

Fidelity® Variable Insurance Products

Initial Class, Service Class, and Service Class 2

Disciplined Small Cap Portfolio

Summary Prospectus

April 30, 2021

Before you invest, you may want to review the fund's prospectus, which contains more information about the fund and its risks. You can find the fund's prospectus, reports to shareholders, and other information about the fund (including the fund's SAI) online at institutional.fidelity.com/vipfunddocuments. You can also get this information at no cost by calling 1-866-997-1254 or by sending an e-mail request to funddocuments@fmr.com. The fund's prospectus and SAI dated April 30, 2021 are incorporated herein by reference.

Fund Summary

Fund/**Class**:
VIP Disciplined Small Cap Portfolio/**Initial Class, Service Class, Service Class 2**

Investment Objective

The fund seeks capital appreciation.

Fee Table

The following table describes the fees and expenses that may be incurred, directly or indirectly, when you, as a variable product

Fees
(fees paid directly from your investment)

Not Applicable

Annual Operating Expenses
(expenses that you pay each year as a % of the value of your investment)

	Initial Class	Service Class	Service Class 2
Management fee	0.45%	0.45%	0.45%
Distribution and/or Service (12b-1) fees	None	0.10%	0.25%
Other expenses	0.15%	0.15%	0.15%
Total annual operating expenses	0.60%	0.70%	0.85%

This **example** helps compare the cost of investing in the fund with the cost of investing in other funds.

Let's say, hypothetically, that the annual return for shares of the fund is 5% and that the fees and the annual operating expenses for shares of the fund are exactly as described in the fee table. This example illustrates the effect of fees and expenses, but is not meant

owner, buy and hold interests in a separate account that invests in shares of the fund. The table does not include any fees or other expenses of any variable annuity or variable life insurance product; if it did, overall fees and expenses would be higher.

to suggest actual or expected fees and expenses or returns, all of which may vary. This example does not include any fees or other expenses of any variable annuity or variable life insurance product; if it did, overall expenses would be higher. For every \$10,000 invested, here's how much you, as a variable product owner, would pay in total expenses if all interests in a separate account that invests in shares of the fund were redeemed at the end of each time period indicated:

	Initial Class	Service Class	Service Class 2
1 year	\$ 61	\$ 72	\$ 87
3 years	\$ 192	\$ 224	\$ 271
5 years	\$ 335	\$ 390	\$ 471
10 years	\$ 750	\$ 871	\$ 1,049

Portfolio Turnover

The fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs. These costs, which are not reflected in annual operating expenses or in the example, affect the fund's performance. During the most recent fiscal year, the fund's portfolio turnover rate was 57% of the average value of its portfolio.

Principal Investment Strategies

- Normally investing primarily in common stocks.
- Normally investing at least 80% of assets in securities of companies with small market capitalizations (which, for purposes of this fund, are those companies with market capitalizations similar to

companies in the Russell 2000® Index or the S&P SmallCap 600® Index).

- Investing in domestic and foreign issuers.
- Investing in either "growth" stocks or "value" stocks or both.
- Using computer-aided, quantitative analysis of historical valuation, growth, profitability, and other factors to select investments.

Principal Investment Risks

- **Stock Market Volatility.** Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Different parts of the market, including different market sectors, and different types of securities can react differently to these developments.

- **Foreign Exposure.** Foreign markets can be more volatile than the U.S. market due to increased risks of adverse issuer, political, regulatory, market, or economic developments and can perform differently from the U.S. market.
- **Issuer-Specific Changes.** The value of an individual security or particular type of security can be more volatile than, and can perform differently from, the market as a whole.
- **“Growth” Investing.** “Growth” stocks can perform differently from the market as a whole and other types of stocks and can be more volatile than other types of stocks.
- **“Value” Investing.** “Value” stocks can perform differently from the market as a whole and other types of stocks and can continue to be undervalued by the market for long periods of time.
- **Quantitative Investing.** Securities selected using quantitative analysis can perform differently from the market as a whole as a result of the factors used in the analysis, the weight placed on each factor, and changes in the factors’ historical trends.

- **Small Cap Investing.** The value of securities of smaller, less well-known issuers can perform differently from the market as a whole and other types of stocks and can be more volatile than that of larger issuers.

You could lose money by investing in the fund.

Performance

The following information is intended to help you understand the risks of investing in the fund. The information illustrates the changes in the performance of the fund’s shares from year to year and compares the performance of the fund’s shares to the performance of a securities market index over various periods of time. The index description appears in the “Additional Index Information” section of the prospectus. Returns for shares of the fund do not include the effect of any sales charges or other expenses of any variable annuity or variable life insurance product; if they did, returns for shares of the fund would be lower. Past performance is not an indication of future performance.

Year-by-Year Returns

During the periods shown in the chart for Initial Class:

Highest Quarter Return

Lowest Quarter Return

Returns	Quarter ended
31.72%	December 31, 2020
-31.38%	March 31, 2020

Average Annual Returns

For the periods ended December 31, 2020

	Past 1 year	Past 5 years	Past 10 years
Initial Class	18.45%	10.83%	10.85%
Service Class	18.28%	10.72%	10.76%
Service Class 2	18.12%	10.54%	10.55%
Russell 2000® Index (reflects no deduction for fees, expenses, or taxes)	19.96%	13.26%	11.20%

Fidelity Management & Research Company LLC (FMR) (the Adviser) is the fund’s manager. Geode Capital Management, LLC (Geode) serves as a sub-adviser for the fund.

Portfolio Manager(s)

Maximilian Kaufmann (senior portfolio manager) has managed the fund since December 2009.

Louis Bottari (senior portfolio manager) has managed the fund since January 2009.

Fund Summary – continued

Anna Lester (senior portfolio manager) has managed the fund since June 2019.

Peter Matthew (portfolio manager) has managed the fund since August 2012.

Shashi Naik (portfolio manager) has managed the fund since September 2014.

Purchase and Sale of Shares

Only Permitted Accounts, including separate accounts of insurance companies and qualified funds of funds that have signed the appropriate agreements with the fund, if applicable, can buy or sell shares. Insurance companies offer variable annuity and variable life insurance products through separate accounts. A qualified fund of funds is an eligible insurance-dedicated mutual fund that invests in other mutual funds.

Permitted Accounts - not variable product owners - are the shareholders of the fund. Variable product owners hold interests in separate accounts, including separate accounts that are shareholders of qualified funds of funds. The terms of the offering of interests in separate accounts are included in the variable annuity or variable life insurance product prospectus.

The price to buy one share is its net asset value per share (NAV). Shares will be bought at the NAV next calculated after an order is received in proper form.

The price to sell one share is its NAV. Shares will be sold at the NAV next calculated after an order is received in proper form.

The fund is open for business each day the New York Stock Exchange (NYSE) is open.

There is no purchase minimum for fund shares.

Tax Information

Variable product owners seeking to understand the tax consequences of their investment should consult with their tax advisers or the insurance company that issued their variable product, or refer to their variable annuity or variable life insurance product prospectus. Insurance company separate accounts generally do not pay tax on dividends or capital gain distributions from the fund.

Payments to Broker-Dealers and Other Financial Intermediaries

The fund, the Adviser, Fidelity Distributors Company LLC (FDC), and/or their affiliates may pay intermediaries, which may include insurance companies and their affiliated broker-dealers and service-providers (who may be affiliated with the Adviser or FDC), for the sale of fund shares and related services. These payments may create a conflict of interest by influencing your intermediary and your investment professional to recommend the fund over another investment. Ask your investment professional or visit your intermediary's web site for more information.

Fidelity Distributors Company LLC (FDC) is a member of the Securities Investor Protection Corporation (SIPC). You may obtain information about SIPC, including the SIPC brochure, by visiting www.sipc.org or calling SIPC at 202-371-8300.
