counterparty.

^(b) Net amount represents the amount owed to the Fund by the counterparty as of June 30, 2021.

^(c) Net amount represents the amount owed by the Fund to the counterparty as of June 30, 2021.

8. DIRECTORS' REMUNERATION

The Company's officers and one Director, who are associated with Lord Abbett do not receive any compensation from the Company for serving in such capacities. Independent Directors' fees are allocated among all Lord Abbett-sponsored funds based on the net assets of each fund. There is an equity-based plan available to all Independent Directors under which Independent Directors must defer receipt of a portion of, and may elect to defer receipt of an additional portion of Directors' fees. The deferred amounts are treated as though equivalent dollar amounts had been invested in the Fund. Such amounts and earnings accrued thereon are included in Directors' fees on the Statement of Operations and in Directors' fees payable on the Statement of Assets and Liabilities and are not deductible for U.S. federal income tax purposes until such amounts are paid.

9. EXPENSE REDUCTIONS

The Company has entered into an arrangement with its transfer agent and custodian, whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's expenses.

10. LINE OF CREDIT

For the period ended June 30, 2021, the Fund and certain other funds managed by Lord Abbett (collectively, the "Participating Funds") entered into a syndicated line of credit facility with various lenders for \$1.17 billion (the "Syndicated Facility") whereas State Street Bank and Trust Company ("SSB") participated as a lender and as agent for the lenders. The Participating Funds were subject to graduated borrowing limits of one-third of Fund net assets (if Fund net assets are less than \$750 million), \$250 million, \$300 million, \$350 million, \$500 million, or \$1 billion, based on past borrowings and likelihood of future borrowings, among other factors. Effective August 5, 2021, the Participating Funds entered into a Syndicated Facility with various lenders for \$1.275 billion whereas SSB participates as a lender and as agent for the lenders. The Participating Funds are subject to graduated borrowing limits of one-third of Fund net assets (if Fund net assets are less than \$750 million), \$250 million, \$300 million, \$700 million, or \$1 billion, based on past borrowings and likelihood of future borrowings, among other factors.

For the six months ended June 30, 2021, the Participating Funds were party to an additional line of credit facility with SSB for \$330 million (the "Bilateral Facility"), \$250 million committed and \$80 million uncommitted. Under the Bilateral Facility, the Participating Funds are subject to graduated borrowing limits of one-third of Fund net assets (if net assets are less than \$750 million), \$250

Notes to Financial Statements (unaudited)(continued)

million, \$300 million, or \$330 million, based on past borrowings and likelihood of future borrowings, among other factors.

The Syndicated Facility and the Bilateral Facility are to be used for temporary or emergency purposes as an additional source of liquidity to satisfy redemptions.

For the six months ended June 30, 2021, the Fund did not utilize the Syndicated Facility or Bilateral Facility.

11. INTERFUND LENDING PROGRAM

Pursuant to an exemptive order issued by the U.S. Securities and Exchange Commission ("SEC exemptive order"), which permits certain registered open-end management investment companies managed by Lord Abbett, including the Fund, participate in a joint lending and borrowing program (the "Interfund Lending Program"). The SEC exemptive order allows the Fund to borrow money from and lend money to each other for temporary or emergency purposes subject to the limitations and conditions.

For the six months ended June 30, 2021, the Fund did not participate as a borrower or lender in the Interfund Lending Program.

12. CUSTODIAN AND ACCOUNTING AGENT

SSB is the Company's custodian and accounting agent. SSB performs custodial, accounting and recordkeeping functions relating to portfolio transactions and calculating the Fund's NAV.

13. SECURITIES LENDING AGREEMENT

The Fund has established a securities lending agreement with Citibank, N.A. for the lending of securities to qualified brokers in exchange for securities or cash collateral equal to at least the market value of securities loaned, plus interest, if applicable. Cash collateral is invested in an approved money market fund. In accordance with the Fund's securities lending agreement, the market value of securities on loan is determined each day at the close of business and any additional collateral required to cover the value of securities on loan is delivered to the Fund on the next business day. As with other extensions of credit, the Fund may experience a delay in the recovery of its securities or incur a loss should the borrower of the securities breach its agreement with the Fund or the borrower becomes insolvent at a time when the collateral is insufficient to cover the cost of repurchasing securities on loan. Any income earned from securities lending is included in Securities lending net income on the Statement of Operations.

The initial collateral received by the Fund is required to have a value equal to at least 100% of the market value of the securities loaned. The collateral must be marked-to-market daily to cover increases in the market value of the securities loaned (or potentially a decline in the value of the collateral). In general, the risk of borrower default will be borne by Citibank, N.A.; the Fund will bear the risk of loss with respect to the investment of the cash collateral. The advantage of such loans is that the Fund continues to receive income on loaned securities while receiving a portion of any securities lending fees and earning returns on the cash amounts which may be reinvested for the purchase of investments in securities.

As of June 30, 2021, the market value of securities loaned and collateral received for the Fund was as follows:

Market Value of Securities Loaned	Collateral Received⁽¹⁾
\$1,797,423	\$1,856,749

⁽¹⁾ Statement of Assets and Liabilities location: Payable for collateral due to broker for securities lending.

14. INVESTMENT RISKS

The Fund is subject to the general risks and considerations associated with investing in debt securities and to the changing prospects of individual companies and/or sectors in which the Fund invests. The value of an investment will change as interest rates fluctuate and in response to market movements. When interest rates rise, the prices of debt securities are likely to decline; when rates fall, such prices tend to rise. Longer-term debt securities are usually more sensitive to interest rate changes. There is also the risk that an issuer of a debt security will fail to make timely payments of principal or interest to the Fund, a risk that is greater with high-yield securities (sometimes called "lower-rated bonds" or "junk bonds") in which the Fund may substantially invest. Some issuers, particularly of high-yield securities, may default as to principal and/or interest payments after the Fund purchases its securities. A default, or concerns in the market about an increase in risk of default, may result in losses to the Fund. High-yield securities are subject to greater price fluctuations, as well as additional risks. The market for below investment grade securities may be less liquid, which may make such securities more difficult to sell at an acceptable price, especially during periods of financial distress, increased market volatility, or significant market decline.

On July 27, 2017, the head of the United Kingdom's Financial Conduct Authority announced a desire to phase out the use of LIBOR by the end of 2021. On November 30, 2020, the administrator of LIBOR announced a delay in the phase out of a majority of the U.S. dollar LIBOR publications until June 30, 2023, with the remainder of LIBOR publications to still end at the end of 2021. There remains uncertainty regarding the future utilization of LIBOR and the nature of any replacement rate. As such, the potential effect of a transition away from LIBOR on the Fund or the LIBOR-based instruments in which the Fund invest cannot yet be determined. The transition process might lead to increased volatility and illiquidity in markets that currently rely on LIBOR to determine interest rates. It could also lead to a reduction in the value of some LIBOR-based investments and reduce the effectiveness of new hedges placed against existing LIBOR-based instruments. Since the usefulness of LIBOR as a benchmark could deteriorate during the transition period, these effects could occur prior and/or subsequent to the end of 2021.

The Fund is subject to the risk of investing in securities issued or guaranteed by the U.S. Government or its agencies and instrumentalities (such as the Government National Mortgage Association ("Ginnie Mae"), the Federal National Mortgage Association ("Fannie Mae"), or the Federal Home Loan Mortgage Corporation ("Freddie Mac")). Unlike Ginnie Mae securities, securities issued or guaranteed by U.S. Government-related organizations such as Fannie Mae and Freddie Mac are not backed by the full faith and credit of the U.S. Government and no assurance can be given that the U.S. Government would provide financial support to its agencies and instrumentalities if not required to do so by law. Consequently, the Fund may be required to look principally to the agency issuing or guaranteeing the obligation.

The asset backed securities and mortgage-related securities in which the Fund may invest may be particularly sensitive to changes in prevailing interest rates and economic conditions, including delinquencies and/or defaults. These changes can affect the value, income and/or liquidity of such positions. When interest rates are declining, the value of these securities with prepayment features may not increase as much as other fixed income securities. Early principal repayment may deprive the Fund of income payments above current market rates. Alternatively, rising interest rates may cause prepayments to occur at a slower-than-expected rate, extending the duration of a security and typically reducing its value. The payment rate will thus affect the price and volatility of a mortgage-

Notes to Financial Statements (unaudited)(continued)

related security. In addition, the Fund may invest in non-agency asset backed and mortgage-related securities, which are issued by private institutions, not by government sponsored enterprises.

The Fund may invest up to 20% of its net assets in equity securities, the value of which fluctuates in response to movements in the equity securities market in general, changing prospects of individual companies in which the Fund invests, or an individual company's financial condition.

The Fund may invest in convertible securities, which have both equity and fixed income risk characteristics, including market, credit, liquidity, and interest rate risks. Generally, convertible securities offer lower interest or dividend yields than non-convertible securities of similar quality and less potential for gains or capital appreciation in a rising equity securities market than equity securities. They tend to be more volatile than other fixed income securities, and the market for convertible securities may be less liquid than the markets for stocks or bonds. A significant portion of convertible securities have below investment grade credit ratings and are subject to increased credit and liquidity risks.

Due to the Fund's investment exposure to foreign companies and American Depositary Receipts, the Fund may experience increased market, industry and sector, liquidity, currency, political, information and other risks. The securities of foreign companies also may be subject to inadequate exchange control regulations, the imposition of economic sanctions or other government restrictions, higher transaction and other costs, and delays in settlement to the extent they are traded on non-U.S. exchanges or markets.

The Fund is subject to the risks associated with derivatives, which may be different from and greater than the risks associated with directly investing in securities. Derivatives may be subject to risks such as liquidity risk, leveraging risk, interest rate risk, market risk, and credit risk. Illiquid securities may lower the Fund's returns since the Fund may be unable to sell these securities at their desired time or price. Derivatives also may involve the risk of mispricing or improper valuation and the risk that changes in the value of the derivative may not correlate perfectly with the value of the underlying asset, rate or index. Whether the Fund's use of derivatives is successful will depend on, among other things, the Fund's ability to correctly forecast market movements and other factors. If the Fund incorrectly forecasts these and other factors, the Fund's performance could suffer. The Fund's use of derivatives could result in a loss exceeding the amount of the Fund's investment in these instruments.

The Fund may invest up to 15% of its net assets in floating rate or adjustable rate senior loans, including bridge loans, novations, assignments, and participations, which are subject to increased credit and liquidity risks. Senior loans are business loans made to borrowers that may be U.S. or foreign corporations, partnerships or other business entities. The senior loans in which the Fund invests may consist primarily of senior loans that are rated below investment grade or, if unrated, deemed by Lord Abbett to be equivalent to below investment grade securities. Below investment grade senior loans, as in the case of high-yield debt securities, or junk bonds, are usually more credit sensitive than interest rate sensitive, although the value of these instruments may be impacted by broader interest rate swings in the overall fixed income market. Below investment grade senior loans may be affected by interest rate swings in the overall fixed income market. In addition, senior loans may be subject to structural subordination.

Geopolitical and other events (e.g., wars, terrorism, natural disasters, epidemics or pandemics, such as the COVID-19 outbreak which began in late 2019) may disrupt securities markets and adversely affect global economies and markets, thereby decreasing the value of the Fund's investments.

Notes to Financial Statements (unaudited)(concluded)

Market disruptions can also prevent the Fund from implementing its investment strategies and achieving its investment objective.

The transmission of COVID-19 and efforts to contain its spread have resulted in, among other things, border closings and other significant travel restrictions and disruptions, significant disruptions to business operations, supply chains and customer activity, lower consumer demand for goods and services, event cancellations and restrictions, service cancellations, reductions and other changes, significant challenges in healthcare service preparation and delivery, and prolonged quarantines, as well as general concern and uncertainty. The impact of the COVID-19 outbreak could negatively affect the global economy, the economies of individual countries, and the financial performance of individual issuers, sectors, industries, asset classes, and markets in significant and unforeseen ways.

The COVID-19 pandemic and its effects may last for an extended period of time, and in either case could result in significant market volatility, exchange trading suspensions and closures, declines in global financial markets, higher default rates, and a substantial economic downturn or recession. The foregoing could disrupt the operations of the Fund and its service providers, adversely affect the value and liquidity of the Fund's investments, and negatively impact the Fund's performance and your investment in the Fund.

These factors, and others, can affect the Fund's performance.

15. SUMMARY OF CAPITAL TRANSACTIONS

Transactions in shares of capital stock were as follows:

	Six Months Ended June 30, 2021 (unaudited)	Year Ended December 31, 2020
Shares sold	9,403,648	8,580,287
Reinvestment of distributions	–	3,427,637
Shares reacquired	(3,532,898)	(16,063,885)
Increase (decrease)	5,870,750	(4,055,961)

Liquidity Risk Management Program

Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Liquidity Risk Management Program and Policy ("Program"). The Program is designed to assess, manage and periodically review the Fund's liquidity risk. Liquidity risk is defined under Rule 22e-4 as the risk that the Fund could not meet redemption requests without significant dilution of remaining investors' interests in the Fund.

The Board has appointed Lord Abbett as the administrator for the Fund's Program. At the June 2-3, 2021 meeting, Lord Abbett provided the Board with a report addressing the operation of the Program and assessing its adequacy and effectiveness of implementation for the period March 1, 2020 through March 31, 2021. Lord Abbett reported that the Program operated effectively during the period. In particular, Lord Abbett reported that: the Fund did not breach its 15% limit on illiquid investments at any point during the period and all regulatory reporting related to Rule 22e-4 was completed on time and without issue during the period.

There can be no assurance that the Program will achieve its objectives in the future. Please refer to the Fund's prospectus for more information regarding the Fund's exposure to liquidity risk and other principal risks to which an investment in the Fund may be subject.

Householding

The Company has adopted a policy that allows it to send only one copy of the Fund's prospectus, proxy material, annual report and semiannual report to certain shareholders residing at the same "household." This reduces Fund expenses, which benefits you and other shareholders. If you need additional copies or do not want your mailings to be "household," please call Lord Abbett at 888-522-2388 or send a written request with your name, the name of your fund or funds and your account number or numbers to Lord Abbett Family of Funds, P.O. Box 219336, Kansas City, MO 64121.

Proxy Voting Policies, Procedures and Records

A description of the policies and procedures that Lord Abbett uses to vote proxies related to the Fund's portfolio securities, and information on how Lord Abbett voted the Fund's proxies during the 12-month period ended June 30 are available without charge, upon request, (i) by calling 888-522-2388; (ii) on Lord Abbett's Website at www.lordabbett.com; and (iii) on the Securities and Exchange Commission's ("SEC") Website at www.sec.gov.

Shareholder Reports and Quarterly Portfolio Disclosure

The Fund is required to file its complete schedule of portfolio holdings with the SEC for its first and third fiscal quarters as an attachment to Form N-PORT. Copies of the filings are available without charge, upon request on the SEC's Website at www.sec.gov and may be available by calling Lord Abbett at 888-522-2388.
