Dear Shareholder:

Security Investors, LLC (the “Investment Adviser”) is pleased to present the annual shareholder report for a selection of our Funds (the “Fund” or “Funds”) that are part of the Rydex Variable Trust. This report covers performance of the Funds for the annual period ended December 31, 2020.

The Investment Adviser is a part of Guggenheim Investments, which represents the investment management businesses of Guggenheim Partners, LLC (“Guggenheim”), a global, diversified financial services firm.

Guggenheim Funds Distributors, LLC is the distributor of the Funds. Guggenheim Funds Distributors, LLC is affiliated with Guggenheim and the Investment Adviser.

We encourage you to read the Economic and Market Overview section of the report, which follows this letter, and then the Performance Report and Fund Profile for each Fund.

We are committed to providing innovative investment solutions and appreciate the trust you place in us.

Sincerely,

Security Investors, LLC

January 31, 2021

Read a prospectus and summary prospectus (if available) carefully before investing. It contains the investment objectives, risks, charges, expenses and other information, which should be considered carefully before investing. Obtain a prospectus and summary prospectus (if available) at guggenheiminvestments.com or call 800.820.0888.

This material is not intended as a recommendation or as investment advice of any kind, including in connection with rollovers, transfers, and distributions. Such material is not provided in a fiduciary capacity, may not be relied upon for or in connection with the making of investment decisions, and does not constitute a solicitation of an offer to buy or sell securities. All content has been provided for informational or educational purposes only and is not intended to be and should not be construed as legal or tax advice and/or a legal opinion. Always consult a financial, tax and/or legal professional regarding your specific situation.

The global ongoing crisis caused by the outbreak of COVID-19 is causing materially reduced consumer demand and economic output, disrupting supply chains, resulting in market closures, travel restrictions and quarantines, and adversely impacting local and global economies. Investors should be aware that in light of the current uncertainty, volatility and distress in economies, financial markets, and labor and health conditions all over the world, the Funds' investments and a shareholder's investment in a Fund are subject to sudden and substantial losses, increased volatility and other adverse events. Firms through which investors invest with the Funds, the Funds, their service providers, the markets in which they invest and market intermediaries are also impacted by quarantines and similar measures intended to contain the ongoing pandemic, which can obstruct their functioning and subject them to heightened operational risks.

Inverse and leveraged Funds are not suitable for all investors. • These Funds should be utilized only by investors who (a) understand the risks associated with the use of leverage, (b) understand the consequences of seeking daily leveraged investment results, (c) understand the risk of shorting, and (d) intend to actively monitor and manage their investments. • The more a Fund invests in leveraged instruments, the more the leverage will magnify any gains or losses on those investments. • Inverse Funds involve certain risks, which include increased volatility due to the Funds' possible use of short sales of securities and derivatives, such as options and futures. • The Funds' use of derivatives, such as futures, options and swap agreements, may expose the Funds' shareholders to additional risks that they would not be subject to if they invested directly in the securities underlying those derivatives. • Short-selling involves increased risks and costs. You risk paying more for a security than you received from its sale. • Leveraged and inverse Funds seek to provide investment results that match the performance of a specific benchmark, before fees and expenses, on a daily basis. Because the Funds seek to track the performance of their benchmark on a daily basis, mathematical compounding, especially with respect to those Funds that use leverage as part of their investment strategy, may prevent a fund from correlating with the monthly, quarterly, annual or other period performance of its benchmark. Due to the compounding of daily returns, leveraged and inverse Funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. For those Funds that consistently apply leverage, the value of the fund's shares will tend to increase or decrease more than the value of any increase or decrease in its benchmark index. The Funds rebalance their portfolios on a daily basis, increasing exposure in response to that day's gains or reducing exposure in response to that day's losses. Daily rebalancing will impair a fund's performance if the benchmark experiences volatility. Investors should monitor their leveraged and inverse Funds' holdings consistent with their strategies, as frequently as daily. • For more on these and other risks, please read the prospectus.

The Nasdaq-100® Fund may not be suitable for all investors. • Investing in Rydex NASDAQ-100® Fund involves certain risks, which may include increased volatility due to the use of futures and the possibility that companies in which the Fund invests may not be commercially successful or may become obsolete more quickly. • There are no assurances that any Rydex Fund will achieve its objective and/or strategy. This Fund is subject to active trading and tracking error risks, which may increase volatility, impact the Fund's ability to achieve its investment objective and may decrease the Fund's performance. • This Fund is considered non-diversified and can invest a greater portion of its assets in securities of individual issuers than a diversified fund. As a result, changes in the market value of a single security could cause greater fluctuations in the value of Fund shares than would occur in a more diversified fund. • For more on these and other risks, please read the prospectus.

The Government Long Bond 1.2x Strategy and Inverse Government Long Bond Strategy funds are not suitable for all investors. • These Funds should be utilized only by investors who (a) understand the risks associated with the use of leverage, (b) understand the consequences of seeking daily leveraged investment results, and (c) intend to actively monitor and manage their investments. • The more a Fund invests in leveraged instruments, the more the leverage will magnify any gains or losses on those investments. • The Funds' use of derivatives, such as futures, options and swap agreements, may expose the Funds' shareholders to additional risks that they would not be subject to if they invested directly in the securities underlying those derivatives. • Leveraged and inverse Funds seek to provide investment results that match the performance of a specific benchmark, before fees and expenses, on a daily basis. Because the Funds seek to track the performance of their benchmark on a daily basis, mathematical compounding, especially with respect to those Funds that use leverage as part of their investment strategy, may prevent a fund from correlating with the monthly, quarterly, annual or other period performance of its benchmark. Due to the compounding of daily returns, leveraged Funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. For those Funds that consistently apply leverage, the value of the fund's shares will tend to increase or decrease more than the value of any increase or decrease in its benchmark index. The Funds rebalance their portfolios on a daily basis, increasing exposure in response to that day's gains or reducing exposure in response to that day's losses. Daily rebalancing will impair a fund's performance if the benchmark experiences volatility. Investors should monitor their leveraged Funds' holdings consistent with their strategies, as frequently as daily. • In general, bond prices rise when interest rates fall, and vice versa. Moreover, while securities with longer maturities tend to produce higher yields, the price of longer maturity securities is also subject to greater fluctuations as a result of changes in interest rates. • It is important to note that the funds are not guaranteed by the U.S. government. • There are no assurances that any Guggenheim fund will achieve its objective and/or strategy. These Funds are subject to active trading and tracking error risks, which may increase volatility, impact the fund's ability to achieve its investment objective, and may decrease the Fund's performance. • For more on these and other risks, please read the prospectus.

The High Yield Strategy Fund may not be suitable for all investors. • The Fund's use of derivatives such as futures, options, and swap agreements will expose the Fund to additional risks that it would not be subject to if it invested directly in the securities underlying those derivatives. • A highly liquid secondary market may not exist for the credit default swaps the Fund invests in, and there can be no assurance that a highly liquid secondary market will develop. • The Fund's market value will change in response to interest rate changes and market conditions among other factors. • You may have a gain or loss when you sell your shares. • In general, bond prices rise when interest rates fall, and vice versa. • The Fund's exposure to the high yield bond market may subject the Fund to greater volatility because (i) it will be affected by the ability of high yield security issuers' ability to make principal and interest payments and (ii) the prices of derivatives linked to high yield bonds may fluctuate unpredictably and not necessarily in relation to interest rates. • It is important to note that the Fund is not guaranteed by the U.S. government. • The Fund is subject to active trading risks that may increase volatility and impact its ability to achieve its investment objective.

The U.S. Government Money Market Fund may not be suitable for all investors. • You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

In what could have been one of the worst years on record for equity investors due to the devastating human and economic cost of the COVID-19 pandemic combined with political unrest in the U.S., the 12-month period ended December 31, 2020, witnessed the Standard & Poor's 500® ("S&P 500®") Index reach a record high of 3,756.07 from 3,234.85 at the start of the year. This was despite plummeting to 2,237.40 on March 23, 2020 as the effects of the pandemic caused the U.S. economy to stall. This dramatic change in fortune for equity markets was due in large part by a swift, sweeping response to the economic shutdown in March 2020 by the U.S. Federal Reserve (the "Fed"), which has continued to signal its intention to use ultra-accommodative monetary policy to strive toward full employment and 2% inflation via unprecedented measures. The central bank's commitment to keeping interest rates near zero and its bond-buying program to lessen the risk of corporate defaults resulted in bountiful debt issuance by corporate borrowers and a growing confidence among equity investors that the investment environment would remain benign for the foreseeable future.

As such, our economic outlook for the coming year is positive, owing to another round of COVID-19 relief and more planned by the new administration, plus the expectation for a successful vaccine distribution. The new package, titled the Coronavirus Response and Relief Supplemental Appropriations Act, delivers a \$900 billion injection into the economy, bringing total COVID-related aid to over \$3.5 trillion including the 2020 bill, or roughly 8.5% of 2020–2021 gross domestic product ("GDP"). On this measure, it is already 3.5x more than the stimulus delivered in the five years following the financial crisis.

The latest round of fiscal stimulus should cause a surge in personal income during the first quarter, and a significant percentage of the population should be vaccinated or immune from prior infection by mid-2021. It is likely that local governments will be able to begin to relax restrictions even before herd immunity is reached since hospitalizations should fall once the elderly are vaccinated. As we move through the year, consumer spending growth should start to accelerate, spurred on by elevated personal savings and strong gains in household net worth. Elsewhere, the housing market will continue to benefit from tight supply and low interest rates, and business investment should rebound as corporations look to put to work record levels of precautionary cash. As a result, we expect real GDP growth to be well above potential for the year.

If the unemployment rate continues to fall at its recent pace and inflation picks up with its usual six-quarter lag behind economic activity, the experience of prior cycles would suggest that the Fed could start its hiking cycle as early as late-2022. However, the change in the Fed's playbook will keep it sidelined for years as it looks to make up for shortfalls related to its 2% inflation target and no longer worries about an overly tight labor market.

This means the Fed is likely to keep rates at zero for several years beyond the late-2023 liftoff currently priced into the bond market. Similarly, the odds are low of a tapering of the Fed's bond purchases in 2021. While we believe the government response to the pandemic was necessary and appropriate, investors are already paying some price with more elevated valuations due in part to the Fed's aggressive relaunch of quantitative easing. Under these circumstances, investors will likely continue to take on more risk as long as more fiscal support is underway and while the Fed remains willing to backstop credit markets to support financial conditions.

For the 12-month period ended December 31, 2020, the S&P 500® Index* returned 18.40%. The MSCI Europe-Australasia-Far East ("EAFE") Index* returned 7.82%. The return of the MSCI Emerging Markets Index* was 15.84%.

In the bond market, the Bloomberg Barclays U.S. Aggregate Bond Index* posted a 7.51% return for the 12-month period, while the Bloomberg Barclays U.S. Corporate High Yield Index* returned 7.11%. The return of the ICE Bank of America ("BofA") Merrill Lynch 3-Month U.S. Treasury Bill Index* was 0.67% for the 12-month period.

The opinions and forecasts expressed may not actually come to pass. This information is subject to change at any time, based on market and other conditions, and should not be construed as a recommendation of any specific security or strategy.

***Index Definitions:**

The following indices are referenced throughout this report. Indices are unmanaged and not available for direct investment. Index performance does not reflect transaction costs, fees, or expenses.

Bloomberg Barclays Long U.S. Treasury Index includes all publicly issued, U.S. Treasury securities that have a remaining maturity of 10 or more years, are rated investment grade, and have \$250 million or more of outstanding face value. In addition, the securities must be denominated in U.S. dollars and must be fixed rate and nonconvertible. The Long U.S. Treasury Index is market capitalization weighted and the securities in the index are updated on the last business day of each month.

Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including U.S. Treasuries, government-related and corporate securities, mortgage-backed securities or "MBS" (agency fixed-rate and hybrid adjustable-rate mortgage, or "ARM", pass-throughs), asset-backed securities ("ABS"), and commercial mortgage-backed securities ("CMBS") (agency and non-agency).

Bloomberg Barclays U.S. Corporate High Yield Index measures the U.S. dollar-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch, and S&P is Ba1/BB +/BB + or below.

Dow Jones Industrial Average® is a price-weighted average of 30 significant stocks traded on the New York Stock Exchange and the Nasdaq. The DJIA was invented by Charles Dow in 1896.

ICE BofA Merrill Lynch 3-Month U.S. Treasury Bill Index is an unmanaged market index of U.S. Treasury securities maturing in 90 days that assumes reinvestment of all income.

MSCI EAFE Index is a free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, excluding the U.S. & Canada.

MSCI Emerging Markets Index is a free float-adjusted market capitalization weighted index that is designed to measure equity market performance in the global emerging markets.

NASDAQ-100® Index includes 100 of the largest domestic and international non-financial securities listed on The Nasdaq Stock Market based on market capitalization. The Index reflects companies across major industry groups including computer hardware and software, telecommunications, retail/wholesale trade and biotechnology. It does not contain securities of financial companies including investment companies.

Russell 2000® Index measures the performance of the small-cap value segment of the U.S. equity universe.

S&P 500® is a broad-based index, the performance of which is based on the performance of 500 widely held common stocks chosen for market size, liquidity, and industry group representation.

S&P MidCap 400® Index provides investors with a benchmark for mid-sized companies. The index covers approximately 7% of the U.S. equity market, and seeks to remain an accurate measure of mid-sized companies, reflecting the risk and return characteristics of the broader mid-cap universe on an on-going basis.

Many of the Funds described in this report are benchmarked daily to leveraged and/or inverse leveraged versions of published indices. To properly evaluate the performance of these funds, it is essential to understand the effect of mathematical compounding on their respective returns.

Because of the nonlinear effects of leverage applied over time, it is possible for a fund to perform in-line with its benchmark for several individual periods in a row, yet seem to trail the benchmark over the entire period on a cumulative basis. It is also possible that a fund that performs in-line with its benchmark on a daily basis may seem to outperform its benchmark over longer periods.

An Example of Compounding

For example, consider a hypothetical fund that is designed to produce returns that correspond to 150% of an index. On the first day of a period, the index rises from a level of 100 to a level of 106, producing a 6.0% gain and an expectation that the fund will rise by 9.0%. On the same day, the fund's net asset value per share ("NAV") increases from \$10.00 to \$10.90 for a gain of 9.0% — in line with its benchmark.

On day two, assume the index falls from 106 to 99 for a loss of about 6.6%. The fund, as expected, falls 9.9% to a price of \$9.82. On each day, the fund performed exactly in line with its benchmark, but for the two-day period, the fund was down 1.8%, while the index was down only 1.0%. Without taking into account the daily compounding of returns, one would expect the fund to lose 1.5% and would see the fund as trailing by 0.3% when in fact it had performed perfectly. This example is summarized in the table below.

	Index Level	Index Performance	Fund Expectation	Fund NAV	Fund Performance	Assessment
Start	100			\$10.00		
Day 1	106	6.0%	9.0%	\$10.90	9.0%	In line
Day 2	99	-6.6%	-9.9%	\$ 9.82	-9.9%	In line
Cumulative		-1.0%	-1.5%		-1.8%	-0.3%

As illustrated by this simple example, the effect of leverage can make it difficult to form expectations or judgments about fund performance given only the returns of the unleveraged index.

Because certain funds seek to track the performance of their benchmark on a daily basis, mathematical compounding, especially with respect to those funds that use leverage as part of their investment strategy, may prevent a fund from correlating with the monthly, quarterly, annual or other period performance of its benchmark. Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily. For those funds that consistently apply leverage, the value of the fund's shares will tend to increase or decrease more than the value of any increase or decrease in its benchmark index. For more on correlation, leverage and other risks, please read the prospectus.

In general, any change in direction in an index will produce compounding that seems to work against an investor. Were the index to move in the same direction (either up or down) for two or more periods in a row, the compounding of those returns would work in an investor's favor, causing the fund to seemingly beat its benchmark.

As a general rule of thumb, more leverage in a fund will magnify the compounding effect, while less leverage will generally produce results that are more in line with expectations. In addition, periods of high volatility in an underlying index will also cause the effects of compounding to be more pronounced, while lower volatility will produce a more muted effect.

All mutual funds have operating expenses, and it is important for our shareholders to understand the impact of costs on their investments. Shareholders of a fund incur two types of costs: (i) transaction costs, including sales charges (loads) on purchase payments, reinvested dividends, other distributions, and exchange fees, and (ii) ongoing costs, including management fees, administrative services, and shareholder reports, among others. These ongoing costs, or operating expenses, are deducted from a fund's gross income and reduce the investment return of the fund.

A fund's expenses are expressed as a percentage of its average net assets, which is known as the expense ratio. The following examples are intended to help investors understand the ongoing costs (in dollars) of investing in a fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples are based on an investment of \$1,000 made at the beginning of the period and held for the entire six-month period beginning June 30, 2020 and ending December 31, 2020.

The following tables illustrate the Funds' costs in two ways:

Table 1. Based on actual Fund return: This section helps investors estimate the actual expenses paid over the period. The "Ending Account Value" shown is derived from the Fund's actual return, and the fifth column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. Investors may use the information here, together with the amount invested, to estimate the expenses paid over the period. Simply divide the Fund's account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number provided under the heading "Expenses Paid During Period."

Table 2. Based on hypothetical 5% return: This section is intended to help investors compare a fund's cost with those of other mutual funds. The table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid during the period. The example is useful in making comparisons because the U.S. Securities and Exchange Commission (the "SEC") requires all mutual funds to calculate expenses based on the 5% return. Investors can assess a fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The calculations illustrated above assume no shares were bought or sold during the period. Actual costs may have been higher or lower, depending on the amount of investment and the timing of any purchases or redemptions.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) on purchase payments, and contingent deferred sales charges ("CDSC") on redemptions, if any. Therefore, the second table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

More information about the Funds' expenses, including annual expense ratios for periods up to five years (subject to the Fund's inception date), can be found in the Financial Highlights section of this report. For additional information on operating expenses and other shareholder costs, please refer to the appropriate Fund prospectus.

ABOUT SHAREHOLDERS' FUND EXPENSES (Unaudited) (concluded)

	Expense Ratio ¹	Fund Return	Beginning Account Value June 30, 2020	Ending Account Value December 31, 2020	Expenses Paid During Period ²
Table 1. Based on actual Fund return³					
Nova Fund	1.67%	33.55%	\$ 1,000.00	\$ 1,335.50	\$ 9.83

¹ This ratio represents annualized net expenses, which includes interest expense related to securities sold short. Excluding short interest expense, the operating expense ratio of the Inverse Government Long Bond Strategy Fund would be 1.83%. Excludes expenses of the underlying funds in which the Funds invest.

² Expenses are equal to the Fund's annualized expense ratio, net of any applicable fee waivers, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period). Expenses shown do not include fees charged by insurance companies.

³ Actual cumulative return at net asset value for the period June 30, 2020 to December 31, 2020.

NOVA FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is 150% of the performance of the S&P 500[®] Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Nova Fund maintained a daily correlation of over 99% to its benchmark of 150% of the daily price movement of the S&P 500 Index. Nova Fund returned 20.03%, while the S&P 500 Index returned 18.40% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Communications Services. The sectors detracting the most from return of the underlying index for the period were Energy, Financials, and Real Estate.

Apple, Inc., Amazon.com, Inc., and Microsoft Corp. contributed the most to performance of the underlying index for 2020. ExxonMobil Corp., Wells Fargo & Co., and AT&T, Inc. detracted the most from performance of the underlying index for the year.

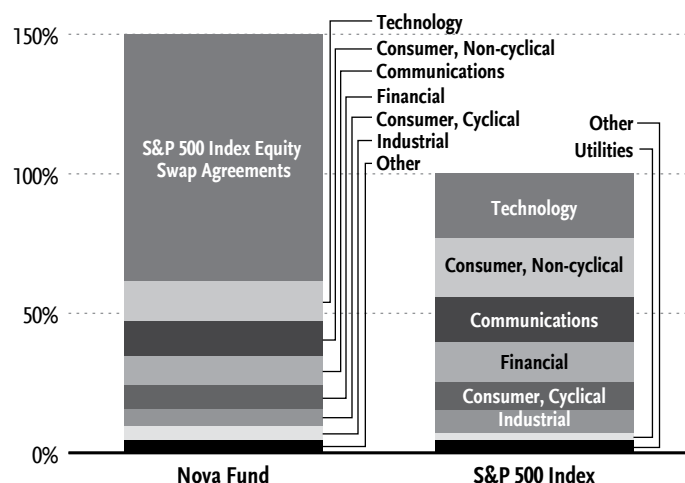

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

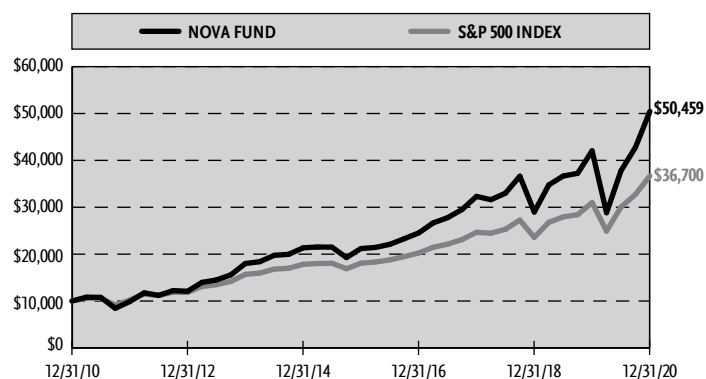

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Inception Date: May 7, 1997

Ten Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	13.9%
Guggenheim Strategy Fund II	12.0%
Apple, Inc.	4.1%
Microsoft Corp.	3.3%
Amazon.com, Inc.	2.7%
Facebook, Inc. — Class A	1.3%
Tesla, Inc.	1.0%
Alphabet, Inc. — Class A	1.0%
Alphabet, Inc. — Class C	1.0%
Berkshire Hathaway, Inc. — Class B	0.9%
Top Ten Total	41.2%

“Ten Largest Holdings” excludes any temporary cash or derivative investments.

Cumulative Fund Performance^{*,†}**Average Annual Returns^{*,†}**

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Nova Fund	20.03%	18.95%	17.57%
S&P 500 Index	18.40%	15.22%	13.88%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The S&P 500 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

Net increase (decrease) in shares	46,332	(72,350)

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^e
Per Share Data					
Net asset value, beginning of period	\$135.68	\$94.55	\$113.00	\$89.58	\$77.42
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.30)	.90	.83	.22	.06
Net gain (loss) on investments (realized and unrealized)	24.12	41.55	(11.15)	27.62	12.10
Total from investment operations	23.82	42.45	(10.32)	27.84	12.16
Less distributions from:					
Net investment income	(1.16)	(1.32)	(.21)	(.05)	—
Net realized gains	(13.60)	—	(7.92)	(4.37)	—
Total distributions	(14.76)	(1.32)	(8.13)	(4.42)	—
Net asset value, end of period	\$144.74	\$135.68	\$94.55	\$113.00	\$89.58
Total Return^b	20.03%	45.04%	(10.32%)	31.78%	15.72%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$45,692	\$36,545	\$32,309	\$51,725	\$38,768
Ratios to average net assets:					
Net investment income (loss)	(0.24%)	0.77%	0.73%	0.22%	0.04%
Total expenses ^c	1.73%	1.72%	1.62%	1.61%	1.56%
Net expenses ^d	1.68%	1.66%	1.61%	1.61%	1.56%
Portfolio turnover rate	650%	336%	604%	412%	636%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Share split — Per share amounts for the year ended December 31, 2016, have been restated to reflect a 2:1 share split effective December 1, 2016.

INVERSE S&P 500® STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is the inverse (opposite) of the performance of the S&P 500® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Inverse S&P 500 Strategy Fund maintained a daily correlation of over 99% to its benchmark of -100% of the daily price movement of the S&P 500 Index. Inverse S&P 500 Strategy Fund returned -25.02%, while the S&P 500 Index returned 18.40% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Communications Services. The sectors detracting the most from return of the underlying index for the period were Energy, Financials, and Real Estate.

Apple, Inc., Amazon.com, Inc., and Microsoft Corp. contributed the most to performance of the underlying index for 2020. ExxonMobil Corp., Wells Fargo & Co., and AT&T, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

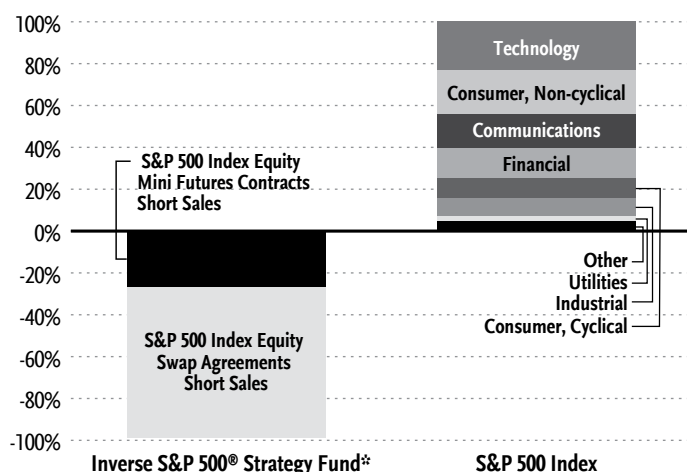

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: June 9, 1997

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

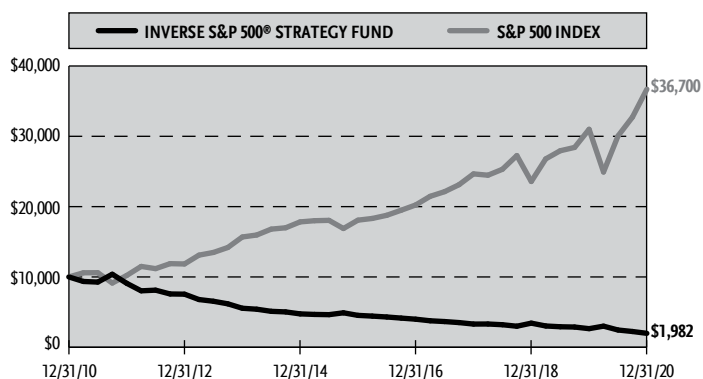

Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	23.4%
Guggenheim Ultra Short Duration Fund — Institutional Class	21.8%
Total	45.2%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Inverse S&P 500® Strategy Fund	(25.02%)	(15.26%)	(14.94%)
S&P 500 Index	18.40%	15.22%	13.88%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The S&P 500 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

† Value determined based on Level 1 inputs — See Note 4.

†† Value determined based on Level 2 inputs — See Note 4.

¹ Affiliated issuer.

² Variable rate security. Rate indicated is the rate effective at December 31, 2020. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

³ All or a portion of this security is pledged as futures collateral at December 31, 2020.

⁴ Rate indicated is the effective yield at the time of purchase.

⁵ Repurchase Agreements — See Note 6.

⁶ All or a portion of this security is pledged as equity index swap collateral at December 31, 2020.

LIBOR — London Interbank Offered Rate

plc — Public Limited Company

See Sector Classification in Other Information section.

The following table summarizes the inputs used to value the Fund's investments at December 31, 2020 (See Note 4 in the Notes to Financial Statements):

Investments in Securities (Assets)	Level 1 Quoted Prices	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total

** This derivative is reported as unrealized appreciation/depreciation at period end.

INVERSE S&P 500® STRATEGY FUND**Affiliated Transactions**

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

Net increase (decrease) in shares	2,371	(29,178)

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^e
Per Share Data					
Net asset value, beginning of period	\$55.29	\$72.35	\$69.60	\$84.21	\$95.71
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.48)	.44	.41	(.11)	(.11)
Net gain (loss) on investments (realized and unrealized)	(13.31)	(16.97)	2.34	(14.50)	(11.39)
Total from investment operations	(13.79)	(16.53)	2.75	(14.61)	(11.50)
Less distributions from:					
Net investment income	(.34)	(.53)	—	—	—
Total distributions	(.34)	(.53)	—	—	—
Net asset value, end of period	\$41.16	\$55.29	\$72.35	\$69.60	\$84.21
Total Return^b	(25.02%)	(22.91%)	3.95%	(17.35%)	(12.01%)
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$1,407	\$1,759	\$4,413	\$2,573	\$4,584
Ratios to average net assets:					
Net investment income (loss)	(0.93%)	0.71%	0.61%	(0.15%)	(0.69%)
Total expenses ^c	1.88%	1.88%	1.77%	1.76%	1.71%
Net expenses ^d	1.83%	1.82%	1.76%	1.76%	1.71%
Portfolio turnover rate	1,417%	442%	540%	100%	311%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Reverse share split — Per share amounts for the year ended December 31, 2016, have been restated to reflect a 1:6 reverse share split effective December 1, 2016.

NASDAQ-100® FUND

OBJECTIVE: Seeks to provide investment results that correspond, before fees and expenses, to a benchmark for over-the-counter securities on a daily basis. The Fund's current benchmark is the NASDAQ-100® Index (the "underlying index").

For the one-year period ended December 31, 2020, NASDAQ-100® Fund maintained a daily correlation of over 99% to its benchmark of 100% of the daily price movement of the NASDAQ-100® Index. The Fund returned 44.96%, while the NASDAQ-100® Index returned 48.88% over the same time period.

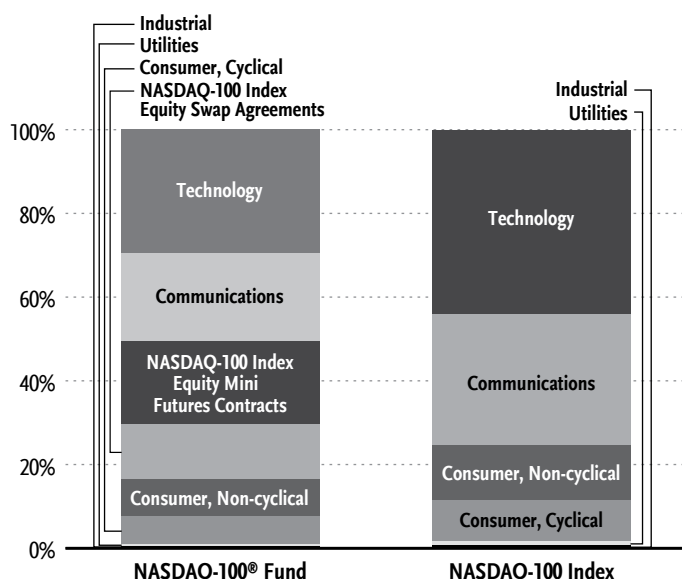

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Communications Services. The sectors detracting the most from return of the underlying index for the period were Utilities and Financials.

Apple, Inc., Amazon.com, Inc., and Microsoft Corp. contributed the most to performance of the underlying index for 2020. Walgreens Boots Alliance, Inc., Marriott International, Inc. Class A, and United Airlines Holdings, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

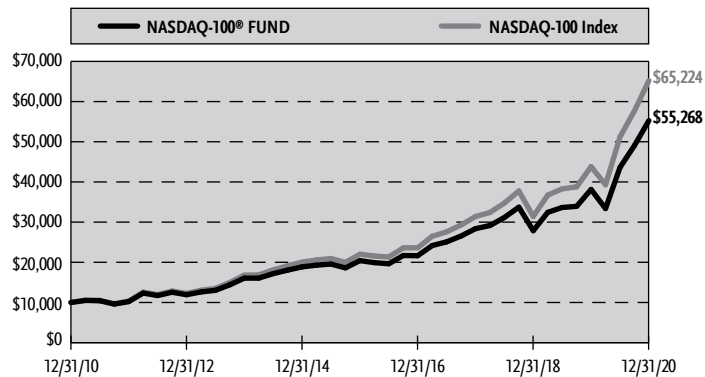

Inception Date: May 7, 1997

Ten Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	14.5%
Guggenheim Ultra Short Duration Fund — Institutional Class	11.8%
Apple, Inc.	8.2%
Microsoft Corp.	6.1%
Amazon.com, Inc.	6.0%
Tesla, Inc.	3.0%
Facebook, Inc. — Class A	2.4%
Alphabet, Inc. — Class C	2.1%
Alphabet, Inc. — Class A	1.9%
NVIDIA Corp.	1.8%
Top Ten Total	57.8%

"Ten Largest Holdings" excludes any temporary cash or derivative investments.

"Holdings Diversification (Market Exposure as % of Net Assets)" excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide "market exposure" to meet the Fund's investment objective, but will significantly increase the portfolio's exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as "junk bonds"); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
NASDAQ-100® Fund	44.96%	22.04%	18.64%
NASDAQ-100 Index	48.88%	24.27%	20.63%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The NASDAQ-100 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

** This derivative is reported as unrealized appreciation/depreciation at period end.

NASDAQ-100® FUND**Affiliated Transactions**

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income
Mutual Funds

Net increase in shares	23,090	114,646

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016
Per Share Data					
Net asset value, beginning of period	\$48.86	\$36.56	\$38.70	\$31.89	\$34.16
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.31)	.18	.04	(.11)	(.11)
Net gain (loss) on investments (realized and unrealized)	21.04	13.20	(.49)	9.73	1.92
Total from investment operations	20.73	13.38	(.45)	9.62	1.81
Less distributions from:					
Net investment income	(.17)	(.05)	—	—	—
Net realized gains	(6.61)	(1.03)	(1.69)	(2.81)	(4.08)
Total distributions	(6.78)	(1.08)	(1.69)	(2.81)	(4.08)
Net asset value, end of period	\$62.81	\$48.86	\$36.56	\$38.70	\$31.89
Total Return^b	44.96%	36.86%	(1.81%)	31.12%	5.98%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$112,787	\$86,623	\$60,616	\$76,862	\$61,516
Ratios to average net assets:					
Net investment income (loss)	(0.58%)	0.41%	0.11%	(0.30%)	(0.34%)
Total expenses ^c	1.76%	1.76%	1.66%	1.64%	1.60%
Net expenses ^d	1.72%	1.70%	1.66%	1.64%	1.60%
Portfolio turnover rate	142%	61%	80%	101%	284%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

INVERSE NASDAQ-100® STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is the inverse (opposite) of the performance of the NASDAQ-100® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, with the NASDAQ-100 Index returning 48.88%, the Inverse NASDAQ-100® Strategy Fund returned -38.00%. For the one-year period ended December 31, 2020, Inverse NASDAQ-100® Strategy Fund maintained a daily correlation of over 99% to its benchmark of -100% of the daily price movement of the NASDAQ-100 Index.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Communications Services. The sectors detracting the most from return of the underlying index for the period were Utilities and Financials.

Apple, Inc., Amazon.com, Inc., and Microsoft Corp. contributed the most to performance of the underlying index for 2020. Walgreens Boots Alliance, Inc., Marriott International, Inc. Class A, and United Airlines Holdings, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

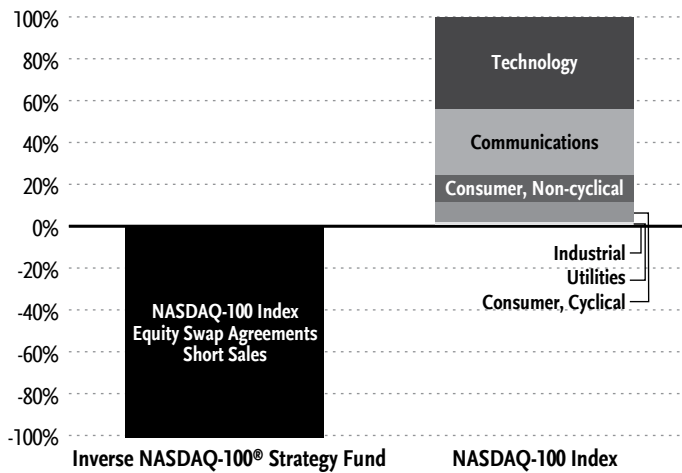

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: May 21, 2001

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

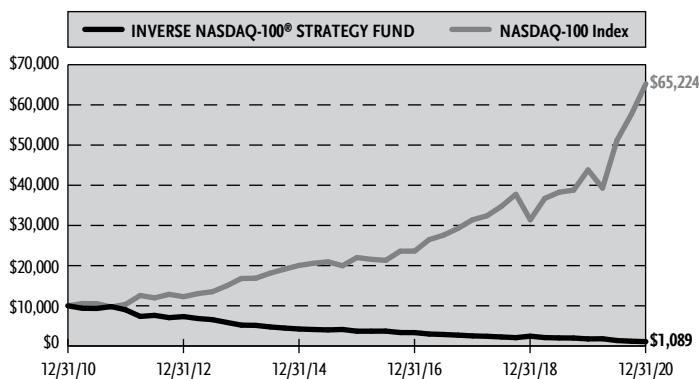

Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	27.0%
Guggenheim Ultra Short Duration Fund — Institutional Class	26.9%
Total	53.9%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Inverse NASDAQ-100® Strategy Fund	(38.00%)	(21.61%)	(19.89%)
NASDAQ-100 Index	48.88%	24.27%	20.63%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The NASDAQ-100 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

* Relates to Trustees not deemed "interested persons" within the meaning of Section 2(a)(19) of the 1940 Act.

STATEMENTS OF CHANGES IN NET ASSETS

	Year Ended December 31, 2020	Year Ended December 31, 2019
INCREASE (DECREASE) IN NET ASSETS FROM OPERATIONS:		
Net investment income (loss)	\$ (14,358)	\$ 12,149
Net realized loss on investments	(982,115)	(980,799)
Net change in unrealized appreciation (depreciation) on investments	(1,647)	77,618
Net decrease in net assets resulting from operations	(998,120)	(891,032)
Distributions to shareholders	(12,149)	(7,340)
CAPITAL SHARE TRANSACTIONS:		
Proceeds from sale of shares	27,846,986	20,383,557
Distributions reinvested	12,149	7,340
Cost of shares redeemed	(26,977,515)	(26,715,526)
Net increase (decrease) from capital share transactions	881,620	(6,324,629)
Net decrease in net assets	(128,649)	(7,223,001)
NET ASSETS:		
Beginning of year	592,242	7,815,243
End of year	\$ 463,593	\$ 592,242
CAPITAL SHARE ACTIVITY:		
Shares sold	807,771	417,235
Shares issued from reinvestment of distributions	414	162
Shares redeemed	(804,229)	(538,614)
Net increase (decrease) in shares	3,956	(121,217)

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^e
Per Share Data					
Net asset value, beginning of period	\$41.21	\$57.64	\$59.28	\$78.68	\$86.94
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.33)	.34	.32	(.11)	(.18)
Net gain (loss) on investments (realized and unrealized)	(15.28)	(16.47)	(1.96) ^f	(19.29)	(8.08)
Total from investment operations	(15.61)	(16.13)	(1.64)	(19.40)	(8.26)
Less distributions from:					
Net investment income	(.30)	(.30)	—	—	—
Total distributions	(.30)	(.30)	—	—	—
Net asset value, end of period	\$25.30	\$41.21	\$57.64	\$59.28	\$78.68
Total Return^b	(38.00%)	(28.01%)	(2.77%)	(24.66%)	(9.48%)
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$464	\$592	\$7,815	\$772	\$2,652
Ratios to average net assets:					
Net investment income (loss)	(0.93%)	0.70%	0.58%	(0.17%)	(0.78%)
Total expenses ^c	1.92%	1.92%	1.83%	1.79%	1.74%
Net expenses ^d	1.87%	1.84%	1.83%	1.79%	1.74%
Portfolio turnover rate	681%	418%	136%	119%	382%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Reverse share split — Per share amounts for the year ended December 31, 2016 have been restated to reflect a 1:4 reverse share split effective December 1, 2016.

^f The amount shown for a share outstanding throughout the period does not agree with the aggregate net gain on investments for the year because of the sales and repurchases of fund shares in relation to fluctuating market value of the investments of the Fund.

S&P 500® 2x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is 200% of the performance of the S&P 500® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, S&P 500 2x Strategy Fund maintained a daily correlation of over 99% to its benchmark of 200% of the daily price movement of the S&P 500 Index. S&P 500 2x Strategy Fund returned 18.10%, while the S&P 500 Index returned 18.40% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Communications Services. The sectors detracting the most from return of the underlying index for the period were Energy, Financials, and Real Estate.

Apple, Inc., Amazon.com, Inc., and Microsoft Corp. contributed the most to performance of the underlying index for 2020. ExxonMobil Corp., Wells Fargo & Co., and AT&T, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

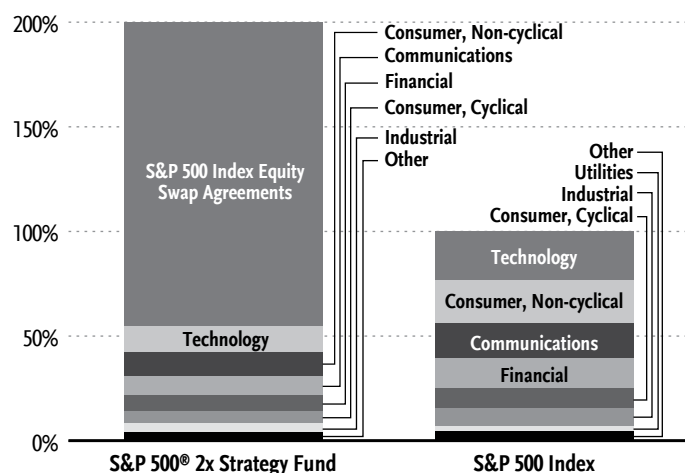

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

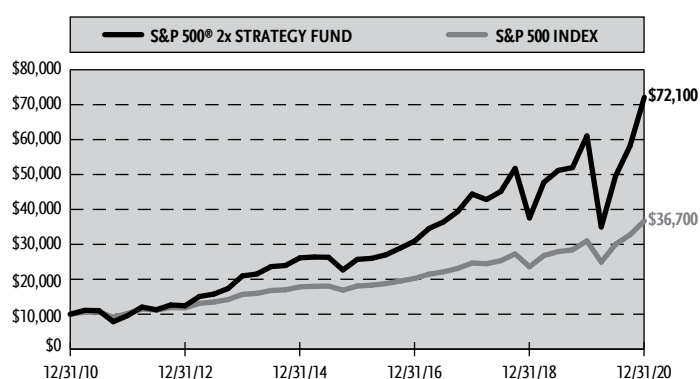

Inception Date: October 1, 2001

Ten Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	13.1%
Guggenheim Strategy Fund II	10.7%
Apple, Inc.	3.7%
Microsoft Corp.	2.9%
Amazon.com, Inc.	2.4%
Facebook, Inc. — Class A	1.1%
Tesla, Inc.	0.9%
Alphabet, Inc. — Class A	0.9%
Alphabet, Inc. — Class C	0.9%
Berkshire Hathaway, Inc. — Class B	0.8%
Top Ten Total	37.4%

“Ten Largest Holdings” excludes any temporary cash or derivative investments.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
S&P 500® 2x Strategy Fund	18.10%	22.91%	21.84%
S&P 500 Index	18.40%	15.22%	13.88%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The S&P 500 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

Total Assets	\$ 28,885,855	\$ 8,950,877	\$ —	\$ 37,836,732

** This derivative is reported as unrealized appreciation/depreciation at period end.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

Shares redeemed	(2,534,148)	(753,476)
Net increase (decrease) in shares	(56,726)	11,272

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016
Per Share Data					
Net asset value, beginning of period	\$313.21	\$192.73	\$244.38	\$176.52	\$165.22
Income (loss) from investment operations:					
Net investment income (loss) ^a	(1.21)	1.59	1.48	.13	(.53)
Net gain (loss) on investments (realized and unrealized)	45.29 ^e	118.89	(35.10)	75.18	32.62
Total from investment operations	44.08	120.48	(33.62)	75.31	32.09
Less distributions from:					
Net investment income	(1.68)	—	(.14)	—	—
Net realized gains	(40.18)	—	(17.89)	(7.45)	(20.79)
Total distributions	(41.86)	—	(18.03)	(7.45)	(20.79)
Net asset value, end of period	\$315.43	\$313.21	\$192.73	\$244.38	\$176.52
Total Return^b	18.10%	62.51%	(15.41%)	43.49%	20.40%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$36,688	\$54,196	\$31,177	\$36,513	\$24,895
Ratios to average net assets:					
Net investment income (loss)	(0.44%)	0.62%	0.60%	0.06%	(0.32%)
Total expenses ^c	1.87%	1.87%	1.77%	1.76%	1.71%
Net expenses ^d	1.83%	1.80%	1.77%	1.76%	1.71%
Portfolio turnover rate	2,610%	248%	424%	282%	578%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e The amount shown for a share outstanding throughout the period does not agree with the aggregate net loss on investments for the year because of the sales and repurchases of fund shares in relation to fluctuating market value of the investments of the Fund.

NASDAQ-100® 2x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is 200% of the performance of the NASDAQ-100® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, with the NASDAQ-100 Index returning 48.88%, the NASDAQ-100® 2x Strategy Fund returned 86.87%. For the one-year period ending December 31, 2020, the Fund maintained a daily correlation of over 99% to its benchmark of 200% of the daily price movement of the NASDAQ-100 Index.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Communications Services. The sectors detracting the most from return of the underlying index for the period were Utilities and Financials.

Apple, Inc., Amazon.com, Inc., and Microsoft Corp. contributed the most to performance of the underlying index for 2020. Walgreens Boots Alliance, Inc., Marriott International, Inc. - Class A, and United Airlines Holdings, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

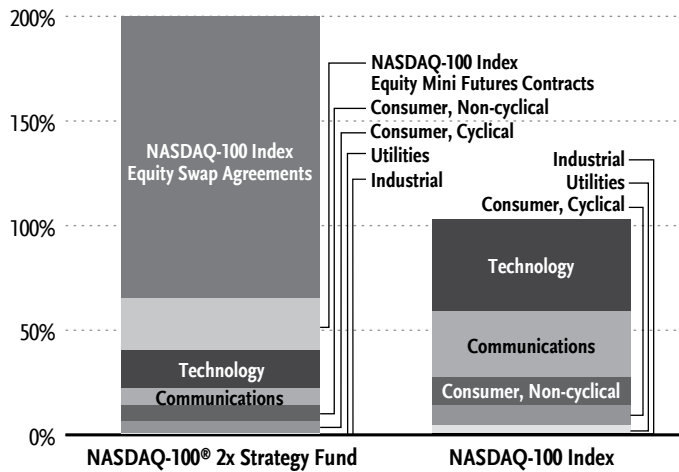

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: October 1, 2001

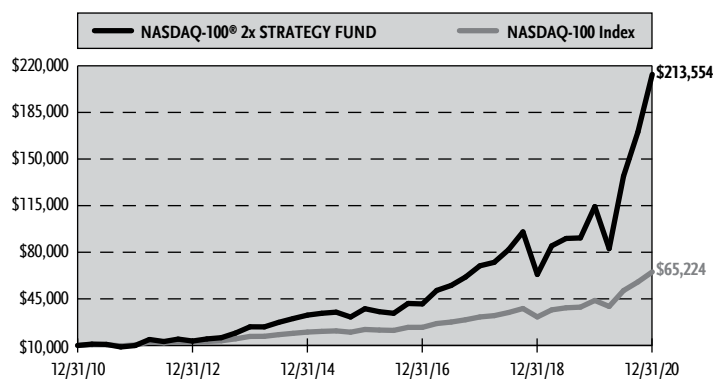

Ten Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	15.2%
Guggenheim Ultra Short Duration Fund — Institutional Class	8.3%
Apple, Inc.	7.0%
Microsoft Corp.	5.2%
Amazon.com, Inc.	5.1%
Tesla, Inc.	2.6%
Facebook, Inc. — Class A	2.0%
Alphabet, Inc. — Class C	1.8%
Alphabet, Inc. — Class A	1.6%
NVIDIA Corp.	1.5%
Top Ten Total	50.3%

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

“Ten Largest Holdings” excludes any temporary cash or derivative investments.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
NASDAQ-100® 2x Strategy Fund	86.87%	41.55%	35.82%
NASDAQ-100 Index	48.88%	24.27%	20.63%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The NASDAQ-100 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

NASDAQ-100® 2x STRATEGY FUND**Affiliated Transactions**

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income
Mutual Funds

Net decrease in shares	(166,869)	(65,171)

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016
Per Share Data					
Net asset value, beginning of period	\$91.34	\$50.68	\$64.95	\$38.79	\$38.67
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.88)	.22	.14	(.17)	(.22)
Net gain (loss) on investments (realized and unrealized)	72.46	40.55	(2.70)	26.97	3.57
Total from investment operations	71.58	40.77	(2.56)	26.80	3.35
Less distributions from:					
Net investment income	(.30)	(.11)	—	—	—
Net realized gains	(21.08)	—	(11.71)	(.64)	(3.23)
Total distributions	(21.38)	(.11)	(11.71)	(.64)	(3.23)
Net asset value, end of period	\$141.54	\$91.34	\$50.68	\$64.95	\$38.79
Total Return^b	86.87%	80.50%	(9.31%)	69.49%	9.60%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$131,049	\$99,811	\$58,680	\$70,853	\$41,115
Ratios to average net assets:					
Net investment income (loss)	(0.83%)	0.30%	0.21%	(0.32%)	(0.62%)
Total expenses ^c	1.91%	1.91%	1.81%	1.80%	1.75%
Net expenses ^d	1.87%	1.84%	1.80%	1.80%	1.75%
Portfolio turnover rate	663%	346%	220%	97%	494%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

MID-CAP 1.5x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that correlate, before fees and expenses, to the performance of a specific benchmark for midcap securities on a daily basis. The Fund's current benchmark is 150% of the performance of the S&P MidCap 400[®] Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the year ended December 31, 2020, the Mid-Cap 1.5x Strategy Fund returned 10.69%. Over the year, its benchmark, the S&P MidCap 400 Index, returned 13.66%. The Fund had a correlation of more than 99% to its benchmark of 150% of the daily price movement of the S&P MidCap 400 Index.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Health Care, and Consumer Discretionary. The sectors detracting the most from return of the underlying index for the period were Real Estate, Financials, and Utilities.

Enphase Energy, Inc., SolarEdge Technologies, Inc., and Etsy, Inc. contributed the most to performance of the underlying index for 2020. National Retail Properties, Inc., EPR Properties, and Alleghany Corp. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

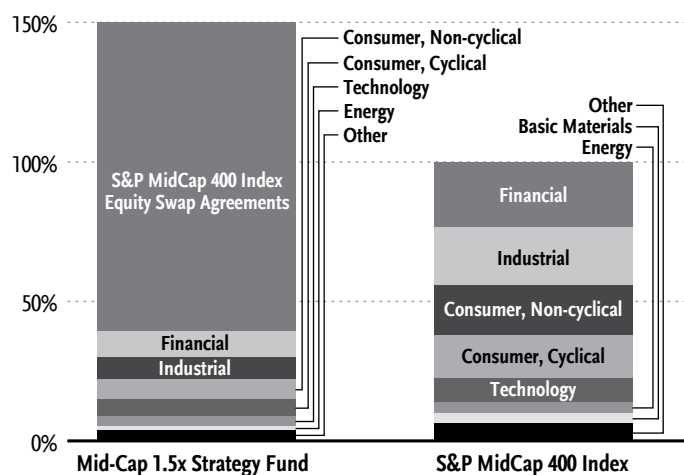

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: October 1, 2001

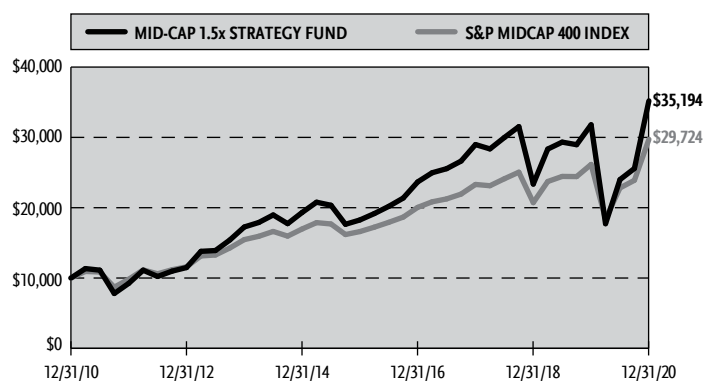

Ten Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	23.9%
Guggenheim Strategy Fund II	18.0%
Enphase Energy, Inc.	0.4%
Trimble, Inc.	0.3%
SolarEdge Technologies, Inc.	0.3%
Monolithic Power Systems, Inc.	0.3%
Caesars Entertainment, Inc.	0.3%
Fair Isaac Corp.	0.3%
Generac Holdings, Inc.	0.3%
Cognex Corp.	0.3%
Top Ten Total	44.4%

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

“Ten Largest Holdings” excludes any temporary cash or derivative investments.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Mid-Cap 1.5x Strategy Fund	10.69%	14.03%	13.41%
S&P MidCap 400 Index	13.66%	12.35%	11.51%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The S&P MidCap 400 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

** This derivative is reported as unrealized appreciation/depreciation at period end.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income
Mutual Funds

Net decrease in shares	(4,893)	(9,494)

* Capital share activity for the year ended December 31, 2020, has been restated to reflect a 1:10 reverse share split effective August 24, 2020 — See Note 11.

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019 ^d	Year Ended December 31, 2018 ^d	Year Ended December 31, 2017 ^d	Year Ended December 31, 2016 ^d
Per Share Data					
Net asset value, beginning of period	\$193.99	\$144.00	\$233.70	\$361.85	\$311.39
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.12)	1.10	1.30	.20	(1.00)
Net gain (loss) on investments (realized and unrealized)	12.09	50.79	(32.00)	58.15	88.66
Total from investment operations	11.97	51.89	(30.70)	58.35	87.66
Less distributions from:					
Net investment income	(.15)	(1.90)	(.60)	—	—
Net realized gains	(.55)	—	(58.40)	(186.50)	(37.20)
Total distributions	(.70)	(1.90)	(59.00)	(186.50)	(37.20)
Net asset value, end of period	\$205.26	\$193.99	\$144.00	\$233.70	\$361.85
Total Return^b	10.69%	36.11%	(19.40%)	22.44%	29.64%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$4,756	\$5,444	\$5,408	\$7,875	\$19,948
Ratios to average net assets:					
Net investment income (loss)	(0.47%)	0.60%	0.67%	0.07%	(0.30%)
Total expenses ^c	1.87%	1.87%	1.78%	1.76%	1.72%
Net expenses ^e	1.81%	1.80%	1.78%	1.76%	1.72%
Portfolio turnover rate	472%	274%	368%	403%	368%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Reverse share split — Per share amounts for the years presented through December 31, 2019 have been restated to reflect a 1:10 reverse share split effective August 24, 2020 — See Note 11.

^e Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

INVERSE MID-CAP STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is the inverse (opposite) of the performance of the S&P MidCap 400[®] Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the year ended December 31, 2020, Inverse Mid-Cap Strategy Fund returned -24.89%. Over the year, its benchmark, the S&P MidCap 400 Index, returned 13.66%. Inverse Mid-Cap Strategy Fund achieved a daily correlation of 99% to its benchmark of -100% of the daily price movement of the S&P MidCap 400 Index.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Health Care, and Consumer Discretionary. The sectors detracting the most from return of the underlying index for the period were Real Estate, Financials, and Utilities.

Enphase Energy, Inc., SolarEdge Technologies, Inc., and Etsy, Inc. contributed the most to performance of the underlying index for 2020. National Retail Properties, Inc., EPR Properties, and Alleghany Corp. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

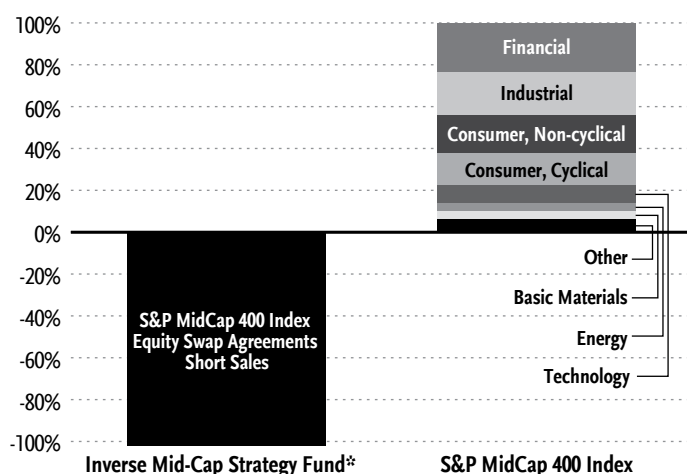

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: May 3, 2004

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

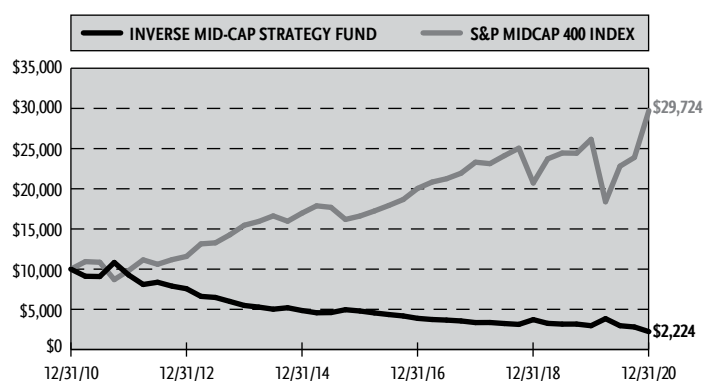

Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	26.3%
Guggenheim Ultra Short Duration Fund — Institutional Class	22.9%
Total	49.2%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Inverse Mid-Cap Strategy Fund	(24.89%)	(14.23%)	(13.96%)
S&P MidCap 400 Index	13.66%	12.35%	11.51%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The S&P MidCap 400 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

Investments in Securities (Liabilities)	Level 1 Quoted Prices	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Equity Index Swap Agreements**	\$ —	\$ 876	\$ —	\$ 876

** This derivative is reported as unrealized appreciation/depreciation at period end.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

Shares redeemed	(68,834)	(45,693)
Net decrease in shares	(1,342)	(4,109)

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^e
Per Share Data					
Net asset value, beginning of period	\$60.05	\$75.67	\$68.22	\$78.92	\$97.61
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.61)	.51	.35	(.16)	(.26)
Net gain (loss) on investments (realized and unrealized)	(14.22)	(15.87)	7.10 ^f	(10.54)	(18.43)
Total from investment operations	(14.83)	(15.36)	7.45	(10.70)	(18.69)
Less distributions from:					
Net investment income	(.54)	(.26)	—	—	—
Total distributions	(.54)	(.26)	—	—	—
Net asset value, end of period	\$44.68	\$60.05	\$75.67	\$68.22	\$78.92
Total Return^b	(24.89%)	(20.31%)	10.90%	(13.55%)	(19.13%)
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$137	\$265	\$645	\$178	\$380
Ratios to average net assets:					
Net investment income (loss)	(1.01%)	0.78%	0.51%	(0.22%)	(0.82%)
Total expenses ^c	1.88%	1.88%	1.77%	1.76%	1.71%
Net expenses ^d	1.83%	1.81%	1.77%	1.76%	1.71%
Portfolio turnover rate	281%	185%	404%	111%	565%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Reverse Share Split — Per share amounts for the year ended December 31, 2016, have been restated to reflect a 1:3 reverse share split effective December 1, 2016.

^f The amount shown for a share outstanding throughout the period does not agree with the aggregate net loss on investments for the year because of the sales and repurchases of fund shares in relation to fluctuating market value of the investments in the Fund.

RUSSELL 2000® 2x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is 200% of the performance of the Russell 2000® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Russell 2000® 2x Strategy Fund maintained a daily correlation of over 99% to its benchmark of 200% of the daily price movement of the Russell 2000 Index. Russell 2000® 2x Strategy Fund returned 17.21%, while the Russell 2000 Index returned 19.96% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Health Care, Information Technology, and Consumer Discretionary. The sectors detracting the most from return of the underlying index for the period were Financials, Real Estate, and Energy.

Teladoc Health, Inc., Plug Power, Inc., and MyoKardia, Inc. contributed the most to performance of the underlying index for 2020. Invesco Mortgage Capital, Inc., Blackstone Mortgage Trust, Inc. Class A, Intercept Pharmaceuticals, Inc. detracted the most from performance of the underlying index for the year.

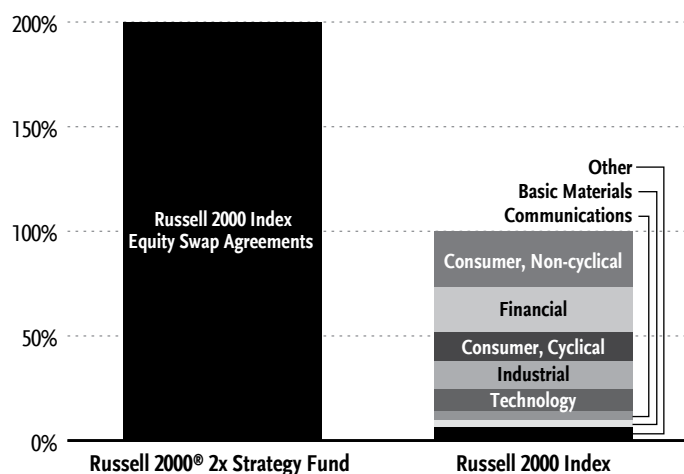

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)**Inception Date:** October 27, 2006

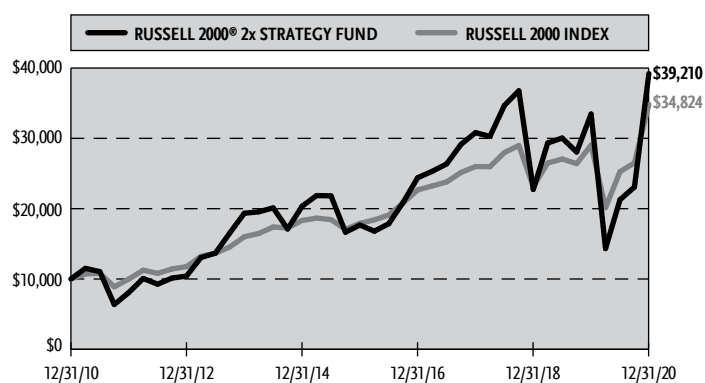

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	17.2%
Guggenheim Strategy Fund II	11.0%
Total	28.2%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}**Average Annual Returns^{*,†}**

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Russell 2000® 2x Strategy Fund	17.21%	17.28%	14.64%
Russell 2000 Index	19.96%	14.21%	13.29%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Russell 2000 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016
Per Share Data					
Net asset value, beginning of period	\$234.99	\$160.46	\$234.65	\$192.92	\$139.69
Income (loss) from investment operations:					
Net investment income (loss) ^a	(2.35)	1.27	.70	(.79)	(1.11)
Net gain (loss) on investments (realized and unrealized)	42.01	74.31	(54.40)	50.24	54.34
Total from investment operations	39.66	75.58	(53.70)	49.45	53.23
Less distributions from:					
Net investment income	(1.06)	(1.05)	—	—	—
Net realized gains	—	—	(20.49)	(7.72)	—
Total distributions	(1.06)	(1.05)	(20.49)	(7.72)	—
Net asset value, end of period	\$273.59	\$234.99	\$160.46	\$234.65	\$192.92
Total Return^b	17.21%	47.15%	(26.21%)	26.26%	38.11%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$16,514	\$3,875	\$1,690	\$7,040	\$5,747
Ratios to average net assets:					
Net investment income (loss)	(1.23%)	0.61%	0.28%	(0.38%)	(0.74%)
Total expenses ^c	1.92%	1.92%	1.82%	1.80%	1.77%
Net expenses ^d	1.86%	1.86%	1.82%	1.80%	1.77%
Portfolio turnover rate	463%	510%	625%	525%	1,125%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

RUSSELL 2000® 1.5x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that correlate, before fees and expenses, to the performance of a specific benchmark for small-cap securities on a daily basis. The Fund's current benchmark is 150% of the Russell 2000® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Russell 2000® 1.5x Strategy Fund maintained a daily correlation of over 99% to its benchmark of 150% of the daily price movement of the Russell 2000 Index. Russell 2000® 1.5x Strategy Fund returned 20.04%, while the Russell 2000 Index returned 19.96% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Health Care, Information Technology, and Consumer Discretionary. The sectors detracting the most from return of the underlying index for the period were Financials, Real Estate, and Energy.

Teladoc Health, Inc., Plug Power, Inc., and MyoKardia, Inc. contributed the most to performance of the underlying index for 2020. Invesco Mortgage Capital, Inc., Blackstone Mortgage Trust, Inc. Class A, Intercept Pharmaceuticals, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

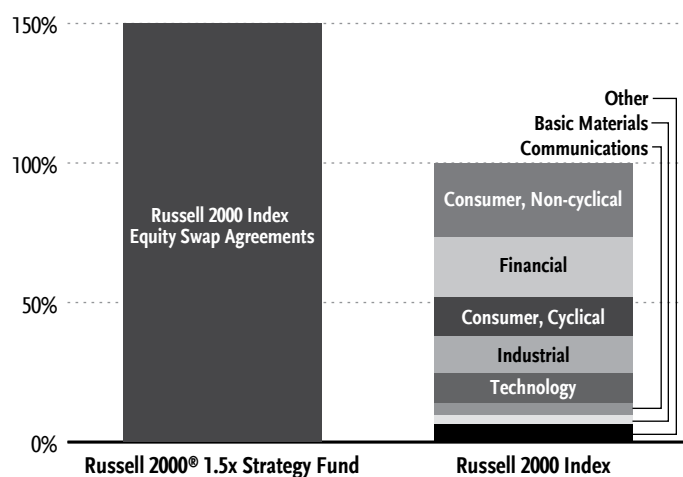

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Inception Date: October 1, 2001

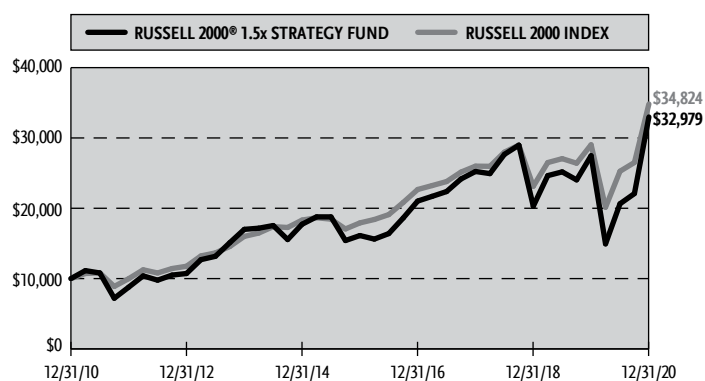

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	20.9%
Guggenheim Strategy Fund II	12.3%
Total	33.2%

“Largest Holdings” excludes any temporary cash or derivative investments.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Russell 2000® 1.5x Strategy Fund	20.04%	15.39%	12.67%
Russell 2000 Index	19.96%	14.21%	13.29%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Russell 2000 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

†† Value determined based on Level 2 inputs — See Note 4.

††† Value determined based on Level 3 inputs — See Note 4.

¹ Affiliated issuer.

² All or a portion of this security is pledged as equity index swap collateral at December 31, 2020.

³ Rate indicated is the effective yield at the time of purchase.

⁴ Variable rate security. Rate indicated is the rate effective at December 31, 2020. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

⁵ Repurchase Agreements — See Note 6.

LIBOR — London Interbank Offered Rate

plc — Public Limited Company

See Sector Classification in Other Information section.

RUSSELL 2000® 1.5x STRATEGY FUND**Affiliated Transactions**

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

INVERSE RUSSELL 2000® STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is the inverse (opposite) of the performance of the Russell 2000® Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Inverse Russell 2000® Strategy Fund maintained a daily correlation of over 99% to its benchmark of -100% of the daily price movement of the Russell 2000 Index. Inverse Russell 2000® Strategy Fund returned -30.81% while the Russell 2000 Index returned 19.96% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Health Care, Information Technology, and Consumer Discretionary. The sectors detracting the most from return of the underlying index for the period were Financials, Real Estate, and Energy.

Teladoc Health, Inc., Plug Power, Inc., and MyoKardia, Inc. contributed the most to performance of the underlying index for 2020. Invesco Mortgage Capital, Inc., Blackstone Mortgage Trust, Inc. Class A, Intercept Pharmaceuticals, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

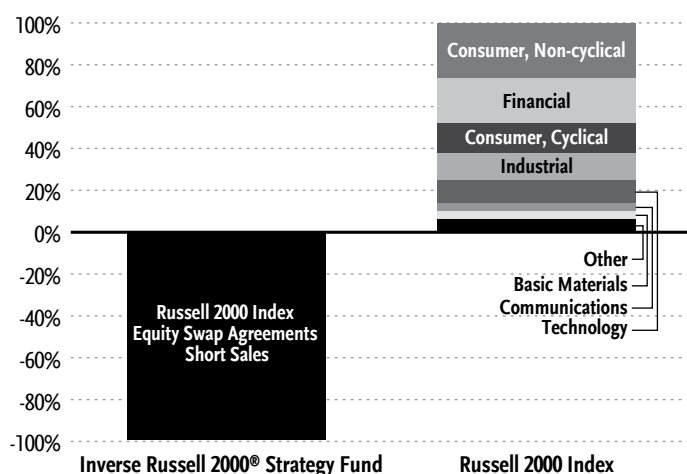

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: May 3, 2004

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

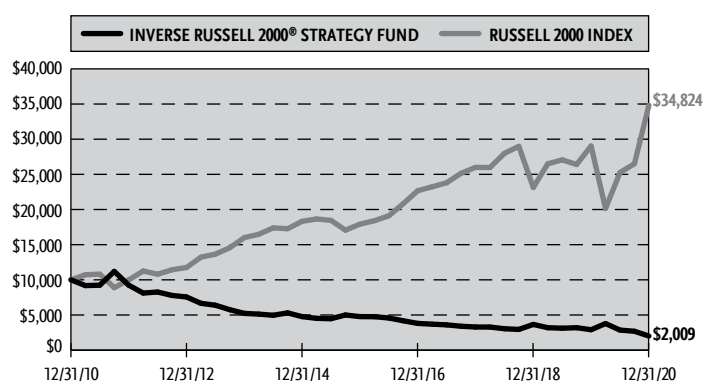

Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	20.5%
Guggenheim Strategy Fund II	19.6%
Total	40.1%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Inverse Russell 2000® Strategy Fund	(30.81%)	(15.89%)	(14.83%)
Russell 2000 Index	19.96%	14.21%	13.29%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Russell 2000 Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

Investments in Securities (Liabilities)	Level 1 Quoted Prices	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Equity Index Swap Agreements**	\$ —	\$ 1,678	\$ —	\$ 1,678

** This derivative is reported as unrealized appreciation/depreciation at period end.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^e
Per Share Data					
Net asset value, beginning of period	\$53.82	\$68.28	\$61.44	\$71.04	\$89.12
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.57)	.46	.31	(.51)	(.35)
Net gain (loss) on investments (realized and unrealized)	(15.89)	(14.50)	6.53	(9.09)	(17.73)
Total from investment operations	(16.46)	(14.04)	6.84	(9.60)	(18.08)
Less distributions from:					
Net investment income	(.40)	(.42)	—	—	—
Total distributions	(.40)	(.42)	—	—	—
Net asset value, end of period	\$36.96	\$53.82	\$68.28	\$61.44	\$71.04
Total Return^b	(30.81%)	(20.62%)	11.13%	(13.49%)	(20.28%)
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$374	\$612	\$3,782	\$923	\$12,310
Ratios to average net assets:					
Net investment income (loss)	(1.05%)	0.76%	0.51%	(0.74%)	(1.14%)
Total expenses ^c	1.93%	1.93%	1.83%	1.80%	1.75%
Net expenses ^d	1.87%	1.85%	1.82%	1.80%	1.75%
Portfolio turnover rate	275%	164%	287%	445%	1,160%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Reverse share split — Per share amounts for the year ended December 31, 2016, have been restated to reflect a 1:3 reverse share split effective December 1, 2016.

DOW 2x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is 200% of the performance of the Dow Jones Industrial Average[®] Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Dow 2x Strategy Fund maintained a daily correlation of over 99% to its benchmark of 200% of the daily price movement of the Dow Jones Industrial Average Index. Dow 2x Strategy Fund gained 1.73% while the Dow Jones Industrial Average Index returned 9.72% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Health Care. The sectors detracting the most from return of the underlying index for the period were Industrials and Energy.

Apple, Inc., Microsoft Corp., and Home Depot, Inc. contributed the most to performance of the underlying index for 2020. Boeing Co., Raytheon Technologies Corp., and salesforce.com, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

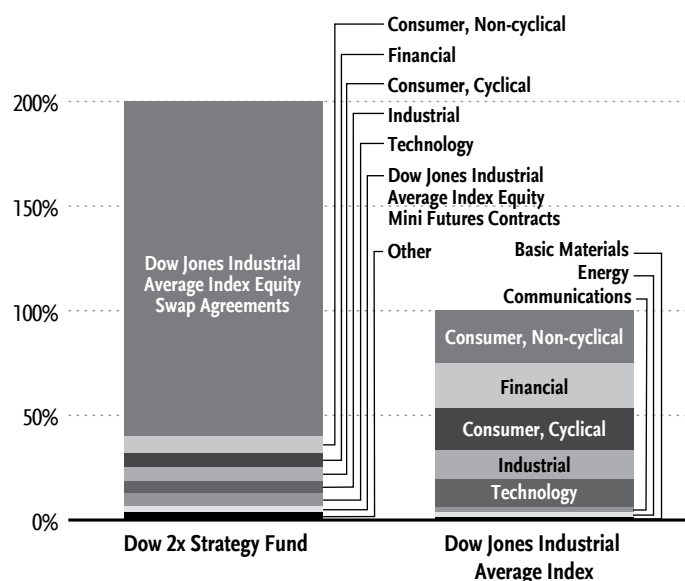

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: May 3, 2004

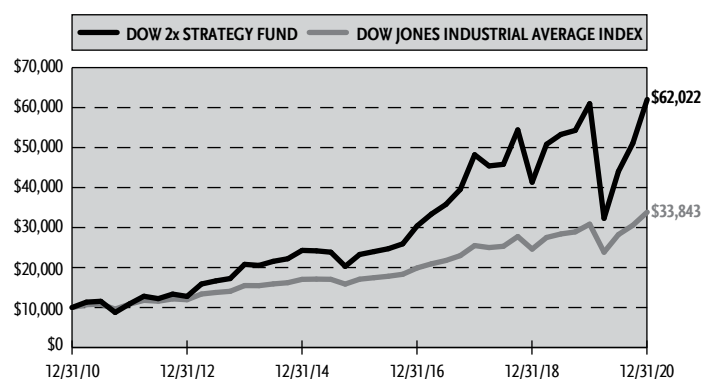

Ten Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	23.2%
Guggenheim Ultra Short Duration Fund — Institutional Class	23.1%
UnitedHealth Group, Inc.	2.8%
Home Depot, Inc.	2.1%
Goldman Sachs Group, Inc.	2.1%
Amgen, Inc.	1.8%
salesforce.com, Inc.	1.8%
Microsoft Corp.	1.8%
Visa, Inc. — Class A	1.7%
McDonald's Corp.	1.7%
Top Ten Total	62.1%

“Ten Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Dow 2x Strategy Fund	1.73%	21.67%	20.02%
Dow Jones Industrial Average Index	9.72%	14.65%	12.97%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Dow Jones Industrial Average Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

U.S. Treasury Bills	—	1,826,666	—	1,826,666
Repurchase Agreements	—	810,034	—	810,034
Equity Futures Contracts**	7,810	—	—	7,810
Equity Index Swap Agreements**	—	169,989	—	169,989
Total Assets	\$ 11,897,108	\$ 2,806,689	\$ —	\$ 14,703,797

** This derivative is reported as unrealized appreciation/depreciation at period end.

DOW 2x STRATEGY FUND**Affiliated Transactions**

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income
Mutual Funds								
Guggenheim Strategy Fund II	\$ 4,466,704	\$ 7,463,068	\$ (8,650,000)	\$ (41,894)	\$ 70,291	\$ 3,308,169	132,539	\$ 62,999
Guggenheim Ultra Short Duration Fund — Institutional Class	5,476,105	12,446,843	(14,650,000)	(7,301)	31,049	3,296,696	330,330	46,925
	\$ 9,942,809	\$ 19,909,911	\$ (23,300,000)	\$ (49,195)	\$ 101,340	\$ 6,604,865		\$ 109,924

Net increase (decrease) in shares	1,424	(32,453)

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016
Per Share Data					
Net asset value, beginning of period	\$163.38	\$111.50	\$171.44	\$110.08	\$84.22
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.53)	.91	1.01	.25	.06
Net gain (loss) on investments (realized and unrealized)	(.73)	51.94	(18.55)	63.43	25.80
Total from investment operations	(1.26)	52.85	(17.54)	63.68	25.86
Less distributions from:					
Net investment income	(.92)	(.97)	(.36)	(.06)	—
Net realized gains	(13.36)	—	(42.04)	(2.26)	—
Total distributions	(14.28)	(.97)	(42.40)	(2.32)	—
Net asset value, end of period	\$147.84	\$163.38	\$111.50	\$171.44	\$110.08
Total Return^b	1.73%	47.47%	(14.23%)	58.51%	30.72%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$14,253	\$15,519	\$14,209	\$23,319	\$16,510
Ratios to average net assets:					
Net investment income (loss)	(0.42%)	0.65%	0.65%	0.18%	0.07%
Total expenses ^c	1.91%	1.91%	1.80%	1.81%	1.77%
Net expenses ^d	1.85%	1.84%	1.80%	1.81%	1.77%
Portfolio turnover rate	607%	256%	362%	256%	361%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

INVERSE DOW 2x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that match, before fees and expenses, the performance of a specific benchmark on a daily basis. The Fund's current benchmark is 200% of the inverse (opposite) of the performance of the Dow Jones Industrial Average[®] Index (the "underlying index"). The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, Inverse Dow 2x Strategy Fund maintained a daily correlation of over 99% to its benchmark of -200% of the daily price movement of the Dow Jones Industrial Average Index. Inverse Dow 2x Strategy Fund returned -45.76% while the Dow Jones Industrial Average Index returned 9.72% over the same time period.

The sectors contributing the most to the performance of the underlying index for the period were Information Technology, Consumer Discretionary, and Health Care. The sectors detracting the most from return of the underlying index for the period were Industrials and Energy.

Apple, Inc., Microsoft Corp., and Home Depot, Inc. contributed the most to performance of the underlying index for 2020. Boeing Co., Raytheon Technologies Corp., and salesforce.com, Inc. detracted the most from performance of the underlying index for the year.

Derivatives in the Fund were used to help provide exposure to the composition of the benchmark in the highest efficient manner and to provide leverage and not for hedging purposes. Derivatives performed as expected.

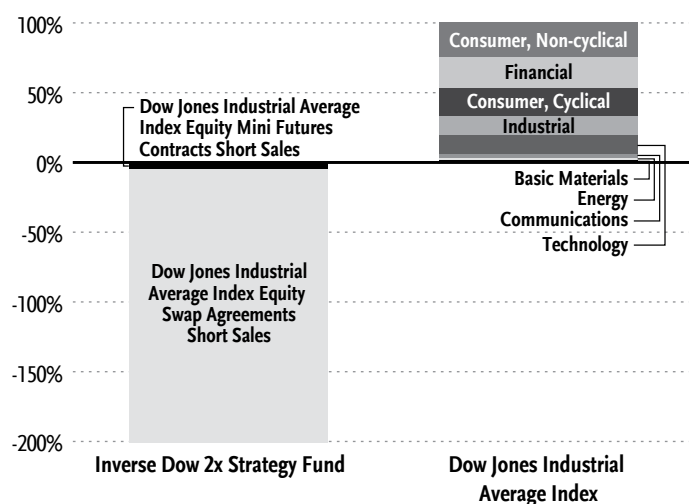

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amount and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the Fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: May 3, 2004

The Fund invests principally in derivative investments such as swap agreements and futures contracts.

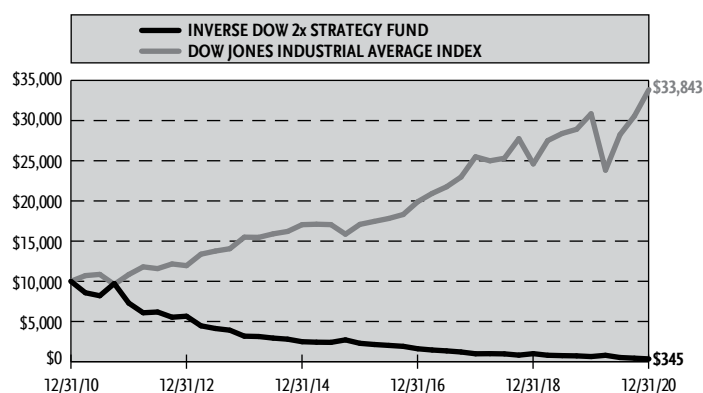

Largest Holdings (% of Total Net Assets)

Guggenheim Ultra Short Duration Fund — Institutional Class	27.4%
Guggenheim Strategy Fund II	13.2%
Total	40.6%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Inverse Dow 2x Strategy Fund	(45.76%)	(31.48%)	(28.59%)
Dow Jones Industrial Average Index	9.72%	14.65%	12.97%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Dow Jones Industrial Average Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Reverse share split — Per share amounts for the year ended December 31, 2016, have been restated to reflect a 1:3 reverse share split effective December 1, 2016.

^f Reverse share split — Per share amounts for the years presented through December 31, 2019 have been restated to reflect a 1:5 reverse share split effective August 24, 2020 — See Note 11.

GOVERNMENT LONG BOND 1.2x STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that correspond, before fees and expenses, to a benchmark for U.S. Government securities on a daily basis. The Fund's current benchmark is 120% of the daily price movement of the Long Treasury Bond. The Long Treasury Bond is the U.S. Treasury bond with the longest maturity, which is currently 30 years. The price movement of the Long Treasury Bond is based on the daily price change of the most recently issued Long Treasury Bond. The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, the Government Long Bond 1.2x Strategy Fund returned 21.96%.

The Price Movement of Long Treasury Bond was 17.44% for 2020.

The return of a comparison index, the Bloomberg Barclays Long U.S. Treasury Index, was 17.70%.

As prices of long-term Treasury bonds rose over 2020, their yields fell, from 2.39% to 1.65%. This performance masked considerable volatility, as investors fearful of global economic fallout from the coronavirus outbreak and oil price instability early in the year rushed into safe havens and sent prices of U.S. Treasuries skyrocketing. In early March, for the first time ever, the entire yield curve briefly slipped below 1%, and the yield on the 30-year Treasury yield fell below 1%.

Yields gradually crept back to end the year at their highest level since the pandemic. This was partly due to investors shifting from Treasuries to higher-yielding corners of the market, and to expectations that the government may step up issuance of long-term bonds in 2021 to support its vast spending programs, along with increases in economic growth and inflation. The yield curve steepened, with the spread between 2-year and 30-year Treasuries increasing from 82 basis points to 153 basis points during the year, as yields in shorter maturities saw the largest decline.

Derivatives in the Fund are used to provide additional exposure to composition of the benchmark in the most efficient manner possible and to provide leverage and not for hedging purposes. Derivatives performed as expected.

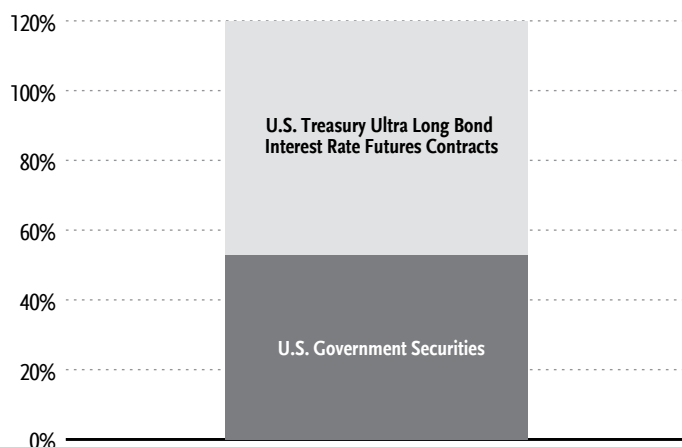

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amounts and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: August 18, 1997

The Fund invests principally in U.S. Government securities and in derivative investments such as futures contracts.

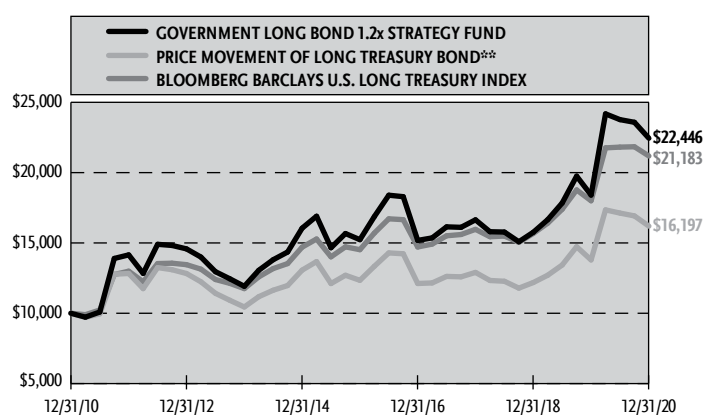

Largest Holdings (% of Total Net Assets)

U.S. Treasury Bonds	52.8%
Guggenheim Ultra Short Duration Fund — Institutional Class	10.6%
Guggenheim Strategy Fund II	9.2%
Total	72.6%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}

Average Annual Returns^{*,†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Government Long Bond 1.2x Strategy Fund	21.96%	8.07%	8.42%
Price Movement of Long Treasury Bond**	17.44%	5.59%	4.94%
Bloomberg Barclays U.S. Long Treasury Index	17.70%	7.85%	7.80%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Bloomberg Barclays U.S. Long Treasury Index and the Price Movement of Long Treasury Bond are unmanaged indices and, unlike the Fund, have no management fees or operating expenses to reduce their reported returns.

** Does not reflect any interest.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016
Per Share Data					
Net asset value, beginning of period	\$34.15	\$29.60	\$31.79	\$29.36	\$29.73
Income (loss) from investment operations:					
Net investment income (loss) ^a	.02	.39	.46	.38	.31
Net gain (loss) on investments (realized and unrealized)	7.48 ^e	4.55	(2.16)	2.43	(.38)
Total from investment operations	7.50	4.94	(1.70)	2.81	(.07)
Less distributions from:					
Net investment income	(.03)	(.39)	(.46)	(.38)	(.30)
Net realized gains	—	—	(.03)	—	—
Return of capital	(.03)	—	—	—	—
Total distributions	(.06)	(.39)	(.49)	(.38)	(.30)
Net asset value, end of period	\$41.59	\$34.15	\$29.60	\$31.79	\$29.36
Total Return^b	21.96%	16.78%	(5.32%)	9.64%	(0.33%)
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$15,472	\$10,353	\$13,436	\$11,617	\$17,124
Ratios to average net assets:					
Net investment income (loss)	0.06%	1.19%	1.58%	1.24%	0.93%
Total expenses ^c	1.43%	1.41%	1.32%	1.30%	1.25%
Net expenses ^d	1.40%	1.38%	1.32%	1.30%	1.25%
Portfolio turnover rate	1,887%	2,060%	2,292%	2,055%	1,386%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e The amount shown for a share outstanding throughout the period does not agree with the aggregate net loss on investments for the year because of the sales and repurchases of fund shares in relation to fluctuating market value of the investments of the Fund.

INVERSE GOVERNMENT LONG BOND STRATEGY FUND

OBJECTIVE: Seeks to provide total returns that inversely correlate, before fees and expenses, to the price movements of a benchmark for U.S. Treasury debt instruments or futures contract on a specified debt instrument on a daily basis. The Fund's current benchmark is the daily price movement of the Long Treasury Bond. The Long Treasury Bond is the most recently issued 30 Year U.S. Treasury Bond. The price movement of the Long Treasury Bond is based on the daily price change of the most recently issued Long Treasury Bond. The Fund does not seek to achieve its investment objective over a period of time greater than one day.

For the one-year period ended December 31, 2020, the Inverse Government Long Bond Strategy Fund returned -21.09%.

The Price Movement of Long Treasury Bond was 17.44% for 2020.

The return of a comparison index, the Bloomberg Barclays Long U.S. Treasury Index, was 17.70%.

As prices of long-term Treasury bonds rose over 2020, their yields fell, from 2.39% to 1.65%. This performance masked considerable volatility, as investors fearful of global economic fallout from the coronavirus outbreak and oil price instability early in the year rushed into safe havens and sent prices of U.S. Treasuries skyrocketing. In early March, for the first time ever, the entire yield curve briefly slipped below 1%, and the yield on the 30-year Treasury yield fell below 1%.

Yields gradually crept back to end the year at their highest level since the pandemic. This was partly due to investors shifting from Treasuries to higher-yielding corners of the market, and to expectations that the government may step up issuance of long-term bonds in 2021 to support its vast spending programs, along with increases in economic growth and inflation. The yield curve steepened, with the spread between 2-year and 30-year Treasuries increasing from 82 basis points to 153 basis points during the year, as yields in shorter maturities saw the largest decline.

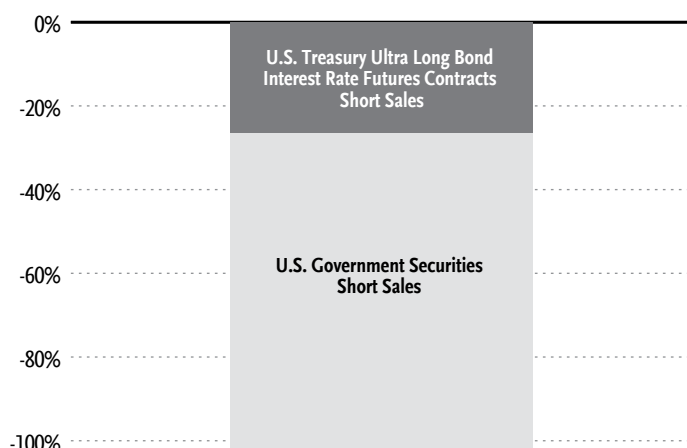

Derivatives in the Fund are used to provide additional exposure to composition of the benchmark in the most efficient manner possible and to provide leverage and not for hedging purposes. Derivatives performed as expected.

Due to the compounding of daily returns, leveraged and inverse funds' returns over periods other than one day will likely differ in amounts and possibly direction from the benchmark return for the same period. Investors should monitor their leveraged and inverse funds' holdings to ensure that they are consistent with their strategies, as frequently as daily.

The effects of compounding may cause the longer-term correlation of the fund to its benchmark to diminish. The apparent discrepancy between the leveraged and unleveraged indices is the result of compounding, which is described briefly on page 6 of this report.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)**Inception Date:** May 1, 2003

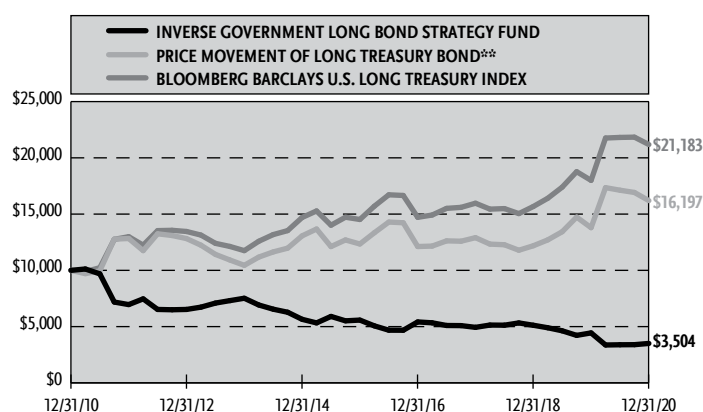

The Fund invests principally in short sales and derivative investments such as futures contracts.

Largest Holdings (% of Total Net Assets)

Guggenheim Strategy Fund II	19.8%
Guggenheim Ultra Short Duration Fund — Institutional Class	19.0%
Total	38.8%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{†}****Average Annual Returns^{**†}**

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
Inverse Government Long Bond Strategy Fund	(21.09%)	(8.88%)	(9.96%)
Price Movement of Long Treasury Bond ^{**}	17.44%	5.59%	4.94%
Bloomberg Barclays U.S. Long Treasury Index	17.70%	7.85%	7.80%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Bloomberg Barclays U.S. Long Treasury Index and the Price Movement of Long Treasury Bond are unmanaged indices and, unlike the Fund, have no management fees or operating expenses to reduce their reported returns.

** Does not reflect any interest.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^f
Per Share Data					
Net asset value, beginning of period	\$85.27	\$98.33	\$94.75	\$104.00	\$107.17
Income (loss) from investment operations:					
Net investment income (loss) ^a	(1.48)	.26	(.64)	(1.88)	(.87)
Net gain (loss) on investments (realized and unrealized)	(16.51)	(13.32)	4.22	(7.37)	(2.30)
Total from investment operations	(17.99)	(13.06)	3.58	(9.25)	(3.17)
Less distributions from:					
Net investment income	(.20)	—	—	—	—
Total distributions	(.20)	—	—	—	—
Net asset value, end of period	\$67.08	\$85.27	\$98.33	\$94.75	\$104.00
Total Return^b	(21.09%)	(13.28%)	3.79%	(8.89%)	(2.94%)
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$2,648	\$2,382	\$4,426	\$4,676	\$3,821
Ratios to average net assets:					
Net investment income (loss)	(2.23%)	0.29%	(0.63%)	(1.89%)	(2.59%)
Total expenses ^c	3.01%	3.58%	4.31%	4.00%	3.65%
Net expenses ^{d,e}	2.97%	3.49%	4.30%	4.00%	3.65%
Portfolio turnover rate	2,529%	966%	907%	2,300%	1,384%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Total expenses may include interest expense related to short sales. Excluding interest expense, the net expense ratios for the periods presented would be:

2020	2019	2018	2017	2016
1.83%	1.79%	1.75%	1.75%	1.72%

^f Reverse share split — Per share amounts for the year ended December 31, 2016, have been restated to reflect a 1:3 reverse share split effective December 1, 2016.

HIGH YIELD STRATEGY FUND

OBJECTIVE: Seeks to provide investment results that correlate, before fees and expenses, to the performance of the high yield bond market.

For the one-year period ended December 31, 2020, the High Yield Strategy returned -0.47%. For comparison, the Bloomberg Barclays U.S. Corporate High Yield Index returned 7.11% for the same period.

The Fund primarily invests in credit default swaps to gain exposure similar to the high yield bond market. Credit default swaps are instruments which allow for the full or partial transfer of third-party credit risk, with respect to a particular entity or entities, from one counterparty to the other. A buyer of credit default swaps is buying credit protection or mitigating credit risk. A seller of credit default swaps is selling credit protection or assuming credit risk. The Fund will normally be a seller of credit protection (assuming credit risk) as it seeks to gain exposure to the high yield bond market. In addition, the Fund may invest in bond futures for the purpose of managing duration risk. For cash management purposes, the Fund may invest in other fixed income securities and money market instruments.

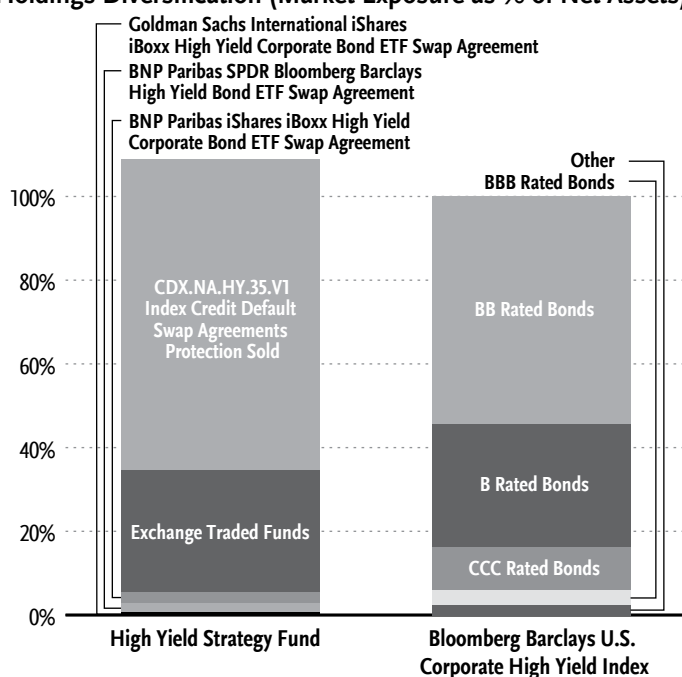

The high yield market had a benign start to the year, but rapidly changed with the onset of the Coronavirus in March. Lower-quality credit sold off and the new issue market was effectively shut for three weeks. Overall, the high yield market returned -12.7% in the first quarter and was the weakest quarter since fourth quarter of 2008 during the Global Financial Crisis. The Coronavirus outbreak dramatically halted large portions of the U.S. economy to which the U.S. Federal Reserve responded quickly. The Federal Open Market Committee cut rates by 125 basis points and implemented a series of liquidity programs to support commercial loans, mortgages, corporations, and municipalities. The Fed also agreed to buy bonds from recent fallen angels, adding a strong technical tailwind to the high yield market.

The combination of the monetary and fiscal support helped to jumpstart the high yield market. The new issue market reopened, and issuance has remained robust since. The second and third quarters of 2020 alone saw \$276 billion in issuance, which nearly equaled full-year 2019 levels. Over the period, the market experienced sizeable demand, with high-yield fund flows surging \$53 billion during the last three quarters of the year. Overall, the market was up 10.2%, 4.6%, and 6.5% in the year's final three quarters, respectively. With the market rally, most sectors exhibited positive performance for the full year period even with the selloff in the first quarter. At the end of the year, the average high yield corporate bond yield was 4.18% which compares favorably to considerably lower global yields.

Derivatives in the Fund are used to help provide exposure to the composition of the benchmark in the most efficient manner possible and not for hedging purposes. Derivatives performed as expected.

The Fund may invest in certain of the underlying series of Guggenheim Funds Trust and Guggenheim Strategy Funds Trust, including Guggenheim Ultra Short Duration, Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short-Term Investment Vehicles"), each of which are open-end management investment companies managed by Guggenheim Investments. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by Guggenheim Investments and/or its affiliates, and are not available to the public, with the exception of Guggenheim Ultra Short Duration Fund, which is available to the public. Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III do not charge an investment management fee. Guggenheim Ultra Short Duration Fund charges an investment management fee, but the Fund's adviser has agreed to waive fees to the extent necessary to offset the proportionate share of any management fee paid by the Fund with respect to its investment in such affiliated fund. For the one-year period ended December 31, 2020, investment in the Short-Term Investment Vehicles benefited Fund performance.

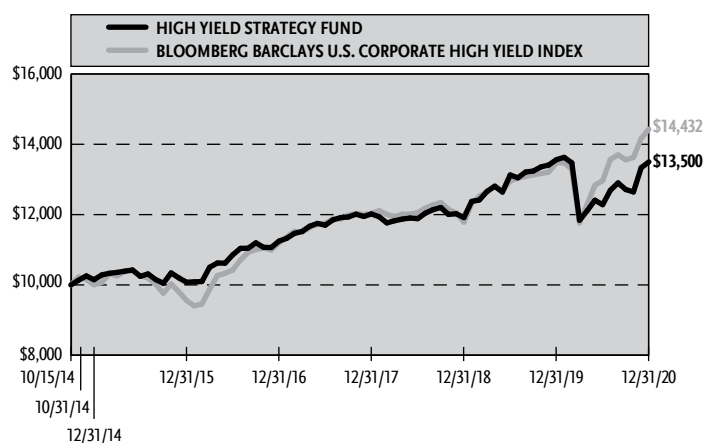

Performance displayed represents past performance, which is no guarantee of future results.

Holdings Diversification (Market Exposure as % of Net Assets)**Inception Date:** October 15, 2014**Largest Holdings (% of Total Net Assets)**

Guggenheim Strategy Fund II	20.9%
Guggenheim Ultra Short Duration Fund — Institutional Class	20.8%
iShares iBoxx High Yield Corporate Bond ETF	14.8%
SPDR Bloomberg Barclays High Yield Bond ETF	14.4%
Total	70.9%

“Largest Holdings” excludes any temporary cash or derivative investments.

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments, investments in Guggenheim Strategy Funds Trust mutual funds, or investments in Guggenheim Ultra Short Duration Fund. Investments in those Funds do not provide “market exposure” to meet the Fund’s investment objective, but will significantly increase the portfolio’s exposure to certain other asset categories (and their associated risks), which may cause the Fund to deviate from its principal investment strategy, including: (i) high yield, high risk debt securities rated below the top four long-term rating categories by a nationally recognized statistical rating organization (also known as “junk bonds”); (ii) securities issued by the U.S. government or its agencies and instrumentalities; (iii) CLOs and similar investments; and (iv) other short-term fixed income securities.

Cumulative Fund Performance^{*,†}**Average Annual Returns^{*,†}**

Periods Ended December 31, 2020

	1 Year	5 Year	Since Inception (10/15/14)
High Yield Strategy Fund	(0.47%)	6.03%	4.95%
Bloomberg Barclays U.S. Corporate High Yield Index	7.11%	8.59%	6.09%

* The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes. The Bloomberg Barclays U.S. Corporate High Yield Index is an unmanaged index and, unlike the Fund, has no management fees or operating expenses to reduce its reported return.

† Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

HIGH YIELD STRATEGY FUND**Affiliated Transactions**

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under Guggenheim Investments ("GI"), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

The Fund may invest in certain of the underlying series of Guggenheim Strategy Funds Trust, including Guggenheim Strategy Fund II, Guggenheim Strategy Fund III, and Guggenheim Variable Insurance Strategy Fund III, (collectively, the "Short Term Investment Vehicles"), each of which are open-end management investment companies managed by GI. The Short Term Investment Vehicles, which launched on March 11, 2014, are offered as short term investment options only to mutual funds, trusts, and other accounts managed by GI and/or its affiliates, and are not available to the public. The Short Term Investment Vehicles pay no investment management fees. The Short Term Investment Vehicles' annual report on Form N-CSR dated September 30, 2020, is available publicly or upon request. This information is available from the EDGAR database on the SEC's website at <https://www.sec.gov/Archives/edgar/data/1601445/000182126820000133/gug81042-ncsr.htm>.

Transactions during the year ended December 31, 2020, in which the company is an affiliated issuer, were as follows:

Security Name	Value 12/31/19	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 12/31/20	Shares 12/31/20	Investment Income

Net increase in shares	12,535	68,580

FINANCIAL HIGHLIGHTS

This table is presented to show selected data for a share outstanding throughout each period and to assist shareholders in evaluating a Fund's performance for the periods presented.

	Year Ended December 31, 2020	Year Ended December 31, 2019	Year Ended December 31, 2018	Year Ended December 31, 2017	Year Ended December 31, 2016 ^e
Per Share Data					
Net asset value, beginning of period	\$86.60	\$77.95	\$83.54	\$81.50	\$75.17
Income (loss) from investment operations:					
Net investment income (loss) ^a	(.20)	.64	.71	.29	.14
Net gain (loss) on investments (realized and unrealized)	(.60)	10.08	(1.39)	5.23	6.99
Total from investment operations	(.80)	10.72	(.68)	5.52	7.13
Less distributions from:					
Net investment income	(4.92)	(2.07)	(4.91)	(3.48)	(.80)
Net realized gains	(.39)	—	—	—	—
Total distributions	(5.31)	(2.07)	(4.91)	(3.48)	(.80)
Net asset value, end of period	\$80.49	\$86.60	\$77.95	\$83.54	\$81.50
Total Return^b	(0.47%)	13.84%	(0.87%)	6.87%	11.62%
Ratios/Supplemental Data					
Net assets, end of period (in thousands)	\$10,775	\$10,508	\$4,113	\$6,524	\$7,390
Ratios to average net assets:					
Net investment income (loss)	(0.25%)	0.76%	0.88%	0.35%	0.51%
Total expenses ^c	1.72%	1.72%	1.62%	1.60%	1.56%
Net expenses ^d	1.67%	1.65%	1.61%	1.60%	1.56%
Portfolio turnover rate	460%	299%	116%	124%	255%

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^c Does not include expenses of the underlying funds in which the Fund invests.

^d Net expense information reflects the expense ratios after expense waivers and reimbursements, as applicable.

^e Reverse share split — Per share amounts for the year ended December 31, 2016 have been restated to reflect a 1:3 reverse share split effective December 1, 2016.

U.S. GOVERNMENT MONEY MARKET FUND

OBJECTIVE: Seeks to provide security of principal, high current income, and liquidity.

For the year ended December 31, 2020, U.S. Government Money Market Fund returned 0.07%.

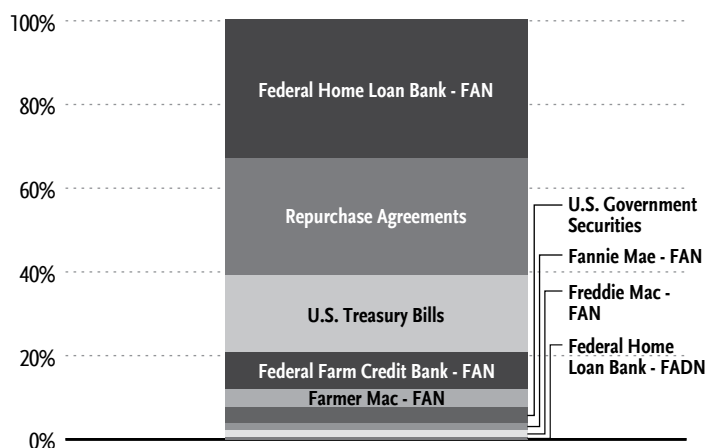

The U.S. Federal Reserve (“Fed”) reduced interest rates with two unscheduled actions in 2020 in quick succession. The first 50 basis point cut occurred on March 3 with the second 100 basis point cut happening on March 15. The Fed’s target rate at the start of the year was in the 1.50% to 1.75% range and ended the year in the 0.00% to 0.25% range. Along with the decrease in interest rates, the Fund’s yield declined as well.

The U.S. economy was hit hard due to the COVID-19 pandemic, with 2nd quarter GDP falling 31%. Most economic indicators improved over the second half of the year as March and April lockdowns were lifted. However, most indicators remain well below early 2020 levels. Additional government spending is required to assist people and small businesses affected by the pandemic. Prior to COVID-19, the Fed had indicated a willingness to tolerate higher inflation after a decade of undershooting their 2% target level. This new policy is described as “average inflation targeting.” The most recent dot plot in December 2020 indicated that no members of the Fed expected to raise interest rates in 2021.

Performance displayed represents past performance, which is no guarantee of future results.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund’s sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

Holdings Diversification (Market Exposure as % of Net Assets)

Inception Date: May 7, 1997

The Fund invests principally in money market instruments issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities and enters into repurchase agreements fully collateralized by U.S. government securities.

Average Annual Returns^{*†}

Periods Ended December 31, 2020

	1 Year	5 Year	10 Year
U.S. Government Money Market Fund	0.07%	0.31%	0.15%

“Holdings Diversification (Market Exposure as % of Net Assets)” excludes any temporary cash investments.

FADN – Federal Agency Discount Note

FAN – Federal Agency Note

^{*} The performance data above represents past performance that is not predictive of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Returns are historical and include changes in principal and reinvested dividends and capital gains and do not reflect the effect of taxes.

[†] Performance figures do not reflect fees and expenses associated with an investment in variable insurance products. If returns had taken into account these fees and expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^{††} Value determined based on Level 2 inputs — See Note 4.

¹ Variable rate security. Rate indicated is the rate effective at December 31, 2020. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

² Rate indicated is the effective yield at the time of purchase.

³ Repurchase Agreements — See Note 6.
LIBOR — London Interbank Offered Rate

See Sector Classification in Other Information section.

U.S. GOVERNMENT MONEY MARKET FUND

Ratios to average net assets:					
Net investment income (loss)	0.05%	0.88%	0.57%	— ^e	— ^e
Total expenses	1.42%	1.42%	1.32%	1.31%	1.25%
Net expenses ^d	0.41%	1.42%	1.32%	0.96%	0.40%
Portfolio turnover rate	—	—	—	—	—

^a Net investment income (loss) per share was computed using average shares outstanding throughout the period.

^b Less than \$0.01 per share.

^c Total return does not take into account any of the expenses associated with an investment in variable insurance products. If total return had taken into account these expenses, performance would have been lower. Shares of a series of Rydex Variable Trust are available only through the purchase of such products.

^d Net expense information reflects the expense ratio after expense waivers, as applicable.

^e Less than 0.01%.

Note 1 – Organization and Significant Accounting Policies

Organization

The Rydex Variable Trust (the “Trust”), a Delaware statutory trust, is registered with the SEC under the Investment Company Act of 1940 (“1940 Act”), as an open-ended investment company of the series type. Each series, in effect, is representing a separate fund (each, a “Fund”). The Trust may issue an unlimited number of authorized shares. The Trust accounts for the assets of each Fund separately. At December 31, 2020, the Trust consisted of forty-nine funds. The Trust offers shares of the funds to insurance companies for their variable annuity and variable life insurance contracts.

This report covers the following funds (collectively, the “Funds”):

Fund Name	Investment Company Type
Nova Fund	Non-diversified
Inverse S&P 500® Strategy Fund	Non-diversified
NASDAQ-100® Fund	Non-diversified

The Funds are designed and operated to accommodate frequent trading by shareholders and, unlike most mutual funds, offer unlimited exchange privileges with no minimum holding periods or transactions fees, which may cause the Funds to experience high portfolio turnover.

Security Investors, LLC, which operates under the name Guggenheim Investments (“GI”), provides advisory services. Guggenheim Funds Distributors, LLC (“GFD”) acts as principal underwriter for the Trust. GI and GFD are affiliated entities.

Significant Accounting Policies

The Funds operate as investment companies and, accordingly, follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) and are consistently followed by the Trust. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. All time references are based on Eastern Time.

The net asset value per share (“NAV”) of a fund is calculated by dividing the market value of a fund’s securities and other assets, less all liabilities, by the number of outstanding shares of that fund.

(a) Valuation of Investments

The Board of Trustees of the Funds (the “Board”) has adopted policies and procedures for the valuation of the Funds’ investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, fund administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Funds’ securities and/or other assets.

Valuations of the Funds’ securities and other assets are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed, to review the valuation of all assets which have been fair valued for reasonableness. The Funds’ officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used and valuations provided by the pricing services.

If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Equity securities listed or traded on a recognized U.S. securities exchange or the National Association of Securities Dealers Automated Quotations (“NASDAQ”) National Market System shall generally be valued on the basis of the last sale price on the primary U.S. exchange or market on which the security is listed or traded; provided, however, that securities listed on NASDAQ will be valued at the NASDAQ Official Closing Price, which may not necessarily represent the last sale price. If there is no sale on the valuation date, exchange-traded U.S. equity securities will be valued on the basis of the last bid price.

Open-end investment companies are valued at their NAV as of the close of business, on the valuation date. Exchange-traded funds and closed-end investment companies are valued at the last quoted sale price.

The U.S. Government Money Market Fund values debt securities at amortized cost pursuant to Rule 2a-7 of the 1940 Act, which approximates market value.

With the exception of the U.S. Government Money Market Fund, U.S. government securities are valued by independent pricing services, the last traded fill price, or at the reported bid price at the close of business.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker-dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition are valued at amortized cost, provided such amount approximates market value.

Repurchase agreements are generally valued at amortized cost, provided such amounts approximate market value.

The value of futures contracts is accounted for using the unrealized appreciation or depreciation on the contracts that is determined by marking the contracts to their current realized settlement prices. Financial futures contracts are valued at the 4:00 p.m. price on the valuation date. In the event that the exchange for a specific futures contract closes earlier than 4:00 p.m., the futures contract is valued at the official settlement price of the exchange. However, the underlying securities from which the futures contract value is derived are monitored until 4:00 p.m. to determine if fair valuation would provide a more accurate valuation.

The values of swap agreements entered into by a fund are accounted for using the unrealized appreciation or depreciation on the agreements that are determined by marking the agreements to the last quoted value of the index or other underlying position that the swaps pertain to at the close of the New York Stock Exchange ("NYSE").

Investments for which market quotations are not readily available are fair-valued as determined in good faith by GI, subject to review and approval by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security's (or asset's or liability's) "fair value". Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to market prices; sale prices; broker quotes; and models which derive prices based on inputs such as prices of

securities with comparable maturities and characteristics, or based on inputs such as anticipated cash flows or collateral, spread over U.S. Treasury securities, and other information analysis. In connection with futures contracts and other derivative investments, such factors may include obtaining information as to how (a) these contracts and other derivative investments trade in the futures or other derivative markets, respectively, and (b) the securities underlying these contracts and other derivative investments trade in the cash market.

(b) U.S. Government and Agency Obligations

Certain U.S. Government and Agency Obligations are traded on a discount basis; the interest rates shown on the Schedules of Investments reflect the effective rates paid at the time of purchase by the Funds. Other securities bear interest at the rates shown, payable at fixed dates through maturity.

(c) Short Sales

When a Fund engages in a short sale of a security, an amount equal to the proceeds is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the market value of the short sale. The Fund maintains a segregated account of cash and/or securities as collateral for short sales.

Fees, if any, paid to brokers to borrow securities in connection with short sales are recorded as interest expense. In addition, the Fund must pay out the dividend rate of the equity or coupon rate of the obligation to the lender and record this as an expense. Short dividend or interest expense is a cost associated with the investment objective of short sales transactions, rather than an operational cost associated with the day-to-day management of any mutual fund. The Fund may also receive rebate income from the broker resulting from the investment of the proceeds from securities sold short.

(d) Futures Contracts

Upon entering into a futures contract, a Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

(e) Swap Agreements

Swap agreements are marked-to-market daily and the change, if any, is recorded as unrealized appreciation or depreciation. Payments received or made as a result of an agreement or termination of an agreement are recognized as realized gains or losses.

Upon entering into certain centrally-cleared swap transactions, a Fund is required to deposit with its clearing broker an amount of cash or securities as an initial margin. Subsequent variation margin receipts or payments are received or made by the Fund depending on fluctuations in the fair value of the reference entity and are recorded by the Fund as unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Upfront payments received or made by a Fund on credit default swap agreements and interest rate swap agreements are amortized over the expected life of the agreement. Periodic payments received or paid by a Fund are recorded as realized gains or losses. Payments received or made as a result of a credit event or termination of the contract are recognized, net of a proportional amount of the upfront payment, as realized gains or losses.

(f) Foreign Taxes

The Funds may be subject to foreign taxes (a portion of which may be reclaimable) on income, stock dividends, capital gains on investments or certain foreign currency transactions. All foreign taxes are recorded in accordance with the applicable foreign tax regulations and rates that exist in the foreign jurisdictions in which the Funds invest. These foreign taxes, if any, are paid by the Funds and reflected in their Statements of Operations as follows: foreign taxes withheld at source are presented as a reduction of income and foreign taxes on capital gains from sales of investments are included with the net realized gain (loss) on investments. Foreign taxes payable or deferred as of December 31, 2020, if any, are disclosed in the Funds' Statements of Assets and Liabilities.

(g) Security Transactions

Security transactions are recorded on the trade date for financial reporting purposes. Realized gains and losses from securities transactions are recorded using the identified cost basis. Proceeds from lawsuits related to investment holdings are recorded as a reduction to cost if the securities are still held and as realized gains if no longer held in the respective Fund. Dividend income is recorded on the ex-dividend date, net of applicable taxes withheld by foreign countries, if any. Taxable non-cash dividends are recorded as dividend income. Interest income, including amortization of premiums and accretion of discounts, is accrued on a daily basis. Dividend income from Real Estate Investment Trusts ("REITs") is recorded based on the income included in the distributions received from the REIT investments using published REIT classifications, including some management estimates when actual amounts are not available. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to realized gains. The actual amounts of income, return of capital, and realized gains are only determined by each REIT after its fiscal year-end, and may differ from the estimated amounts.

(h) Distributions

Dividends from net investment income are declared daily in the Government Long Bond 1.2x Strategy Fund and the U.S. Government Money Market Fund. Distributions of net investment income in the remaining Funds and net realized gains, if any, are declared and paid at least annually. Normally, all distributions of a Fund will automatically be reinvested without charge in additional shares of the same Fund. Distributions are recorded on the ex-dividend date and are determined in accordance with U.S. federal income tax regulations which may differ from U.S. GAAP.

(i) Cash

The Funds may leave cash overnight in their cash account with the custodian. Periodically, a Fund may have cash due to the custodian bank as an overdraft balance. A fee is incurred on this overdraft, calculated by multiplying the overdraft by a rate based on the federal funds rate, which was 0.09% at December 31, 2020.

(j) Indemnifications

Under the Funds' organizational documents, the Trustees and Officers are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, throughout the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds and/or their affiliates that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

Note 2 – Financial Instruments and Derivatives

As part of their investment strategy, the Funds utilize short sales and a variety of derivative instruments. These investments involve, to varying degrees, elements of market risk and risks in excess of amounts recognized on the Statements of Assets and Liabilities. Valuation and accounting treatment of these instruments can be found under Significant Accounting Policies in Note 1 of these Notes to Financial Statements.

Short Sales

A short sale is a transaction in which a Fund sells a security it does not own. If the security sold short decreases in price between the time the Fund sells the security and closes its short position, the Fund will realize a gain on the transaction. Conversely, if the security increases in price during the period, the Fund will realize a loss on the transaction. The risk of such price increases is the principal risk of engaging in short sales.

Derivatives

Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to increase investment flexibility (including to maintain cash reserves while maintaining exposure to certain other assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. Derivative instruments may also be used to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. U.S. GAAP requires disclosures to enable investors to better understand how and why a Fund uses derivative instruments, how these derivative instruments are accounted for and their effects on the Fund's financial position and results of operations.

The Funds may utilize derivatives for the following purposes:

Duration: the use of an instrument to manage the interest rate risk of a portfolio.

Index Exposure: the use of an instrument to obtain exposure to a listed or other type of index.

Leverage: gaining total exposure to equities or other assets on the long and short sides at greater than 100% of invested capital.

Liquidity: the ability to buy or sell exposure with little price/market impact.

For any Fund whose investment strategy consistently involves applying leverage, the value of the Fund's shares will tend to increase or decrease more than the value of any increase or decrease in the underlying index or other asset. In addition, because an investment in derivative instruments generally requires a small investment relative to the amount of investment exposure assumed, an opportunity for increased net income is created; but, at the same time, leverage risk will increase. The Fund's use of leverage, through borrowings or instruments such as derivatives, may cause the Fund to be more volatile and riskier than if they had not been leveraged.

Futures Contracts

A futures contract is an agreement to purchase (long) or sell (short) an agreed amount of securities or other instruments at a set price for delivery at a future date. There are significant risks associated with a Fund's use of futures contracts, including (i) there may be an imperfect or no correlation between the changes in market value of the underlying asset and the prices of futures contracts; (ii) there may not be a liquid secondary market for a futures contract; (iii) trading restrictions or limitations may be imposed by an exchange; and (iv) government regulations may restrict trading in futures contracts. When investing in futures, there is minimal counterparty credit risk to a Fund because futures are exchange-traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees against default. Cash deposits are shown as segregated cash with broker on the Statements of Assets and Liabilities; securities held as collateral are noted on the Schedules of Investments.

The following table represents the Funds' use and volume of futures on a monthly basis:

Fund	Use	Average Notional Amount	
		Long	Short

Swap Agreements

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. When utilizing over-the-counter (“OTC”) swaps, a fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty or if the underlying asset declines in value. Certain standardized swaps are subject to mandatory central clearing and are executed on a multi-lateral or other trade facility platform, such as a registered exchange. There is limited counterparty credit risk with respect to centrally-cleared swaps as the transaction is facilitated through a central clearinghouse, much like exchange-traded futures contracts. For a fund utilizing centrally-cleared swaps, the exchange bears the risk of loss resulting from a counterparty not being able to pay. There is no guarantee that a fund or an underlying fund could eliminate its exposure under an outstanding swap agreement by entering into an offsetting swap agreement with the same or another party.

Total return swaps involve commitments where single or multiple cash flows are exchanged based on the price of an underlying reference asset (such as an index) for a fixed or variable interest rate. Total return swaps will usually be computed based on the current value of the reference asset as of the close of regular trading on the NYSE or other exchange, with the swap value being adjusted to include dividends accrued, financing charges and/or interest associated with the swap agreement. When utilizing total return swaps, a fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty or if the underlying reference asset declines in value.

The following table represents the Funds’ use and volume of total return swaps on a monthly basis:

Fund	Use	Average Notional Amount	
		Long	Short
Nova Fund	Index exposure, Leverage, Liquidity	\$ 28,964,488	\$ —

Credit default swaps are instruments which allow for the full or partial transfer of third party credit risk, with respect to a particular entity or entities, from one counterparty to the other. A fund enters into credit default swaps as a “seller” or “buyer” of protection primarily to gain or reduce exposure to the investment grade and/or high yield bond market. A seller of credit default swaps is selling credit protection or assuming credit risk with respect to the underlying entity or entities. The buyer in a credit default swap is obligated to pay the seller a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a credit event occurs, as defined under the terms of the swap agreement, the seller will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. The notional amount reflects the maximum potential amount the seller of credit protection could be required to pay to the buyer if a credit event occurs. The seller of protection receives periodic premium payments from the buyer and may also receive or pay an upfront premium adjustment to the stated periodic payments. In the event a credit default occurs on a credit default swap referencing an index, a factor adjustment will take place and the buyer of protection will receive a payment reflecting the par less the default recovery rate of the defaulted index component based on its weighting in the index. If no default occurs, the counterparty will pay the stream of payments and have no further obligations to the fund selling the credit protection. For a fund utilizing centrally cleared credit default swaps, the exchange bears the risk of loss resulting from a counterparty not being able to pay. For OTC credit default swaps, a fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty, or in the case of a credit default swap in which a fund is selling credit protection, the default of a third party issuer.

NOTES TO FINANCIAL STATEMENTS (continued)

The quoted market prices and resulting market values for credit default swap agreements on securities and credit indices serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative had the notional amount of the swap agreement been closed/sold as of the period end. Increasing market values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The following table represents the Funds' use and volume of credit default swaps on a monthly basis:

Fund	Use	Average Notional Amount	
		Protection Sold	Protection Purchased
High Yield Strategy Fund	Duration, Index exposure, Liquidity	\$ —	\$ 4,254,958

Derivative Investment Holdings Categorized by Risk Exposure

The following is a summary of the location of derivative investments on the Funds' Statements of Assets and Liabilities as of December 31, 2020:

Derivative Investment Type	Asset Derivatives	Liability Derivatives
Equity/Interest rate contracts	Variation margin on futures contracts	Variation margin on futures contracts
Equity/Credit contracts	Unrealized appreciation on OTC swap agreements	Unrealized depreciation on OTC swap agreements
Credit contracts	Variation margin on credit default swap agreements	
	Unamortized upfront premiums paid on credit default swap agreements

In conjunction with short sales and the use of derivative instruments, the Funds are required to maintain collateral in various forms. Depending on the financial instrument utilized and the broker involved, the Funds use margin deposits at the broker, cash and/or securities segregated at the custodian bank, discount notes or repurchase agreements allocated to the Funds as collateral.

The Trust has established counterparty credit guidelines and enters into transactions only with financial institutions of investment grade or better. The Trust monitors the counterparty credit risk.

Note 3 – Offsetting

In the normal course of business, the Funds enter into transactions subject to enforceable master netting arrangements or other similar arrangements. Generally, the right to offset in those agreements allows the Funds to counteract the exposure to a specific counterparty with collateral received from or delivered to that counterparty based on the terms of the arrangements. These arrangements provide for the right to liquidate upon the occurrence of an event of default, credit event upon merger or additional termination event.

In order to better define their contractual rights and to secure rights that will help the Funds mitigate their counterparty risk, the Funds may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement with their derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a fund and a counterparty that governs OTC derivatives, including foreign exchange contracts, and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark-to-market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Funds and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Funds and cash collateral received from the counterparty, if any, are reported separately on the Statements of Assets and Liabilities as segregated cash with broker/receivable for variation margin, or payable for swap settlement/variation margin. Cash and/or securities pledged or received as collateral by the Funds in connection with an OTC derivative subject to an ISDA Master Agreement generally may not be invested, sold or rehypothecated by the counterparty or the Funds, as applicable, absent an event of default under such agreement, in which case such collateral generally may be applied towards obligations due to and payable by such counterparty or the Funds, as applicable. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold (e.g., \$300,000) before a transfer is required to be made. To the extent amounts due to the Funds from their counterparties are not fully collateralized, contractually or otherwise, the Funds bear the risk of loss from counterparty nonperformance. The Funds attempt to mitigate counterparty risk by only entering into agreements with counterparties that they believe to be of good standing and by monitoring the financial stability of those counterparties.

NOTES TO FINANCIAL STATEMENTS (continued)

For financial reporting purposes, the Funds do not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Assets and Liabilities.

The following tables present derivative financial instruments and secured financing transactions that are subject to enforceable netting arrangements:

Fund	Instrument	Gross Amounts of Recognized Assets ¹	Gross Amounts Offset in the Statements of Assets and Liabilities	Net Amount of Assets Presented on the Statements of Assets and Liabilities	Gross Amounts Not Offset in the Statements of Assets and Liabilities

Note 4 – Fair Value Measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Funds would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

Note 5 – Investment Advisory Agreement and Other Agreements

Under the terms of an investment advisory contract, the Funds pay GI investment advisory fees calculated at the annualized rates below, based on the average daily net assets of the Funds:

Fund	Management Fees (as a % of Net Assets)
Nova Fund	0.75%
Inverse S&P 500® Strategy Fund	0.90%
NASDAQ-100® Fund	0.75%
Inverse NASDAQ-100® Strategy Fund	0.90%

Dow 2x Strategy Fund	0.90%
Inverse Dow 2x Strategy Fund	0.90%
Government Long Bond 1.2x Strategy Fund	0.50%
Inverse Government Long Bond Strategy Fund	0.90%
High Yield Strategy Fund	0.75%
U.S. Government Money Market Fund	0.50%

GI pays operating expenses on behalf of the Trust, such as audit and accounting related services, legal services, custody, printing and mailing, among others, on a pass-through basis. Such expenses are allocated to various Funds within the complex based on relative net assets.

The Board has adopted an Investor Services Plan for which GFD and other firms that provide investor services (“Service Providers”) may receive compensation. The Funds will pay investor service fees to GFD at an annual rate not to exceed 0.25% of average daily net assets. GFD, in turn, will compensate Service Providers for providing such services, while retaining a portion of such payments to compensate itself for investor services it performs.

GI and its affiliates have voluntarily agreed to waive their fees, including but not limited to accounting, shareholder investor services and investment advisory fees, in an attempt to maintain a positive net yield for the U.S. Government Money Market Fund. GI or its affiliates may terminate this voluntary waiver at any time upon notice to the Fund. When shareholder investor services fees are waived, dealer compensation will be reduced to the extent of such waiver.

NOTES TO FINANCIAL STATEMENTS (continued)

If a Fund invests in a fund that is advised by the same adviser or an affiliated adviser, the investing Fund's adviser has agreed to waive fees at the investing fund level to the extent necessary to offset the proportionate share of any management fee paid by each Fund with respect to its investment in such affiliated fund. Fee waivers will be calculated at the investing Fund level without regard to any expense cap in effect for the investing Fund. Fees waived under this arrangement are not subject to reimbursement to GI. For the year ended December 31, 2020, the following Funds waived fees related to investments in affiliated funds:

Fund	Amount Waived
Nova Fund	\$ 15,865
Inverse S&P 500® Strategy Fund	2,565
NASDAQ-100® Fund	39,126
Inverse NASDAQ-100® Strategy Fund	747
S&P 500® 2x Strategy Fund	13,961
NASDAQ-100® 2x Strategy Fund	38,278
Mid-Cap 1.5x Strategy Fund	2,859
Inverse Mid-Cap Strategy Fund	191
Russell 2000® 2x Strategy Fund	2,167
Russell 2000® 1.5x Strategy Fund	3,306
Inverse Russell 2000® Strategy Fund	789
Dow 2x Strategy Fund	7,731
Inverse Dow 2x Strategy Fund	1,635
Government Long Bond 1.2x Strategy Fund	6,042
Inverse Government Long Bond Strategy Fund	1,190
High Yield Strategy Fund	3,160

Certain trustees and officers of the Trust are also officers of GI and/or GFD. The Trust does not compensate its officers or trustees who are officers, directors and/or employees of GI or GFD.

December 31, 2020, GI and its affiliates owned over twenty percent of the outstanding shares of the Funds, as follows:

Fund	Percent of Outstanding Shares Owned
High Yield Strategy Fund	21%

MUFG Investor Services (US), LLC ("MUIS") acts as the Funds' administrator, transfer agent and accounting agent. As administrator, transfer agent and accounting agent, MUIS maintains the books and records of the Funds' securities and cash. U.S. Bank, N.A. ("U.S. Bank") acts as the Funds' custodian. As custodian, U.S. Bank is responsible for the custody of the Funds' assets. For providing the aforementioned services, MUIS and U.S. Bank are entitled to receive a monthly fee equal to an annual percentage of each Fund's average daily net assets and out of pocket expenses.

Note 6 – Repurchase Agreements

The Funds transfer uninvested cash balances into a single joint account, the daily aggregate balance of which is invested in one or more repurchase agreements collateralized by obligations of the U.S. Treasury and U.S. government agencies. The joint account includes other Funds in the Guggenheim complex not covered in this report. The collateral is in the possession of the Funds' custodian and is evaluated to ensure that its market value exceeds, at a minimum, 102% of the original face amount of the repurchase agreements. Each Fund holds a pro rata share of the collateral based on the dollar amount of the repurchase agreement entered into by each Fund.

NOTES TO FINANCIAL STATEMENTS (continued)

At December 31, 2020, the repurchase agreements in the joint account were as follows:

Counterparty and Terms of Agreement	Face Value	Repurchase Price	Collateral	Par Value	Fair Value
J.P. Morgan Securities LLC 0.06% Due 01/04/21	\$ 52,863,147	\$ 52,863,499	U.S. Treasury Note 2.13% 02/29/24	\$ 50,484,000	\$ 53,920,527
Barclays Capital, Inc. 0.06% Due 01/04/21	22,023,354	22,023,501	U.S. Treasury Note 1.63% 11/15/22	21,811,900	22,463,921
BofA Securities, Inc. 0.06% Due 01/04/21	20,391,995	20,392,131	U.S. Treasury Bond 5.25% 11/15/28	15,370,000	20,799,887

In the event of counterparty default, the Funds have the right to collect the collateral to offset losses incurred. There is potential loss to the Funds in the event the Funds are delayed or prevented from exercising their rights to dispose of the collateral securities, including the risk of a possible decline in the value of the underlying securities during the period while the Funds seek to assert their rights. GI, acting under the supervision of the Board, reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Funds enter into repurchase agreements to evaluate potential risks.

Note 7 – Portfolio Securities Loaned

The Funds may lend their securities to approved brokers to earn additional income. Security lending income shown on the Statements of Operations is shown net of rebates paid to the borrowers and earnings on cash collateral investments shared with the lending agent. Within this arrangement, the Funds act as the lender, U.S. Bank acts as the lending agent, and other approved registered broker dealers act as the borrowers. The Funds receive cash collateral, valued at 102% of the value of the securities on loan. Under the terms of the Funds' securities lending agreement with U.S. Bank, cash collateral and proceeds are invested in the First American Government Obligations Fund — Class Z. The Funds bear the risk of loss on cash collateral investments. Collateral is maintained over the life of the loan in an amount not less than the value of loaned securities, as determined at the close of fund business each day; any additional collateral required due to changes in security values is delivered to the Funds the next business day. Although the collateral mitigates the risk, the Funds could experience a delay in recovering their securities and a possible loss of income or value if the borrower fails to return the securities. The Funds have the right under the securities lending agreement to recover the securities from the borrower on demand. Securities lending transactions are accounted for as secured borrowings. The remaining contractual maturity of the securities lending agreement is overnight and continuous.

At December 31, 2020, the Funds participated in securities lending transactions, which are subject to enforceable netting arrangements, as follows:

Fund	Gross Amounts Not Offset in the Statements of Assets and Liabilities			Securities Lending Collateral		
	Value of Securities Loaned	Collateral Received ^(a)	Net Amount	Cash Collateral Invested	Cash Collateral Uninvested	Total Collateral
Nova Fund	\$ 47	\$ (47)	\$ —	\$ 50	\$ —	\$ 50
NASDAQ-100® Fund	124,680	(124,680)	—	132,676	—	132,676
S&P 500® 2x Strategy Fund	24,514	(24,514)	—	25,113	—	25,113
NASDAQ-100® 2x Strategy Fund	101,595	(101,595)	—	108,111	—	108,111
Mid-Cap 1.5x Strategy Fund	4,906	(4,906)	—	5,152	—	5,152
High Yield Strategy Fund	767,870	(767,870)	—	786,010	—	786,010

^(a) Actual collateral received by the Fund is generally greater than the amount shown due to overcollateralization.

In the event of counterparty default, the Funds have the right to collect the collateral to offset losses incurred. There is potential loss to the Funds in the event the Funds are delayed or prevented from exercising their rights to dispose of the collateral securities, including the risk of a possible decline in the value of the underlying securities during the period while the Funds seek to assert their rights. GI, acting under the supervision of the Board, reviews the value of the collateral and the creditworthiness of those banks and dealers to evaluate potential risks.

Note 8 – Federal Income Tax Information

The Funds intend to comply with the provisions of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and will distribute substantially all taxable net investment income and capital gains sufficient to relieve the Funds from all, or substantially all, federal income, excise and state income taxes. Therefore, no provision for federal or state income tax or federal excise tax is required.

Tax positions taken or expected to be taken in the course of preparing the Funds' tax returns are evaluated to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management has analyzed the Funds' tax positions taken, or to be taken, on U.S. federal income tax returns for all open tax years, and has concluded that no provision for income tax is required in the Funds' financial statements. The Funds' U.S. federal income tax returns are subject to examination by the Internal Revenue Service ("IRS") for a period of three years after they are filed.

The tax character of distributions paid during the year ended December 31, 2020 was as follows:

Fund	Ordinary Income	Long-Term Capital Gain	Return of Capital	Total Distributions

For U.S. federal income tax purposes, capital loss carryforwards represent realized losses of the Funds that may be carried forward and applied against future capital gains. The Funds are permitted to carry forward capital losses for an unlimited period and such capital loss carryforwards retain their character as either short-term or long-term capital losses. As of December 31, 2020, capital loss carryforwards for the Funds were as follows:

Fund	Unlimited		Total Capital Loss Carryforward
	Short-Term	Long-Term	
Inverse S&P 500® Strategy Fund	\$ (14,755,393)	\$ (1,740,141)	\$ (16,495,534)
Inverse NASDAQ-100® Strategy Fund	(7,145,368)	(828,602)	(7,973,970)
S&P 500® 2x Strategy Fund	(3,085,275)	(1,923,489)	(5,008,764)
Inverse Mid-Cap Strategy Fund	(1,741,811)	(129,290)	(1,871,101)*
Inverse Russell 2000® Strategy Fund	(6,813,314)	(843,932)	(7,657,246)
Dow 2x Strategy Fund	—	(335,444)	(335,444)
Inverse Dow 2x Strategy Fund	(19,188,041)	(2,180,638)	(21,368,679)
Government Long Bond 1.2x Strategy Fund	(8,750,903)	(2,341,077)	(11,091,980)
Inverse Government Long Bond Strategy Fund	(5,718,526)	(1,884,489)	(7,603,015)
High Yield Strategy Fund	(218,575)	—	(218,575)

* In accordance with Section 382 of the Internal Revenue Code, a portion of certain Fund losses are subject to an annual limitation. This annual limitation is generally applicable to all of the capital loss carryforwards shown with respect to each Fund.

For the year ended December 31, 2020, the following capital loss carryforward amounts were utilized:

Fund	Utilized
Russell 2000® 2x Strategy Fund	\$ 297,226

NOTES TO FINANCIAL STATEMENTS (continued)

Net investment income and net realized gains (losses) may differ for financial statement and tax purposes because of temporary or permanent book/tax differences. These differences are primarily due to investments in real estate investment trusts, losses deferred due to wash sales, investments in swaps, the “mark-to-market” of certain derivatives, distributions in connection with redemption of fund shares, return of capital distributions received, and the “mark-to-market,” recharacterization, or disposition of certain Passive Foreign Investment Companies (PFICs). Additional differences may result from the tax treatment of net operating losses and distribution reclasses. To the extent these differences are permanent and would require a reclassification between Paid in Capital and Total Distributable Earnings (Loss), such reclassifications are made in the period that the differences arise. These reclassifications have no effect on net assets or NAV per share.

The following adjustments were made on the Statements of Assets and Liabilities as of December 31, 2020 for permanent book/tax differences:

Fund	Paid In Capital	Total Distributable Earnings/(Loss)
Nova Fund	\$ 2,864,175	\$ (2,864,175)
Inverse S&P 500® Strategy Fund	(46,354)	46,354
NASDAQ-100® Fund	13,805,163	(13,805,163)
Inverse NASDAQ-100® Strategy Fund	(14,358)	14,358
S&P 500® 2x Strategy Fund	(139,970)	139,970
NASDAQ-100® 2x Strategy Fund	39,203,131	(39,203,131)

U.S. Government Money Market Fund	54,926,825	—	—	—

Note 9 – Securities Transactions

For the year ended December 31, 2020, the cost of purchases and proceeds from sales of investment securities, excluding government securities, short-term investments and derivatives, were as follows:

Fund	Purchases	Sales
Nova Fund	\$ 175,811,469	\$ 164,797,212
Inverse S&P 500® Strategy Fund	24,031,106	24,257,000
NASDAQ-100® Fund	128,854,511	123,341,331
Inverse NASDAQ-100® Strategy Fund	3,565,987	3,555,000
S&P 500® 2x Strategy Fund	576,042,035	586,342,801
NASDAQ-100® 2x Strategy Fund	511,547,825	488,745,658
Mid-Cap 1.5x Strategy Fund	17,671,224	17,892,323
Inverse Mid-Cap Strategy Fund	349,162	423,000
Russell 2000® 2x Strategy Fund	9,565,645	6,535,000
Russell 2000® 1.5x Strategy Fund	3,904,077	3,225,000
Inverse Russell 2000® Strategy Fund	1,338,424	1,510,000
Dow 2x Strategy Fund	57,978,246	58,811,187
Inverse Dow 2x Strategy Fund	7,806,154	7,860,000
Government Long Bond 1.2x Strategy Fund	20,226,134	19,570,000
Inverse Government Long Bond Strategy Fund	1,240,805	1,325,000
High Yield Strategy Fund	15,760,626	12,423,409

For the year ended December 31, 2020, the cost of purchases and proceeds from sales of government securities were as follows:

Fund	Purchases	Sales
Government Long Bond 1.2x Strategy Fund	\$ 420,485,406	\$ 414,901,219
Inverse Government Long Bond Strategy Fund	69,834,274	69,761,024

The Funds are permitted to purchase or sell securities from or to certain affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by a Fund from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under these procedures, each transaction is effected at the current market price to save costs, where permissible. For the year ended December 31, 2020, the Funds engaged in purchases and sales of securities, pursuant to Rule 17a-7 of the 1940 Act, as follows:

Fund	Purchases	Sales	Realized Gain (Loss)
Nova Fund	\$ 75,945,182	\$ 51,681,150	\$ 561,224
NASDAQ-100® Fund	62,377,843	42,259,704	9,618
S&P 500® 2x Strategy Fund	185,581,558	292,548,029	(204,677)
NASDAQ-100® 2x Strategy Fund	194,867,378	185,236,793	(1,707,913)
Mid-Cap 1.5x Strategy Fund	3,107,317	3,550,223	(39,848)
Dow 2x Strategy Fund	18,447,382	10,455,886	(171,914)
U.S. Government Money Market Fund	—	4,999,125	(866)

Note 10 – Line of Credit

The Trust, along with other affiliated trusts, secured an uncommitted \$75,000,000 line of credit from U.S. Bank, N.A., which expired June 8, 2020. On March 30, 2020, the Board approved increasing the line of credit from \$75,000,000 to \$150,000,000. On June 8, 2020, the line of credit agreement was renewed at the increased \$150,000,000 amount and expires on June 7, 2021. This line of credit is reserved for emergency or temporary purposes. Borrowings, if any, under this arrangement bear interest equal to the Prime Rate, minus 2%, which shall be paid monthly, averaging 1.54% for the year ended December 31, 2020. The Funds did not have any borrowings outstanding under this agreement at December 31, 2020.

The average daily balances borrowed for the year ended December 31, 2020, were as follows:

Fund	Average Daily Balance
Nova Fund	\$ 16,393
NASDAQ-100® Fund	96
S&P 500® 2x Strategy Fund	16,962
NASDAQ-100® 2x Strategy Fund	154,410
Mid-Cap 1.5x Strategy Fund	500
Russell 2000® 2x Strategy Fund	407
Russell 2000® 1.5x Strategy Fund	68
Dow 2x Strategy Fund	1,295
Inverse Dow 2x Strategy Fund	320
Government Long Bond 1.2x Strategy Fund	1,456

11 – Reverse Share Split

Share Splits

Effective on August 24, 2020, reverse share splits occurred for the following Funds:

Fund	Split Type
Mid-Cap 1.5x Strategy Fund	One-for-Ten Reverse Split
Inverse Dow 2x Strategy Fund	One-for-Five Reverse Split

The effect of these transactions was to divide the number of outstanding shares of the Mid-Cap 1.5x Strategy Fund and Inverse Dow 2x Strategy Fund by their respective reverse share split ratios, resulting in a corresponding increase in the NAV. The share transactions presented in the Statement of Changes in Net Assets and the Per Share Data in the Financial Highlights for each of the periods presented prior to the effective date, have been restated to reflect these reverse share splits. There were no change in net assets, result of operations or total return of these transactions.

Note 12 – Legal Proceedings

Tribune Company

Rydex Variable Trust has been named as a defendant and a putative member of the proposed defendant class of shareholders in the case entitled *Kirschner v. FitzSimons*, No. 12-2652 (S.D.N.Y.) (formerly *Official Committee of Unsecured Creditors of Tribune Co. v. FitzSimons*, Adv. Pro. No. 10-54010 (Bankr. D. Del.)) (the “*FitzSimons* action”), as a result of ownership by certain series of the Rydex Variable Trust of shares in the Tribune Company (“Tribune”) in 2007, when Tribune effected a leveraged buyout transaction (“LBO”) by which Tribune converted to a privately-held company. In his complaint, the plaintiff has alleged that, in connection with the LBO, Tribune insiders and shareholders were overpaid for their Tribune stock using financing that the insiders knew would, and ultimately did, leave Tribune insolvent. The plaintiff has asserted claims against certain insiders, major shareholders, professional advisers, and others involved in the LBO. The plaintiff is also attempting to obtain from former Tribune shareholders, including the Rydex Variable Trust, the proceeds they received in connection with the LBO.

In June 2011, a group of Tribune creditors filed multiple actions against former Tribune shareholders involving state law constructive fraudulent conveyance claims arising out of the 2007 LBO (the “SLCFC actions”). Rydex Variable Trust has been named as a defendant in one or more of these suits. In those actions, the creditors seek to recover from Tribune’s former shareholders the proceeds received in connection with the 2007 LBO.

The *FitzSimons* action and the SLCFC actions have been consolidated with the majority of the other Tribune LBO-related lawsuits in a multidistrict litigation proceeding captioned *In re Tribune Company Fraudulent Conveyance Litig.*, No. 11-md-2296 (S.D.N.Y.) (the “MDL Proceeding”).

On September 23, 2013, the District Court granted the defendants' omnibus motion to dismiss the SLCFC actions, on the basis that the creditors lacked standing. On September 30, 2013, the creditors filed a notice of appeal of the September 23 order. On October 28, 2013, the defendants filed a joint notice of cross-appeal of that same order. On March 29, 2016, the U.S. Court of Appeals for the Second Circuit issued its opinion on the appeal of the SLCFC actions. The appeals court affirmed the district court's dismissal of those lawsuits, but on different grounds than the district court. The appeals court held that while the plaintiffs have standing under the U.S. Bankruptcy Code, their claims were preempted by Section 546(e) of the Bankruptcy Code—the statutory safe harbor for settlement payments. On April 12, 2016, the Plaintiffs in the SLCFC actions filed a petition seeking rehearing *en banc* before the appeals court. On July 22, 2016, the appeals court denied the petition. On September 9, 2016, the plaintiffs filed a petition for writ of certiorari in the U.S. Supreme Court challenging the Second Circuit's decision that the safe harbor of Section 546(e) applied to their claims. The shareholder defendants, including the Funds, filed a joint brief in opposition to the petition for certiorari on October 24, 2016. On April 3, 2018, Justice Kennedy and Justice Thomas issued a "Statement" related to the petition for certiorari suggesting that the Second Circuit and/or District Court may want to take steps to reexamine the application of the Section 546(e) safe harbor to the previously dismissed state law constructive fraudulent transfer claims based on the Supreme Court's decision in *Merit Management Group LP v. FTI Consulting, Inc.* On April 10, 2018, Plaintiffs filed in the Second Circuit a motion for that court to recall its mandate, vacate its prior decision, and remand to the district court for further proceedings consistent with *Merit Management*. On April 20, 2018, the shareholder defendants filed an opposition to Plaintiffs' motion to recall the mandate. On May 15, 2018, the Second Circuit issued an order recalling the mandate "in anticipation of further panel review." On December 19, 2019, the Second Circuit issued an amended opinion that again affirmed the district court's ruling on the basis that plaintiffs' claims were preempted by Section 546(e) of the Bankruptcy Code. Plaintiffs filed a motion for rehearing and rehearing *en banc* on January 2, 2020. The Second Circuit denied the petition on February 6, 2020. On July 6, 2020, plaintiffs filed a new petition for a writ of certiorari in the U.S. Supreme Court. In that petition, plaintiffs stated that "[t]o make it more likely that there will be a quorum for this petition," they have "abandon[ed] the case and let the judgment below stand" with respect to certain defendants. That list did not include Rydex Variable Trust. Defendants filed an opposition to the petition for certiorari on August 26, 2020, and plaintiffs filed a reply in support of the petition for certiorari on September 8, 2020.

On May 23, 2014, the defendants filed motions to dismiss the *FitzSimons* action, including a global motion to dismiss Count I, which is the claim brought against former Tribune shareholders for intentional fraudulent conveyance under U.S. federal law. On January 6, 2017, the United States District Court for the Southern District of New York granted the shareholder defendants' motion to dismiss the intentional fraudulent conveyance claim in the *FitzSimons* action. The Court concluded that the plaintiff had failed to allege that Tribune entered the LBO with actual intent to hinder, delay, or defraud its creditors, and therefore the complaint failed to state a claim. In dismissing the intentional fraudulent conveyance claim, the Court denied the plaintiff's request to amend the complaint. On February 23, 2017, the Court issued an order stating that it intended to permit an interlocutory appeal of the dismissal order, but would wait to do so until it has resolved outstanding motions to dismiss filed by other defendants.

On July 18, 2017, the plaintiff submitted a letter to the District Court seeking leave to amend its complaint to add a constructive fraudulent transfer claim. The shareholder defendants opposed that request. On August 24, 2017, the Court denied the plaintiff's request without prejudice to renewal of the request in the event of an intervening change in the law. On March 8, 2018, the plaintiff renewed his request for leave to file a motion to amend the complaint to assert a constructive fraudulent transfer claim based on the Supreme Court's ruling in *Merit Management Group LP v. FTI Consulting, Inc.* The shareholder defendants opposed that request. On June 18, 2018 the District Court ordered that the request would be stayed pending further action by the Second Circuit in the SLCFC actions.

On December 18, 2018, plaintiff filed a letter with the District Court requesting that the stay be dissolved in order to permit briefing on the motion to amend the complaint and indicating plaintiff's intention to file another motion to amend the complaint to reinstate claims for intentional fraudulent transfer. The shareholder defendants opposed that request. On January 14, 2019, the court held a case management conference, during which the court stated that it would not lift the stay prior to further action from the Second Circuit in the SLCFC actions. The court further stated that it would allow the plaintiff to file a motion to amend to try to reinstate its intentional fraudulent transfer claim. On January 23, 2019, the court ordered the parties still facing pending claims to participate in a mediation, to commence on January 28, 2019. The mediation did not result in a settlement of the claims against the shareholder defendants.

On April 4, 2019, plaintiff filed a motion to amend the Fifth Amended Complaint to assert a federal constructive fraudulent transfer claim against certain shareholder defendants. On April 10, 2019, the shareholder defendants filed a brief in opposition to plaintiff's motion to amend. On April 12, 2019, the plaintiff filed a reply brief. On April 23, 2019, the court denied the plaintiff's motion to amend. On June 13, 2019, the court entered judgment pursuant to Rule 54(b). On July 12, 2019, the Plaintiff filed a notice of appeal with respect to the dismissal of his claims and the District Court's denial of his motion for leave to amend. Plaintiff filed an appellate brief on January 7, 2020. The shareholder defendants' brief was filed on April 27, 2020. Plaintiff filed a reply brief on May 18, 2020. The Court held oral argument on August 24, 2020.

None of these lawsuits alleges any wrongdoing on the part of Rydex Variable Trust. The following series of Rydex Variable Trust held shares of Tribune and tendered these shares as part of Tribune's LBO: Nova Fund, S&P 500 2x Strategy Fund, Multi-Cap Core Equity Fund, S&P 500 Pure Value Fund, Hedged Equity Fund and Multi-Hedge Strategies Fund (the "Funds"). The value of the proceeds received by the foregoing Funds was \$12,580, \$2,380, \$1,360, \$148,376, \$2,720, and \$119,034, respectively. At this stage of the proceedings, Rydex Variable Trust is not able to make a reliable predication as to the outcome of these lawsuits or the effect, if any, on a Fund's net asset value.

Note 13 – COVID-19 and Recent Developments

The global ongoing crisis caused by the outbreak of COVID-19 is causing materially reduced consumer demand and economic output, disrupting supply chains, resulting in market closures, travel restrictions and quarantines, and adversely impacting local and global economies. Investors should be aware that in light of the current uncertainty, volatility and distress in economies, financial markets, and labor and health conditions all over the world, the Funds' investments and a shareholder's investment in a Fund are subject to sudden and substantial losses, increased volatility and other adverse events. Firms through which investors invest with the Funds, the Funds, their service providers, the markets in which they invest and market intermediaries are also impacted by quarantines and similar measures intended to contain the ongoing pandemic, which can obstruct their functioning and subject them to heightened operational risks.

Note 14 – Subsequent Events

On February 10, 2021, the Trust, along with other affiliated trusts, increased the line of credit agreement with U.S. Bank, N.A. from \$150,000,000 to \$200,000,000.

The Funds evaluated subsequent events through the date the financial statements were available for issue and determined there were no material events, other than disclosed above, that would require adjustment to or disclosure in the Funds' financial statements.

To the Shareholders of Nova Fund, Inverse S&P 500[®] Strategy Fund, NASDAQ-100[®] Fund, Inverse NASDAQ-100[®] Strategy Fund, S&P 500[®] 2x Strategy Fund, NASDAQ-100[®] 2x Strategy Fund, Mid-Cap 1.5x Strategy Fund, Inverse Mid-Cap Strategy Fund, Russell 2000[®] 2x Strategy Fund, Russell 2000[®] 1.5x Strategy Fund, Inverse Russell 2000[®] Strategy Fund, Dow 2x Strategy Fund, Inverse Dow 2x Strategy Fund, Government Long Bond 1.2x Strategy Fund, Inverse Government Long Bond Strategy Fund, High Yield Strategy Fund and U.S. Government Money Market Fund and the Board of Trustees of Rydex Variable Trust

Opinion on the Financial Statements

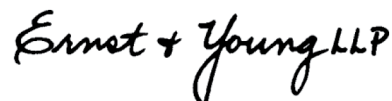

We have audited the accompanying statements of assets and liabilities of Nova Fund, Inverse S&P 500[®] Strategy Fund, NASDAQ-100[®] Fund, Inverse NASDAQ-100[®] Strategy Fund, S&P 500[®] 2x Strategy Fund, NASDAQ-100[®] 2x Strategy Fund, Mid-Cap 1.5x Strategy Fund, Inverse Mid-Cap Strategy Fund, Russell 2000[®] 2x Strategy Fund, Russell 2000[®] 1.5x Strategy Fund, Inverse Russell 2000[®] Strategy Fund, Dow 2x Strategy Fund, Inverse Dow 2x Strategy Fund, Government Long Bond 1.2x Strategy Fund, Inverse Government Long Bond Strategy Fund, High Yield Strategy Fund and U.S. Government Money Market Fund (collectively referred to as the “Funds”), (seventeen of the funds constituting Rydex Variable Trust (the “Trust”)), including the schedules of investments, as of December 31, 2020, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (seventeen of the funds constituting Rydex Variable Trust) at December 31, 2020, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended and their financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2020, by correspondence with the custodian, transfer agent, and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a stylized, cursive script.

We have served as the auditor of one or more Guggenheim investment companies since 1979.

Federal Income Tax Information

This information is being provided as required by the Internal Revenue Code. Amounts shown may differ from those elsewhere in the report because of differences in tax and financial reporting practice.

In January 2021, shareholders will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by shareholders in the calendar year 2020.

The Funds' investment income (dividend income plus short-term capital gains, if any) qualifies as follows:

Of the taxable ordinary income distributions paid during the fiscal year ending December 31, 2020, the following funds had the corresponding percentages qualify for the dividends received deduction for corporations.

Fund	Dividend Received Deduction
Nova Fund	3.66%
NASDAQ-100® Fund	1.88%
S&P 500® 2x Strategy Fund	1.45%
NASDAQ-100® 2x Strategy Fund	0.75%
Mid-Cap 1.5x Strategy Fund	15.70%
Russell 2000® 2x Strategy Fund	0.93%
Russell 2000® 1.5x Strategy Fund	3.18%
Dow 2x Strategy Fund	4.50%
High Yield Strategy Fund	0.02%

With respect to the taxable year ended December 31, 2020, the Funds hereby designate as capital gain dividends the amounts listed below, or, if subsequently determined to be different, the net capital gain of such year:

Fund	From long-term capital gain:	From long-term capital gain, using proceeds from shareholder redemptions:
Nova Fund	\$ —	\$ 1,163,202
NASDAQ-100® Fund	—	11,983,420
NASDAQ-100® 2x Strategy Fund	—	3,860,742
Mid-Cap 1.5x Strategy Fund	161,089	61,501
Russell 2000® 2x Strategy Fund	—	214,153
Russell 2000® 1.5x Strategy Fund	54,017	6,518
High Yield Strategy Fund	4,284	—
U.S. Government Money Market Fund	413	—

Delivery of Shareholder Reports

Paper copies of the Funds' annual and semi-annual shareholder reports are not sent by mail, unless you specifically request paper copies of the reports from the insurance company that offers your contract or from your financial intermediary. Instead, the reports are made available on a website, and you are notified by mail each time a report is posted and provided with a website address to access the report.

You may elect to receive paper copies of all future shareholder reports free of charge. You can inform the insurance company that you wish to receive paper copies of reports by following the instructions provided by the insurance company. Your election to receive reports in paper may apply to all portfolio companies available under your contract.

Proxy Voting Information

A description of the policies and procedures that the Trust uses to determine how to vote proxies relating to securities held in the Funds' portfolios is available, without charge and upon request, by calling 800.820.0888. This information is also available from the EDGAR database on the SEC's website at <https://www.sec.gov>.

Information regarding how the Funds' voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling 800.820.0888. This information is also available from the EDGAR database on the SEC's website at <https://www.sec.gov>.

Sector Classification

Information in the Schedule of Investments is categorized by sectors using sector-level Classifications defined by the Bloomberg Industry Classification System, a widely recognized industry classification system provider. Each Fund's registration statement has investment policies relating to concentration in specific sectors/industries. For purposes of these investment policies, the Funds usually classify sectors/industries based on industry-level Classifications used by widely recognized industry classification system providers such as Bloomberg Industry Classification System, Global Industry Classification Standards and Barclays Global Classification Scheme.

Quarterly Portfolio Schedules Information

The Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT, and for reporting periods ended prior to March 31, 2019, filed such information on Form N-Q. The Funds' Forms N-PORT and N-Q are available on the SEC's website at <https://www.sec.gov>. Copies of the portfolio holdings are also available to shareholders, without charge and upon request, by calling 800.820.0888.

INFORMATION ON BOARD OF TRUSTEES AND OFFICERS (Unaudited)

A Board of Trustees oversees the Trust, as well as other trusts of GI, in which its members have no stated term of service, and continue to serve after election until resignation. The Statement of Additional Information includes further information about Fund Trustees and Officers, and can be obtained without charge by visiting guggenheiminvestments.com or by calling 800.820.0888.

Who We Are

This Privacy Notice describes the data protection practices of Guggenheim Investments. Guggenheim Investments as used herein refers to the affiliated investment management businesses of Guggenheim Partners, LLC: Guggenheim Funds Investment Advisors, LLC, Guggenheim Partners Investment Management, LLC, Guggenheim Funds Distributors, LLC, Security Investors, LLC, Guggenheim Investment Advisors (Europe) Limited, Guggenheim Real Estate, LLC, GS Gamma Advisors, LLC, Guggenheim Partners India Management, LLC, Guggenheim Partners Europe Limited, as well as the funds in the Guggenheim Funds complex (the “Funds”) (“Guggenheim Investments,” “we,” “us,” or “our”).

Guggenheim Partners Investment Management Holdings, LLC, located at 330 Madison Avenue, New York, New York 10017 is the data controller for your information. The affiliates who are also controllers of certain of your information are: Guggenheim Investment Advisors (Europe) Limited, Guggenheim Partners Europe Limited, Guggenheim Partners, LLC, Guggenheim Funds Investment Advisors, LLC, Guggenheim Partners Investment Management, LLC, Guggenheim Funds Distributors, LLC and Security Investors, LLC, as well as the Funds.

Our Commitment to You

Guggenheim Investments considers your privacy our utmost concern. When you become our client or investor, you entrust us with not only your hard-earned money but also with your personal and financial information. Because we have access to your private information, we hold ourselves to the highest standards in its safekeeping and use. We strictly limit how we share your information with others, whether you are a current or former Guggenheim Investments client or investor.

The Information We Collect About You

We collect certain nonpublic personal information about you from information you provide on applications, other forms, our website, and/or from third parties including investment advisors. This information includes Social Security or other tax identification number, assets, income, tax information, retirement and estate plan information, transaction history, account balance, payment history, bank account information, marital status, family relationships, information that we collect on our website through the use of “cookies,” and other personal information that you or others provide to us. We may also collect such information through your inquiries by mail, e-mail or telephone. We may also collect customer due diligence information, as required by applicable law and regulation, through third party service providers.

How We Handle Your Personal Information

The legal basis for using your information as set out in this Privacy Notice is as follows: (a) use of your personal data is necessary to perform our obligations under any contract with you (such as a contract for us to provide financial services to you); or (b) where use of your personal data is not necessary for performance of a contract, use of your personal data is necessary for our legitimate interests or the legitimate interests of others (for example, to enforce the legal terms governing our services, operate and market our website and other services we offer, ensure safe environments for our personnel and others, make and receive payments, prevent fraud and to know the customer to whom we are providing the services). Some processing is done to comply with applicable law.

In addition to the specific uses described above, we also use your information in the following manner:

- We use your information in connection with servicing your accounts.
- We use information to respond to your requests or questions. For example, we might use your information to respond to your customer feedback.
- We use information to improve our products and services. We may use your information to make our website and products better. We may use your information to customize your experience with us.
- We use information for security purposes. We may use your information to protect our company and our customers.
- We use information to communicate with you. For example, we will communicate with you about your account or our relationship. We may contact you about your feedback. We might also contact you about this Privacy Notice. We may also enroll you in our email newsletter.

- We use information as otherwise permitted by law, as we may notify you.
- **Aggregate/Anonymous Data.** We may aggregate and/or anonymize any information collected through the website so that such information can no longer be linked to you or your device ("Aggregate/Anonymous Information"). We may use Aggregate/Anonymous Information for any purpose, including without limitation for research and marketing purposes, and may also share such data with any third parties, including advertisers, promotional partners, and sponsors.

We do not sell information about current or former clients or their accounts to third parties. Nor do we share this information, except when necessary to complete transactions at your request, to make you aware of investment products and services that we or our affiliates offer, or as permitted or required by law.

We provide information about you to companies and individuals not affiliated with Guggenheim Investments to complete certain transactions or account changes, or to perform services for us related to your account. For example, if you ask to transfer assets from another financial institution to Guggenheim Investments, we must provide certain information about you to that company to complete the transaction. We provide the third party with only the information necessary to carry out its responsibilities and only for that purpose. And we require these third parties to treat your private information with the same high degree of confidentiality that we do. To alert you to other Guggenheim Investments products and services, we share your information within our family of affiliated companies. You may limit our sharing with affiliated companies as set out below. We may also share information with any successor to all or part of our business, or in connection with steps leading up to a merger or acquisition. For example, if part of our business was sold we may give customer information as part of that transaction. We may also share information about you with your consent.

We will release information about you if you direct us to do so, if we are compelled by law to do so, or in other circumstances as permitted by law (for example, to protect your account from fraud).

If you close your account(s) or become an inactive client or investor, we will continue to adhere to the privacy policies and practices described in this notice.

Opt-Out Provisions and Your Data Choices

The law allows you to "opt out" of certain kinds of information sharing with third parties. We do not share personal information about you with any third parties that triggers this opt-out right. This means **YOU ARE ALREADY OPTED OUT**.

When you are no longer our client or investor, we continue to share your information as described in this notice, and you may contact us at any time to limit our sharing by sending an email to CorporateDataPrivacy@GuggenheimPartners.com.

European Union Data Subjects and certain others: In addition to the choices set forth above, residents of the European Union and certain other jurisdictions have certain rights to (1) request access to or rectification or deletion of information we collect about them, (2) request a restriction on the processing of their information, (3) object to the processing of their information, or (4) request the portability of certain information. To exercise these or other rights, please contact us using the contact information below. We will consider all requests and provide our response within the time period stated by applicable law. Please note, however, that certain information may be exempt from such requests in some circumstances, which may include if we need to keep processing your information for our legitimate interests or to comply with a legal obligation. We may request you provide us with information necessary to confirm your identity before responding to your request.

Residents of France and certain other jurisdictions may also provide us with instructions regarding the manner in which we may continue to store, erase and share your information after your death, and where applicable, the person you have designated to exercise these rights after your death.

How We Protect Privacy Online

We take steps to protect your privacy when you use our web site – www.guggenheiminvestments.com – by using secure forms of online communication, including encryption technology, Secure Socket Layer (SSL) protocol, firewalls and user names and passwords. These safeguards vary based on the sensitivity of the information that we collect and store. However, we cannot and do not guarantee that these measures will prevent every unauthorized attempt to access, use, or disclose your information since despite our efforts, no Internet and/or other

electronic transmissions can be completely secure. Our web site uses “http cookies”—tiny pieces of information that we ask your browser to store. We use cookies for session management and security features on the Guggenheim Investments web site. We do not use them to pull data from your hard drive, to learn your e-mail address, or to view data in cookies created by other web sites. We will not share the information in our cookies or give others access to it. See the legal information area on our web site for more details about web site security and privacy features.

How We Safeguard Your Personal Information and Data Retention

We restrict access to nonpublic personal information about you to our employees and in some cases to third parties (for example, the service providers described above) as permitted by law. We maintain strict physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

We keep your information for no longer than necessary for the purposes for which it is processed. The length of time for which we retain information depends on the purposes for which we collected and use it and/or as required to comply with applicable laws. Information may persist in copies made for backup and business continuity purposes for additional time.

International Visitors

If you are not a resident of the United States, please be aware that your information may be transferred to, stored and processed in the United States where our servers are located and our databases are operated. The data protection and other laws of the United States and other countries might not be as comprehensive as those in your country.

In such cases, we ensure that a legal basis for such a transfer exists and that adequate protection is provided as required by applicable law, for example, by using standard contractual clauses or by transferring your data to a jurisdiction that has obtained an adequacy finding. Individuals whose data may be transferred on the basis of standard contractual clauses may contact us as described below.

We'll Keep You Informed

If you have any questions or concerns about how we treat your personal data, we encourage you to consult with us first. You may also contact the relevant supervisory authority.

We reserve the right to modify this policy at any time and will inform you promptly of material changes. You may access our privacy policy from our web site at www.guggenheiminvestments.com. Should you have any questions regarding our privacy policy, contact us by email at CorporateDataPrivacy@GuggenheimPartners.com.

In compliance with SEC Rule 22e-4 under the U.S. Investment Company Act of 1940 (the “Liquidity Rule”), the Rydex Variable Trust (the “Trust”) has adopted and implemented a written liquidity risk management program (the “Program”) for each series of the Trust (each, a “Fund” and, collectively, the “Funds”). The Trust’s Board of Trustees (the “Board”) previously approved the designation of a Program administrator (the “Administrator”).

The Liquidity Rule requires that the Program be reasonably designed to assess and manage each Fund’s liquidity risk. A Fund’s “liquidity risk” is the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of the remaining investors’ interests in the Fund. The Program includes a number of elements that support the assessment, management and review of liquidity risk. In accordance with the Program, each Fund’s liquidity risk is assessed no less frequently than annually taking into consideration a variety of factors, including, as applicable, the Fund’s investment strategy and liquidity of portfolio investments, cash flow projections, and holdings of cash and cash equivalents, as well as borrowing arrangements and other funding sources. Certain factors are considered under both normal and reasonably foreseeable stressed conditions. There is no guarantee that the Program will achieve its objective under all circumstances.

Under the Program, each Fund portfolio investment is classified into one of four liquidity categories based on a determination of the number of days it is reasonably expected to take to convert the investment to cash, or sell or dispose of the investment, in current market conditions without significantly changing the investment’s market value. The Program is reasonably designed to meet Liquidity Rule requirements relating to “highly liquid investment minimums” (*i.e.*, the minimum amount of Fund net assets to be invested in highly liquid investments that are assets) and to monitor compliance with the Liquidity Rule’s limitations on a Fund’s investments in illiquid investments. Under the Liquidity Rule, a Fund is prohibited from acquiring any illiquid investment if, immediately after the acquisition, the Fund would have invested more than 15% of its net assets in illiquid investments that are assets.

During the period covered by this shareholder report, the Board received a written report (the “Report”) prepared by the Administrator addressing the Program’s operation and assessing the adequacy and effectiveness of its implementation for the period from December 1, 2018, through March 31, 2020. The Report concluded that the Program operated effectively, the Program had been and continued to be reasonably designed to assess and manage each Fund’s liquidity risk and the Program has been adequately and effectively implemented to monitor and respond to the Funds’ liquidity developments, as applicable.

Please refer to your Fund’s prospectus for more information regarding the Fund’s exposure to liquidity risk and other risks to which an investment in the Fund may be subject.
