Portfolio overview

Q. What is the Portfolio's investment strategy?

A. The Portfolio seeks capital appreciation. The Portfolio invests primarily in common stocks of companies that we believe are experiencing, or will experience, growth in earnings that exceeds the average rate of earnings growth of the companies which comprise the S&P 500 Indexⁱ.

The Portfolio may invest in the securities of large, well-known companies offering prospects of long-term earnings growth. However, because higher earnings growth rates are often achieved by small to medium capitalization companies, a significant portion of the Portfolio's assets may be invested in the securities of such companies. The Portfolio may invest up to 25% of its net assets (at the time of investment) in equity securities of foreign issuers.

We emphasize individual security selection while diversifying the Portfolio's investments across industries, which may help to reduce risk. We focus primarily, but not exclusively, on emerging growth companies that have passed their "start-up" phase and show positive earnings and the prospect of achieving significant profit gains in the two to three years after the Portfolio acquires their stocks. When evaluating an individual company's stock, we consider whether the company may benefit from:

- New technologies, products or services
- New cost reducing measures
- Changes in management
- Favorable changes in government regulations

We utilize ClearBridge's fundamental research analysts who, using their industry expertise, determine the material ESG (environmental, social and governance) factors facing both individual companies and industry sectors and engage with company management regarding the extent to which they promote best practices of such factors. ESG factors may include, but are not necessarily limited to, environmentally friendly product initiatives, labor audits of overseas supply chains and strong corporate governance. The choice of ESG factors for any particular company reflects the specific industry.

Q. What were the overall market conditions during the Portfolio's reporting period?

A. The U.S. equity market shrugged off a global coronavirus pandemic, COVID-19, that severely reduced economic activity for a significant portion of the twelve-month reporting period ended December 31, 2020, and managed to finish with strong gains. The large-cap S&P 500 Index advanced 18.40% for the twelve-month period, due in large part to unprecedented levels of fiscal and monetary stimulus from the U.S. Federal Reserve Board (the "Fed")ⁱⁱ and Congress. Growth stocks outperformed value stocks by historically wide margins with the benchmark Russell 3000 Growth Indexⁱⁱⁱ (+38.26%) trouncing the Russell 3000 Value Index^{iv} by over 35.39 percentage points for the reporting period.

Portfolio overview (cont'd)

The COVID-19 pandemic sparked the S&P 500 Index's 30% decline in twenty-two trading days late in the first quarter of 2020, the fastest drop of that magnitude in history. Cyclical stocks and companies with weak balance sheets led the decline. Oil prices collapsed from \$61 dollars to \$20 dollars per barrel. Consumer Staples and large companies with strong balance sheets outperformed, but many groups that historically have been defensive in a recession, such as aerospace and entertainment, were not because COVID-19 threatened their profits. And large-cap technology, especially collaboration software and e-commerce, which historically suffered in recessions due to their high betas^v, thrived because COVID-19 accelerated their businesses.

Swift action by the Fed and enormous fiscal stimulus packages totaling more than \$4 trillion helped the market to roar back. The S&P 500 Index rose 44% in the fifty-three trading days between March 23, 2020 and June 8, 2020 leading to its best quarter in twenty-two years. Mega-cap information technology ("IT") and internet soared, causing the highest concentration of the five largest stocks in the benchmark that the market has ever been. The rebound continued in the third quarter of 2020.

By September 2020, improving economic data flipped the market leadership away from IT towards cyclicals¹. Resolution of the U.S. presidential election, with Joe Biden winning the White House and an initially divided Congress, as well as positive COVID-19 vaccine trials and emergency use approval of two vaccines late in the year continued a rally in cyclical and more value-oriented names, solidifying a broadening of the market.

For the reporting period, the Consumer Discretionary (+61.1%) and IT (+52.7%) sectors outperformed the benchmark by a wide margin with Communication Services (+36.1%) the only other sector that came close to keeping up to the overall benchmark return. Among sectors where the Portfolio has exposure, Health Care (+22.9%), Materials (+18.9%), Industrials (+12.4%), Financials (+10.8%) and Energy (-20.3%), all underperformed.

Q. How did we respond to these changing market conditions?

A. The ongoing dominance of the mega-cap stocks and the momentum trade has created challenges for the Portfolio from a relative performance standpoint, but it has not dissuaded us from an approach that has created long-term value for our shareholders over nearly four decades. With an active share of about 96%, the Portfolio looks very different from the benchmark. As long-term business owners, we seek to buy and hold attractively priced, profitable growth companies with high levels of free cash flow across the market capitalization spectrum. This creates a portfolio with a weighted average market cap of \$60 billion compared to over \$400 billion for the Russell 3000 Growth Index. The valuation discount of the Portfolio's holdings versus the benchmark also remains among its widest in twenty years across most metrics, including forward price/earnings and price/sales ratios.

We have made meaningful moves over the last year to concentrate the Portfolio in our highest-conviction ideas. These have included reducing the number of positions the

¹ Cyclicals consists of the following sectors: Energy, Financials, Materials and Industrials.

Portfolio holds by about a third, and focusing on companies with better earnings visibility and lower leverage. Our moves in the Energy sector are a good example of this active repositioning. In light of the decline in oil prices caused by the coincident supply and demand shock, we exited the Portfolio's position in Occidental Petroleum Corp. While the company has taken aggressive steps to manage costs during this period, we felt it prudent to exit the position and used it as a source of funds to reposition the Portfolio in names with better lines of sight to growth with less balance sheet uncertainty.

With the sale of Occidental Petroleum Corp., the Portfolio's exposure to the Energy sector is the lowest in twenty years. Meanwhile, the Portfolio's weighting in the IT sector, an area where we are well-positioned to participate in innovative trends such as electric vehicles, has increased meaningfully. We are confident the IT stocks the Portfolio owns have the fundamentals and leading market positions in areas with durable growth characteristics to deliver consistent long-term returns for our investors.

We used the volatility caused by COVID-19 to establish a new position in Guardant Health Inc., a leader in liquid biopsy used for therapy selection and early-stage cancer detection. Guardant is poised to benefit from the increased focus and spending on diagnostics. Despite being the largest detractor from performance relative to the benchmark for the reporting period, the Portfolio's Health Care holdings, especially biopharmaceutical companies such as Biogen Inc. and Vertex Pharmaceuticals Inc., should be well-positioned in the current environment given their lack of economic sensitivity and the obvious need for investment in innovation, especially in prediction and prevention of diseases. We expect drug companies will be part of the solution to find a vaccine and treatment for the COVID-19 virus still impacting many parts of the country and the world. Such a discovery would highlight the scientific breakthroughs and new therapeutic treatments that have caused us to be overweight the Health Care sector for some time.

The Portfolio's exposure in the Communication Services sector was another detractor from performance during the year. While many of our holdings in the sector saw strong engagement driven by stay-at-home consumer activity and growth in high-speed broadband connections, these strengths were more than offset by lower advertising spending due to a lack of live events and sports, as well as increased cord cutting. The medium-term underperformance of programming companies such as AMC Networks Inc. and Discovery Inc. leaves both stocks with record-high free cash flow yields and record-low valuations. Longer term, these gaps between public and private market values could lead to multiple expansion as well as the potential for mergers and acquisitions (M&A), or leveraged buyout activity. We expect advertising growth to resume ahead of a broad economic recovery, aided by the return of live sports, which should provide a boost to the sector.

As high active share managers, our returns often do not correlate to the market or a benchmark. Historically, when our relative performance starts to turn it often leads to a multi-year reversal. While leadership in the market has been relatively narrow for the last

Portfolio overview (cont'd)

few years, we are encouraged by the broadening of participation to include cyclical and more value-oriented stocks in the final four months of the year. We believe a broad economic recovery and a gradual closing of the significant discount of the Portfolio to the benchmark have the potential to drive improved performance going forward.

Performance review

For the twelve months ended December 31, 2020, Class I shares of ClearBridge Variable Aggressive Growth Portfolio¹ returned 18.02%. The Portfolio's unmanaged benchmark, the Russell 3000 Growth Index, returned 38.26% for the same period. The Lipper Variable Multi-Cap Core Funds Category Average^{vi} returned 16.89% over the same time frame.

Performance Snapshot as of December 31, 2020 (unaudited)		
	6 months	12 months
ClearBridge Variable Aggressive Growth Portfolio:		
Class I	24.28%	18.02%
Class II	24.14%	17.73%

Lipper Variable Multi-Cap Core Funds Category Average	23.61%	16.89%

The performance shown represents past performance. Past performance is no guarantee of future results and current performance may be higher or lower than the performance shown above. Principal value and investment returns will fluctuate and investors' shares, when redeemed, may be worth more or less than their original cost.

All share class returns assume the reinvestment of all distributions at net asset value and the deduction of all Portfolio expenses. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

Portfolio performance figures reflect fee waivers and/or expense reimbursements, without which the performance would have been lower.

Total Annual Operating Expenses (unaudited)

As of the Portfolio's current prospectus dated May 1, 2020, the gross total annual fund operating expense ratios for Class I and Class II shares were 0.79% and 1.04%, respectively.

Actual expenses may be higher. For example, expenses may be higher than those shown if average net assets decrease. Net assets are more likely to decrease and Portfolio expense ratios are more likely to increase when markets are volatile.

Q. What were the leading contributors to performance?

A. On an absolute basis, the Portfolio's positions in six of eight sectors in which it was invested (out of eleven sectors in total) contributed positively to performance for the

¹ The Portfolio is an underlying investment option of various variable annuity and variable life insurance products. The Portfolio's performance returns do not reflect the deduction of expenses imposed in connection with investing in variable annuity or variable life insurance contracts, such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the performance of the Portfolio. **Past performance is no guarantee of future results.**

reporting period. The greatest contributors to absolute returns came from the Portfolio's holdings in the IT, Health Care and Communication Services sectors.

Relative to the benchmark, stock selection in the Materials and Consumer Discretionary sectors and an underweight to the Industrials sector had positive impacts on performance.

In terms of individual Portfolio holdings, leading contributors to performance for the period included positions in Cree Inc., Autodesk Inc. and Broadcom Inc. in the IT sector, Twitter Inc. in the Communication Services sector and UnitedHealth Group Inc. in the Health Care sector.

Q. What were the leading detractors from performance?

A. Relative to the benchmark, both the Portfolio's overall stock selection and sector allocation had negative impacts on performance for the reporting period. In particular, stock selection in the Health Care, Communication Services and IT sectors, an overweight to the Health Care sector, as well as underweights to the IT and Consumer Discretionary sectors hurt relative performance the most.

In terms of individual Portfolio holdings, leading detractors from performance for the period included positions in Biogen Inc. in the Health Care sector, Occidental Petroleum Corp. in the Energy sector, AT&T Inc. and Madison Square Garden Sports Corp. in the Communication Services sector and Western Digital Corp. in the IT sector.

Q. Were there any significant changes to the Portfolio during the reporting period?

A. Over the course of the reporting period, we established new positions in AbbVie Inc. and Guardant Health Inc. in the Health Care sector and Madison Square Garden Entertainment Corp. in the Communication Services sector.

We closed a position in Allergan PLC in the Health Care sector and AT&T Inc. in the Communication Services sectors, and also closed out a number of small positions in the Industrials, Financials, Communication Services and Energy sectors.

RISKS: *Equity securities are subject to price and market fluctuations. The Portfolio may invest a significant portion of its assets in small- and mid-cap companies, which may be more volatile than investments in large-cap companies. The Portfolio may focus its investments in certain companies, industries or market sectors, increasing its vulnerability to market volatility. Investing in foreign securities is subject to certain risks not associated with domestic investing, such as currency fluctuations and changes in social, political and economic conditions, which could increase volatility. These risks are magnified in emerging markets. Emerging market countries tend to have economic, political and legal systems that are less developed and are less stable than those of more developed countries. Please see the Portfolio's prospectus for a more complete discussion of these and other risks and the Portfolio's investment strategies.*

Portfolio at a glance[†] (unaudited)

[†] The bar graph above represents the composition of the Portfolio’s investments as of December 31, 2020 and December 31, 2019. The Portfolio is actively managed. As a result, the composition of the Portfolio’s investments is subject to change at any time.

Portfolio expenses (unaudited)

Example

As a shareholder of the Portfolio, you may incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees; service and/or distribution (12b-1) fees; and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other funds.

This example is based on an investment of \$1,000 invested on July 1, 2020 and held for the six months ended December 31, 2020.

Actual expenses

The table below titled “Based on Actual Total Return” provides information about actual account values and actual expenses. You may use the information provided in this table, together with the amount you invested, to estimate the expenses that you paid over the period. To estimate the expenses you paid on your account, divide your ending account value by \$1,000 (for example, an \$8,600 ending account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading entitled “Expenses Paid During the Period”.

Based on actual total return ¹					Expenses Paid During the Period ³
	Actual Total Return ²	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	
Class I	24.28%	\$1,000.00	\$1,242.80	0.80%	\$4.51
Class II	24.14	1,000.00	1,241.40	1.05	5.92

Hypothetical example for comparison purposes

The table below titled “Based on Hypothetical Total Return” provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio and an assumed rate of return of 5.00% per year before expenses, which is not the Portfolio’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use the information provided in this table to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare the 5.00% hypothetical example relating to the Portfolio with the 5.00% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table below are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Based on hypothetical total return ¹					Expenses Paid During the Period ³
	Hypothetical Annualized Total Return	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	
Class I	5.00%	\$1,000.00	\$1,021.11	0.80%	\$4.06
Class II	5.00	1,000.00	1,019.86	1.05	5.33

Portfolio expenses (unaudited) (cont'd)

- ¹ For the six months ended December 31, 2020.
- ² Assumes the reinvestment of all distributions, including returns of capital, if any, at net asset value. Total return is not annualized, as it may not be representative of the total return for the year. Total returns do not reflect expenses associated with separate accounts such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the total returns. Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results.
- ³ Expenses (net of compensating balance arrangements, fee waivers and/or expense reimbursements) are equal to each class' respective annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year (184), then divided by 366.

Portfolio performance (unaudited)

Average annual total returns ¹		
	Class I	Class II
Twelve Months Ended 12/31/20	18.02%	17.73%
Five Years Ended 12/31/20	9.75	9.47

Class I (12/31/10 through 12/31/20)	238.66%
Class II (12/31/10 through 12/31/20)	230.13

All figures represent past performance and are not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect expenses associated with separate accounts such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the total returns. Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower.

Notes to financial statements

1. Organization and significant accounting policies

ClearBridge Variable Aggressive Growth Portfolio (the "Portfolio") is a separate diversified investment series of Legg Mason Partners Variable Equity Trust (the "Trust"). The Trust, a Maryland statutory trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company.

Shares of the Portfolio may only be purchased or redeemed through variable annuity contracts and variable life insurance policies offered by the separate accounts of participating insurance companies or through eligible pension or other qualified plans.

The following are significant accounting policies consistently followed by the Portfolio and are in conformity with U.S. generally accepted accounting principles ("GAAP"). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through the date the financial statements were issued.

(a) Investment valuation. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. The valuations for fixed income securities (which may include, but are not limited to, corporate, government, municipal, mortgage-backed, collateralized mortgage obligations and asset-backed securities) and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of valuation techniques and methodologies. The independent third party pricing services use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar securities. Investments in open-end funds are valued at the closing net asset value per share of each fund on the day of valuation. When the Portfolio holds securities or other assets that are denominated in a foreign currency, the Portfolio will normally use the currency exchange rates as of 4:00 p.m. (Eastern Time). If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers or at the transaction price if the security has recently been purchased and no value has yet been obtained from a pricing service or pricing broker. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Portfolio calculates its net asset value, the Portfolio values these securities as determined in accordance with procedures approved by the Portfolio's Board of Trustees.

The Board of Trustees is responsible for the valuation process and has delegated the supervision of the daily valuation process to the Legg Mason North Atlantic Fund Valuation Committee (the "Valuation Committee"). The Valuation Committee, pursuant to the policies adopted by the Board of Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the Portfolio's pricing policies, and reporting to the Board of

Notes to financial statements (cont'd)

Trustees. When determining the reliability of third party pricing information for investments owned by the Portfolio, the Valuation Committee, among other things, conducts due diligence reviews of pricing vendors, monitors the daily change in prices and reviews transactions among market participants.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer's financial statements; the purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such back testing monthly and fair valuation occurrences are reported to the Board of Trustees quarterly.

The Portfolio uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

GAAP establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

- Level 1 — quoted prices in active markets for identical investments
- Level 2 — other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 — significant unobservable inputs (including the Portfolio's own assumptions in determining the fair value of investments)

The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Portfolio's assets carried at fair value:

ASSETS				
Description	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common Stocks†	\$885,422,588	—	—	\$885,422,588
Short-Term Investments†	3,787,423	—	—	3,787,423
Total Investments	\$889,210,011	—	—	\$889,210,011

† See Schedule of Investments for additional detailed categorizations.

(b) Foreign currency translation. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Portfolio does not isolate that portion of the results of operations resulting from fluctuations in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Portfolio's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the values of assets and liabilities, other than investments in securities, on the date of valuation, resulting from changes in exchange rates.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(c) Foreign investment risks. The Portfolio's investments in foreign securities may involve risks not present in domestic investments. Since securities may be denominated in foreign currencies, may require settlement in foreign currencies or pay interest or dividends in foreign currencies, changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Portfolio. Foreign investments may also subject the Portfolio to foreign government exchange restrictions, expropriation, taxation or other political, social or economic developments, all of which affect the market and/or credit risk of the investments.

Notes to financial statements (cont'd)

(d) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income (including interest income from payment-in-kind securities), adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. Foreign dividend income is recorded on the ex-dividend date or as soon as practicable after the Portfolio determines the existence of a dividend declaration after exercising reasonable due diligence. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults or a credit event occurs that impacts the issuer, the Portfolio may halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default or credit event.

(e) Distributions to shareholders. Distributions from net investment income and distributions of net realized gains, if any, are declared at least annually. Distributions to shareholders of the Portfolio are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

(f) Share class accounting. Investment income, common expenses and realized/unrealized gains (losses) on investments are allocated to the various classes of the Portfolio on the basis of daily net assets of each class. Fees relating to a specific class are charged directly to that share class.

(g) Compensating balance arrangements. The Portfolio has an arrangement with its custodian bank whereby a portion of the custodian's fees is paid indirectly by credits earned on the Portfolio's cash on deposit with the bank.

(h) Federal and other taxes. It is the Portfolio's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986 (the "Code"), as amended, applicable to regulated investment companies. Accordingly, the Portfolio intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal or state income tax provision is required in the Portfolio's financial statements.

Management has analyzed the Portfolio's tax positions taken on income tax returns for all open tax years and has concluded that as of December 31, 2020, no provision for income tax is required in the Portfolio's financial statements. The Portfolio's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

(i) Reclassification. GAAP requires that certain components of net assets be reclassified to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. During the current year, the Portfolio had no reclassifications.

2. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC ("LMPFA") is the Portfolio's investment manager and ClearBridge Investments, LLC ("ClearBridge") is the Portfolio's subadviser. Western Asset Management Company, LLC ("Western Asset") manages the portion of the Portfolio's cash and short-term instruments allocated to it. As of July 31, 2020, LMPFA, ClearBridge and Western Asset are indirect, wholly-owned subsidiaries of Franklin Resources, Inc. ("Franklin Resources"). Prior to July 31, 2020, LMPFA, ClearBridge and Western Asset were wholly-owned subsidiaries of Legg Mason, Inc. ("Legg Mason"). As of July 31, 2020, Legg Mason is a subsidiary of Franklin Resources.

Under the investment management agreement, the Portfolio pays an investment management fee, calculated daily and paid monthly, in accordance with the following breakpoint schedule:

Average Daily Net Assets	Annual Rate
First \$1 billion	0.750%
Next \$1 billion	0.725
Next \$3 billion	0.700
Next \$5 billion	0.675
Over \$10 billion	0.650

LMPFA provides administrative and certain oversight services to the Portfolio. LMPFA delegates to the subadviser the day-to-day portfolio management of the Portfolio, except for the management of the portion of the Portfolio's cash and short-term instruments allocated to Western Asset. For its services, LMPFA pays ClearBridge a fee monthly, at an annual rate equal to 70% of the net management fee it receives from the Portfolio. For Western Asset's services to the Portfolio, LMPFA pays Western Asset monthly 0.02% of the portion of the Portfolio's average daily net assets that are allocated to Western Asset by LMPFA.

As a result of expense limitation arrangements between the Portfolio and LMPFA, the ratio of total annual fund operating expenses, other than interest, brokerage, taxes, extraordinary expenses and acquired fund fees and expenses, to average net assets of Class I and Class II shares did not exceed 0.90% and 1.15%, respectively. These expense limitation arrangements cannot be terminated prior to December 31, 2022 without the Board of Trustees' consent. In addition, the manager has agreed to waive the Portfolio's management fee to an extent sufficient to offset the net management fee payable in connection with any investment in an affiliated money market fund (the "affiliated money market fund waiver"). The affiliated money market fund waiver is not subject to the recapture provision discussed below.

During the year ended December 31, 2020, fees waived and/or expenses reimbursed amounted to \$5,615, which included an affiliated money market fund waiver of \$711.

LMPFA is permitted to recapture amounts waived and/or reimbursed to a class during the same fiscal year if the class' total annual fund operating expenses have fallen to a level below the expense limitation ("expense cap") in effect at the time the fees were earned or the expenses incurred. In no case will LMPFA recapture any amount that would result, on

Notes to financial statements (cont'd)

any particular business day of the Portfolio, in the class' total annual fund operating expenses exceeding the expense cap or any other lower limit then in effect.

Legg Mason Investor Services, LLC ("LMIS") serves as the Portfolio's sole and exclusive distributor. As of July 31, 2020, LMIS is an indirect, wholly-owned broker-dealer subsidiary of Franklin Resources. Prior to July 31, 2020, LMIS was a wholly-owned broker-dealer subsidiary of Legg Mason.

As of July 31, 2020, all officers and one Trustee of the Trust are employees of Franklin Resources or its affiliates and do not receive compensation from the Trust. Prior to July 31, 2020, all officers and one Trustee of the Trust were employees of Legg Mason and did not receive compensation from the Trust.

The Portfolio is permitted to purchase or sell from or to certain other affiliated funds or portfolios under specified conditions outlined in procedures adopted by the Board of Trustees. The procedures have been designed to provide assurance that any purchase or sale of securities by the Portfolio from or to another fund or portfolio that is, or could be considered, an affiliate by virtue of having a common investment manager or subadviser (or affiliated investment manager or subadviser), common Trustees and/or common officers complies with Rule 17a-7 under the 1940 Act. Further, as defined under the procedures, each transaction is effected at the current market price. For the year ended December 31, 2020, such purchase and sale transactions were \$20,761,000 and \$0, respectively.

3. Investments

Other book/tax temporary differences ^(a)	(50,586)
Unrealized appreciation (depreciation)	619,670,582
Total distributable earnings (loss) — net	\$632,479,364

^(a) Other book/tax temporary differences are attributable to book/tax differences in the timing of the deductibility of various expenses.

11. Other matter

The outbreak of the respiratory illness COVID-19 (commonly referred to as “coronavirus”) has continued to rapidly spread around the world, causing considerable uncertainty for the global economy and financial markets. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The COVID-19 pandemic could adversely affect the value and liquidity of the Portfolio’s investments, impair the Portfolio’s ability to satisfy redemption requests, and negatively impact the Portfolio’s performance. In addition, the outbreak of COVID-19, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Portfolio by its service providers.

Report of independent registered public accounting firm

To the Board of Trustees of Legg Mason Partners Variable Equity Trust and Shareholders of ClearBridge Variable Aggressive Growth Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of ClearBridge Variable Aggressive Growth Portfolio (one of the funds constituting Legg Mason Partners Variable Equity Trust, referred to hereafter as the “Fund”) as of December 31, 2020, the related statement of operations for the year ended December 31, 2020, the statement of changes in net assets for each of the two years in the period ended December 31, 2020, including the related notes, and the financial highlights for each of the four years in the period ended December 31, 2020 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2020, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2020 and the financial highlights for each of the four years in the period ended December 31, 2020 in conformity with accounting principles generally accepted in the United States of America.

The financial statements of the Fund as of and for the year ended December 31, 2016 and the financial highlights for the year then ended (not presented herein, other than the financial highlights) were audited by other auditors whose report dated February 15, 2017 expressed an unqualified opinion on those financial statements and financial highlights.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2020 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

Statement regarding liquidity risk management program (unaudited)

As required by law, the fund has adopted and implemented a liquidity risk management program (the “Program”) that is designed to assess and manage liquidity risk. Liquidity risk is the risk that the fund could not meet requests to redeem its shares without significant dilution of remaining investors’ interests in the fund. Legg Mason Partners Fund Advisor, LLC (the “Manager”), the fund’s manager, is the administrator of the Program. The Manager has established a liquidity risk management committee (the “Committee”) to administer the Program on a day-to-day basis.

The Committee, on behalf of the Manager, provided the fund’s Board of Trustees with a report that addressed the operation of the Program, assessed its adequacy and effectiveness of implementation, including, if applicable, the operation of any highly liquid investment minimum (“HLIM”), and described any material changes that had been made to the Program or were recommended (the “Report”). The Report covered the period from December 1, 2018 through December 31, 2019 (the “Reporting Period”).

The Report confirmed that there were no material changes to the Program during the Reporting Period and that no changes were recommended.

The Report also confirmed that, throughout the Reporting Period, the Committee had monitored the fund’s portfolio liquidity and liquidity risk on an ongoing basis, as described in the Program and in Board reporting throughout the Reporting Period.

The Report discussed the Committee’s annual review of the Program, which addressed, among other things, the following elements of the Program:

Assessment, Management, and Periodic Review of Liquidity Risk. The Committee reviewed the fund’s investment strategy and liquidity of portfolio investments during both normal and reasonably foreseeable stressed conditions. The Committee noted that the fund’s investment strategy continues to be appropriate for an open-end fund, taking into account, among other things, whether and to what extent the fund held less liquid and illiquid assets and the extent to which any such investments affected the fund’s ability to meet redemption requests. In managing and reviewing the fund’s liquidity risk, the Committee also considered the extent to which the fund’s investment strategy involves a relatively concentrated portfolio or large positions in particular issuers, the extent to which the fund uses borrowing for investment purposes, and the extent to which the fund uses derivatives (including for hedging purposes). The Committee also reviewed the fund’s short-term and long-term cash flow projections during both normal and reasonably foreseeable stressed conditions. In assessing the fund’s cash flow projections, the Committee considered, among other factors, historical net redemption activity, redemption policies, ownership concentration, distribution channels, and the degree of certainty associated with the fund’s short-term and long-term cash flow projections. The Committee also considered the fund’s holdings of cash and cash equivalents, as well as borrowing arrangements and other

funding sources, including, if applicable, the fund's participation in a credit facility, as components of the fund's ability to meet redemption requests.

Liquidity Classification. The Committee reviewed the Program's liquidity classification methodology for categorizing the fund's investments into one of four liquidity buckets. In reviewing the fund's investments, the Committee considered, among other factors, whether trading varying portions of a position in a particular portfolio investment or asset class in sizes the fund would reasonably anticipate trading, would be reasonably expected to significantly affect liquidity.

Highly Liquid Investment Minimum. The Committee performed an analysis to determine whether the fund is required to maintain a Highly Liquid Investment Minimum, and determined that no such minimum is required because the fund primarily holds highly liquid investments.

Compliance with Limitation on Illiquid Investments. The Committee confirmed that during the Reporting Period, the fund did not acquire any illiquid investment such that, after the acquisition, the fund would have invested more than 15% of its assets in illiquid investments that are assets, in accordance with the Program and applicable SEC rules.

Redemptions in Kind. The Committee confirmed that no redemptions in-kind were effected by the fund during the Reporting Period.

The Report stated that the Committee concluded that the Program is reasonably designed and operated effectively to assess and manage the fund's liquidity risk throughout the Reporting Period.

Legg Mason Funds Privacy and Security Notice

Your Privacy and the Security of Your Personal Information is Very Important to the Legg Mason Funds

This Privacy and Security Notice (the “Privacy Notice”) addresses the Legg Mason Funds’ privacy and data protection practices with respect to nonpublic personal information the Funds receive. The Legg Mason Funds include any funds sold by the Funds’ distributor, Legg Mason Investor Services, LLC, as well as Legg Mason-sponsored closed-end funds. The provisions of this Privacy Notice apply to your information both while you are a shareholder and after you are no longer invested with the Funds.

The Type of Nonpublic Personal Information the Funds Collect About You

The Funds collect and maintain nonpublic personal information about you in connection with your shareholder account. Such information may include, but is not limited to:

- Personal information included on applications or other forms;
- Account balances, transactions, and mutual fund holdings and positions;
- Bank account information, legal documents, and identity verification documentation;
- Online account access user IDs, passwords, security challenge question responses; and
- Information received from consumer reporting agencies regarding credit history and creditworthiness (such as the amount of an individual’s total debt, payment history, etc.).

How the Funds Use Nonpublic Personal Information About You

The Funds do not sell or share your nonpublic personal information with third parties or with affiliates for their marketing purposes, or with other financial institutions or affiliates for joint marketing purposes, unless you have authorized the Funds to do so. The Funds do not disclose any nonpublic personal information about you except as may be required to perform transactions or services you have authorized or as permitted or required by law.

The Funds may disclose information about you to:

- Employees, agents, and affiliates on a “need to know” basis to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- Service providers, including the Funds’ affiliates, who assist the Funds as part of the ordinary course of business (such as printing, mailing services, or processing or servicing your account with us) or otherwise perform services on the Funds’ behalf, including companies that may perform statistical analysis, market research and marketing services solely for the Funds;
- Permit access to transfer, whether in the United States or countries outside of the United States to such Funds’ employees, agents and affiliates and service providers as required to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- The Funds’ representatives such as legal counsel, accountants and auditors to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- Fiduciaries or representatives acting on your behalf, such as an IRA custodian or trustee of a grantor trust.

Legg Mason Funds Privacy and Security Notice (cont'd)

Except as otherwise permitted by applicable law, companies acting on the Funds' behalf, including those outside the United States, are contractually obligated to keep nonpublic personal information the Funds provide to them confidential and to use the information the Funds share only to provide the services the Funds ask them to perform. The Funds may disclose nonpublic personal information about you when necessary to enforce their rights or protect against fraud, or as permitted or required by applicable law, such as in connection with a law enforcement or regulatory request, subpoena, or similar legal process. In the event of a corporate action or in the event a Fund service provider changes, the Funds may be required to disclose your nonpublic personal information to third parties. While it is the Funds' practice to obtain protections for disclosed information in these types of transactions, the Funds cannot guarantee their privacy policy will remain unchanged.

Keeping You Informed of the Funds' Privacy and Security Practices

The Funds will notify you annually of their privacy policy as required by federal law. While the Funds reserve the right to modify this policy at any time they will notify you promptly if this privacy policy changes.

The Funds' Security Practices

The Funds maintain appropriate physical, electronic and procedural safeguards designed to guard your nonpublic personal information. The Funds' internal data security policies restrict access to your nonpublic personal information to authorized employees, who may use your nonpublic personal information for Fund business purposes only.

Although the Funds strive to protect your nonpublic personal information, they cannot ensure or warrant the security of any information you provide or transmit to them, and you do so at your own risk. In the event of a breach of the confidentiality or security of your nonpublic personal information, the Funds will attempt to notify you as necessary, so you can take appropriate protective steps. If you have consented to the Funds using electronic communications or electronic delivery of statements, they may notify you under such circumstances using the most current email address you have on record with them.

In order for the Funds to provide effective service to you, keeping your account information accurate is very important. If you believe that your account information is incomplete, not accurate or not current, if you have questions about the Funds' privacy practices, or our use of your nonpublic personal information, write the Funds using the contact information on your account statements, email the Funds by clicking on the Contact Us section of the Funds' website at www.leggmason.com, or contact the Fund at 1-877-721-1926.

Revised April 2018

Legg Mason California Consumer Privacy Act Policy

Although much of the personal information we collect is "nonpublic personal information" subject to federal law, residents of California may, in certain circumstances, have additional rights under the California Consumer Privacy Act ("CCPA"). For example, if you are a broker,

Legg Mason Funds Privacy and Security Notice (cont'd)

dealer, agent, fiduciary, or representative acting by or on behalf of, or for, the account of any other person(s) or household, or a financial advisor, or if you have otherwise provided personal information to us separate from the relationship we have with personal investors, the provisions of this Privacy Policy apply to your personal information (as defined by the CCPA).

- In addition to the provisions of the Legg Mason Funds Security and Privacy Notice, you may have the right to know the categories and specific pieces of personal information we have collected about you.
- You also have the right to request the deletion of the personal information collected or maintained by the Funds.

If you wish to exercise any of the rights you have in respect of your personal information, you should advise the Funds by contacting them as set forth below. The rights noted above are subject to our other legal and regulatory obligations and any exemptions under the CCPA. You may designate an authorized agent to make a rights request on your behalf, subject to the identification process described below. We do not discriminate based on requests for information related to our use of your personal information, and you have the right not to receive discriminatory treatment related to the exercise of your privacy rights.

We may request information from you in order to verify your identity or authority in making such a request. If you have appointed an authorized agent to make a request on your behalf, or you are an authorized agent making such a request (such as a power of attorney or other written permission), this process may include providing a password/passcode, a copy of government issued identification, affidavit or other applicable documentation, i.e. written permission. We may require you to verify your identity directly even when using an authorized agent, unless a power of attorney has been provided. We reserve the right to deny a request submitted by an agent if suitable and appropriate proof is not provided.

For the 12-month period prior to the date of this Privacy Policy, the Legg Mason Funds have not sold any of your personal information; nor do we have any plans to do so in the future.
